# Only 50% Of Your Presentation Is Visual.

Make Sure Your Sound Is  
As Clear As Your Picture.

#### MIC STAND MOUNTABLE

*When you want it up close and personal, the SRM150 can be incorporated with your boom mic stand, making it ideal for small performance venues*

#### 150 W SERIOUS POWER

*Class-D amplifier provides ultra-clean and reliable output*

#### GENUINE MACKIE MIXER

*Three-channel mixer with true 48V phantom power and Mackie's world-renowned 3-band active EQ*

#### 5.25" NEODYMIUM SPEAKER

*The EAW-designed, weather-resistant, full-range neodymium driver makes the SRM150 the loudest A/V sound system in its class*

Don't just settle for another "Ho-Hum" boardroom presentation. Let new Mackie SRM150 Compact PA System get your message across loud and clear.

The SRM150 makes all the difference in how your presentation is perceived. Your next presentation will be an event to remember, thanks to its built-in three-channel mixer and powerful 150W Class-D amplifier. Plus, you get Mackie's legendary 3-band active EQ for supreme tone sculpting and feedback annihilation. Plug in a lavalier or headset mic (even those requiring 48V phantom power) along with your laptop or DVD/CD player, and give your most dynamic, entertaining presentation ever.

The Mackie SRM150—putting the "A" back into A/V.

# 40 SERIES: UNMASKED

From the outside, the side-address condensers in Audio-Technica's acclaimed 40 Series look pretty much identical: One elegant, acoustically ideal case design. That's the way our engineers wanted it — so they could concentrate all resources under the hood, where the distinct character of each microphone is born. This left us with the challenge of differentiating near look-alikes in our ads. Solution: We've opened up the hoods to give you a tour through five unique interior landscapes. Check our web site for a closer look.

## LISTEN AND COMPARE ONLINE

But there's an even better way to appreciate the warmth, power, clarity and sensitivity that make each 40 Series model so individual: Listen for yourself. We've posted audio samples on our web site so you can experience the distinctive sound of each microphone.

Inspired sound. It's what the 40 Series is all about.  
Listen in at [www.audio-technica.com](http://www.audio-technica.com).

### AT4033/CL

A Studio Classic

*Back in 1992 when Audio-Technica introduced the AT4033, it was the microphone that began the revolution in price/performance standards for professional side-address condensers.*

### AT4050

Multi-pattern Condenser

*With three switchable polar patterns, the AT4050 exhibits a remarkable combination of qualities: high-SPL capability with transparent and airy uppers/mids complemented by rich low-end qualities.*

### AT4047/SV

Vintage F.E.T. Sound

*The rich, warm sound takes you back to the classic F.E.T. studio microphones. But there's nothing remotely old-fashioned about the technology behind that vintage sound.*

### AT4060

Modern Tube Technology

*Audio-Technica's AT4060 cardioid vacuum tube condenser offers exacting detail, superb clarity and superior dynamic range in a classic tube design.*

### AT4040

Technically Advanced Large Diaphragm

*A blend of technical precision and artistic inspiration, the AT4040 offers exceptionally low noise, wide dynamic range and high-SPL capability for greatest versatility.*
