

TECHNICS SL-1200 MK2

Since 1978 the SL-1200 MK2 has built a solid reputation for being an incredibly durable piece of equipment that promises to keep the music playing no matter

what you throw at it. Its heavy aluminum body and thick rubber base make it impervious to vibration. The platter itself is an integrated component of its direct-drive motor, increasing its resiliency and making speeds more accurate.

- Accurate quartz locked pitch adjustment 16%(+/-8)
- High torque/low speed motor, starts and stops in 0.7 seconds
- Variable pitch, 33 1/3 and 45 RPM
- Cartridge not included
- Industry standard DJ turntable
- Dust cover, headshell, rubber platter mat, and 45 RPM adapter included
- Cartridge and stylus (needle) not included
- 26.5 lbs, 17-27/32" x 6-25/32" x 13-31/32"

#TESL1200MK2
\$489⁰⁰

TECHNICS SL-DZ1200

Designed from the ground to bring the look and feel of a classic SL-1200 turntable into the digital realm, the SL-DZ1200 features a familiar feeling direct-drive motor with a 10" spinning platter. Playback and scratch CDs, MP3s, and AACs on a disc or in the SD memory card slot. You can sample and loop a portion of the music playing quickly with in and out pads, and even edit and overlap the samples.

- Same quartz crystal direct-drive as the classic SL-1200
- (4) illuminated cue pads
- Forward/reverse instantly play backwards on the beat
- 12.8 lbs, 43/8" x 1239/64" x 13"
- Change tempo with changing pitch
- Adjustable brake and start up times
- Central display shows BPM, elapsed + remaining time, song data

#TESLDZ1200
\$779⁹⁵

TECHNICS SL-1210M5G

The SL-1210M5G incorporates all of the classic characteristics that have made the 1200 the standard for DJ worldwide, while adding a few more useful improvements over the original. The pitch is controlled digitally, insuring accuracy from deck to deck. The brake speed is adjustable, the lamps have been replaced with long life blue LEDs, and the black brushed steel body is easy on the eyes.

- Classic quartz direct-drive
- Silver Technics head shell
- Adjustable electronic brake speed
- 33 1/3 and 45 RPM
- Easily replaceable pitch controller
- Tonearm and cabling produces better sound
- High torque for fast start times
- Cartridge and stylus (needle) not included
- 25.74 lbs, 17-27/32" x 6-25/32" x 13-31/32"

NUMARK**TT1650**

The TT1650 is a DJ-ready turntable with some pro features at an inexpensive price. It ships with the Groove Tool cartridge, so you can start spinning right out of the box. Its s-shaped tonearm and ergonomic layout make it suitable for both club and battle style DJing. With multiple start/stop buttons and a pitch fader that's adjustable from +/- 10%, you'll have the tools you need to keep the music flowing.

#NUTT1650
\$169⁹⁵

- 33 and 45 RPM • S-shaped tonearm • Aluminum platter • Direct-drive high torque motor
- Groove Tool cartridge (needle) included • Lift Lever, Arm Rest and Arm Clip
- 45 adapter included • 11.8 lbs, 370mm(W) by 460mm(D) by 135mm(H)

NUMARK**TT500**

#NUTT500
\$299⁹⁵

Featuring the identical ultra-high torque direct-drive motor that's used in the TTX-USB, the TT500 offers top-quality vinyl operation for the DJ who doesn't require any digital functionality. Numark's pro features are all here, including adjustable start and brake speeds and reverse, interchangeable s-shaped and straight tone arms, and a selectable pitch range of +/- 50%. Its dense rubberized base and powdered steel top ensure immunity to vibration.

- 33, 45, and 78 RPM and reverse • Line level output • 19 lbs, 370mm x 460mm x 135mm
- Head shell included - cartridge and stylus (needle) not included
- Adjustable start and brake speeds • Precise cue, height and anti-skate adjustments
- Super bright LED target light and strobe • +/- 50% pitch control

NUMARK**TTUSB**

The TTUSB simplifies the process of transferring vinyl records into a computer. With a dedicated USB output and included PC and Mac software for audio recording and the removal of pops and clicks, you'll have everything you need to properly digitize your record collection. It even has an 1/8" input so you can connect the outputs of a cassette player to it and capture cassettes to a computer as well.

#NUTTUSB
\$169⁹⁵

- 33 and 45 RPM • 1/8" line level input to connect cassette player
- Phono and line level output • All necessary connection cables included
- Windows and Mac recording software included • Needle included
- 7.7 lbs, 20.27" x 17.16" x 6.85"

NUMARK**PT01**

#NUPT01
\$99⁹⁵

The PT01 is a battery-powered turntable that offers the vinyl enthusiast the freedom and portability to listen to records where ever they travel. Preview records at the thrift store and only take home the ones you need. With tone, gain, and pitch control and the ability to play 33, 45, and 78 RPM records, you'll have everything you need to play vinyl on-the-go.

- 33, 45, and 78 RPM • Line level output
- Built-in speaker, both 1/8" and 1/4" headphone jacks
- +/- 10% pitch control • Cartridge (needle) included
- Removable dust cover, built-in carrying handle
- AC power adapter included
- 12" x 12" x 4"

VESTAX**Handy Trax**

#VEHT1
\$129⁰⁰

The Vestax Handy Trax is a portable battery-powered record player that's ready to travel. Featuring an integrated carrying handle and dust cover, it plays back 33, 45, and 78 RPM records with a dynamically balanced tone arm that stays in the groove even at non-horizontal surfaces. It also includes an 1/8" line level input so you can connect another device like a CD or cassette player.

- 33, 45, and 78 RPM
- Line level and headphone output
- 1/8" line level input to connect a CD or cassette player
- Built-in speaker • Pitch and tone knobs, volume fader
- Dynamic balanced tonearm • Needle included
- 5.5 lbs, 370(W) x 97(H) x 260(D)mm

PIONEER
CDJ1000 MK3

#PICD1000MK3
\$1299⁰⁰

The popular CDJ1000 has established itself as the CD turntable of choice among professional DJs, and with the introduction of the MK3 it now features complete MP3 support for playback, scratching, and sampling of MP3s on CD-R and CD-RW. A host of other features rounds out this workhorse, including instant reverse, hot cue points, wave display, adjustable looping, internal and SD card memory and more.

- Scratch and loop CDs and MP3s
- Digital output
- Adjust start and brake time
- Fast front loading CD deck
- Floating suspension and shock memory prevent skipping
- Change tempo without affecting pitch
- Industry standard CD DJ turntable
- 9.5 lbs, 12-5/8"(W) x 14-9/16"(D) x 4-1/8"(H)

- VCF filters, with High-, Low- and Band-pass or multiple selection
- Replaceable Penny & Giles VCA crossfader • Balanced XLR and unbalanced 1/4" outputs
- (4) RCA phono turntable and (4) RCA phono line inputs
- (2) XLR microphone and (2) 1/4" TRS phone line inputs • 4-band EQ per channel

SOUNDCRAFT SPIRIT**URIE 1601E**

#SOU1601E
\$649⁰⁰

The URIE 1601E is a professional 2-channel DJ mixer designed for club performance and competition applications. The unit features a robust complement of internal effects processors, and a High-pass filter switch that eliminates turntable rumble and other low frequency operating noise. Each channel includes a 3-band EQ section, 360° adjustable mic/line toggle switches, and a replaceable, Open Fader design for long-term durability.

- Professional 2-channel club and competition DJ mixer • 3-band EQ per channel
- 25 internal multi-effects processors including Aural Exciter
- Full-range ultra-quiet internal digital signal processing
- (2) RCA phono turntable and (2) RCA phono line inputs
- XLR microphone input and 1/4" line insert • Balanced XLR and unbalanced RCA outputs

ALLEN & HEATH**XONE2:62**

The XONE2:62 is a rugged and compact 6-channel DJ mixer designed for professional mobile and club installation applications. The unit offers highly flexible connectivity, with 6 stereo input channels and Channels 1 and 2 dedicated to XLR microphone and stereo line requirements. A 4-band EQ is standard with each channel, and the mixer features VCF filtering and a durable Penny & Giles crossfader.

#ALXONE262
\$899⁰⁰

- Professional 6-channel mobile and installation DJ mixer
- 4-band EQ per channel with boost and cut
- Ultra low-noise operation, multi-voltage power for international use
- Rugged field-replaceable Penny & Giles VCA crossfader
- (4) RCA phono turntable and (4) RCA phono line inputs
- (2) XLR microphone and (2) 1/4" TRS phone line inputs
- Multiple stereo mix outputs include Booth, Aux and Record

PIONEER**EFX-500R**

#PIEFX500R
\$459⁹⁵

The EFX-500R is a professional compact MIDI effects processor for DJ's providing EQ, time-based and sound/distortion

effects. The effects groups may operate independently or simultaneously, and are frequency band and tempo adjustable and selectable. The effects are simply and effectively controlled by the jog dial wheel, with real-time sound effects control available using the Digital Jog Break function.

- Compact MIDI effects processor for DJ's
- 3-band EQ with steep 24dB/octave filtering
- 5 BPM effects include delay, flanging, echo, panning, transformer
- 5 sound effects include jet, zipper, wah-wah, fuzz, ring
- Auto BPM function for time-based effects
- MIDI I/O for external sync
- Input and Effect Out peak level monitoring

PIONEER**EFX-1000**

#PIEFX1000
\$799⁰⁰

The EFX-1000 is a professional MIDI effects processor made specifically for club and performance DJ's, loaded

with hi-res 24-bit/96kHz time-based effects processors and filters along with a precision jog dial for intense real-time control. The unit is equipped with a SPDIF digital I/O along with a flexible complement of analog connectors, and a digital link I/O for interfacing with compatible Pioneer mixers.

- Compact professional effects processor for DJ's and re-mixers • Ultra-precise assignable jog dial for real-time effects control • MIDI I/O for external sync
- Hi-resolution 24-bit/96kHz effects processing
- Effects include delay, flanging, echo, pitch echo, transform, filtering, phasing
- RCA SPDIF digital I/O connectors
- Balanced 1/4" and unbalanced RCA analog I/O

NATIVE INSTRUMENTS

TRAKTOR SCRATCH

Traktor Scratch is a cross-platform software program especially designed for computer-based DJ's who use turntable and CD hardware to mix, scratch and cue digital audio files. The program comes with a set of dual timecode-pressed CDR's and Vinyl records, and allows for complete control of AIFF, WAV and MP3 audio files, effectively eliminating several heavy cases of records and CD's.

- DJ software with full real-time mix, scratch and trick capabilities
- Timecode-pressed vinyl and CDR's included for "real feel"
- Track feature allows file scrolling from rig
- AIFF, WAV, and MP3 real-time control
- 2 Shure SC35C turntable cartridges included
- Mac OSX and Windows XP compatible
- Audio 8 USB interface for 24-bit/96kHz connection between rig and computer
