

ALTMAN 650 Watt Fresnel

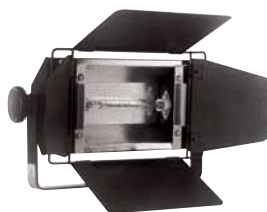

Altman's series of Proline location and studio Fresnels offer a combination of style, durability, performance and efficiency. The 600L and 1000L serve as key, backlight, or kicker.

Includes—

- 4- or 8-leaf barndoors • 3-in-1-snoot set
- Scrim • Hinged filter frames

#AL650LS **650 watts** **\$324.95**

#AL1000LS **1000 watts** **\$468.95**

ALTMAN Q-Lite Flood Light

This open-face fixture is a compact, lightweight multi-purpose flood/fill light, ideal for stage, studio, and location lighting applications, well-suited for use in tight or confined spaces where maximum light output and beam spread are required for fill or flood lighting.

Includes • Q-Lite • Color frame • Snoot & color frame holder • Safety cable • 36" AC power cable

#ALQL **\$174.95**

ALTMAN Soft-Lite

A lightweight indirect fill light, the Soft-Lite provides a very soft even wash of light. With a virtually shadowless beam, the Soft-Lite will uniformly illuminate an area 20.7' x 19.3' at a distance of ten feet, with a center intensity of 35 footcandles.

- Uses 2 double-ended tungsten halogen bulbs up to 1000 watts each, for a maximum of 2000 watts

lowel Rifa-EX Fluorescent Head

Fluorescent 3-Lamp Head

- Push-turn head for designed Rifa-EX softbox lights
- Fits all Rifa-EX boxes—88, 66, 55, or 44 softbox
- Easily change: available modules connect with a quick twist of the wrist

Daylight Fluorescent f/RIFA #LOFLOX3 **\$107.50**

Fluorescent/Incandescent f/RIFA #LOFLOX1 **\$52.50**

lowel Tota-Light

Compact, rugged, and versatile, it can be used with its umbrella or gel-frame & diffusion as a soft key, fill, or back light. With its adjustable reflectors, it can be a smooth and even background light, or point it toward the ceiling to raise the ambient (base) light level of a room. Tota is also widely used for photographic copy work.

- Even, smooth, broad light • 120 or 240v
- Adjustable reflector doors to vary intensity
- Uses 300, 500, 650, 750-watt lamps

#LOTL **\$113.95**

lowel Omni-Light

The wide focusing range of the Omni-light makes it a flexible key or back light. Add diffusion or an umbrella, for a soft fill source. Swap the power cord and lamp and it becomes a battery-powered, handheld light. Available with a host of accessories, built for heavy-duty long life, a perfect companion to the Tota Light.

- Max. Wattage-500w at 120v
- Multi-voltage AC/DC (120, 240 / 12v, 30v)

#LOOL **\$134.95**

lowel V-Light Flood Light

- 500 watts • Linear design produces an extremely wide angle, broad, smooth light
- Easy access control
- On/Off switch on rear of fixture
- Compact for easy storage
- Closes completely • Weight: 1.5 lbs

Flexfill Surfaces
White: Usually placed on the side of the subject opposite the light source, it bounces light back into the subject to lower contrast.
Silver: Similar in application to a white reflector, but produces a more specular fill. Use it for brightening shadows.
Gold: Similar in efficiency to silver, but adds warmth as well as light to the subject. Outdoors on a sunny day, it can eliminate the blue cast open sky contributes to shadows; indoors, it can warm up cool window light.
Black Absorb: Produces an effect just the reverse of a reflector, reducing the amount of light reaching the shadows—and creating higher lighting contrast.
Translucent: Designed for placement between the light source and subject to soften hard light. Reduces lighting contrast; improves modeling.
Silk: Similar in its diffusing effect to our translucent surface, but transmits twice as much light. 7 stop. Use it when you need more light & want somewhat harder shadows.
Black Net (single or double): Also placed between source and subject, but only to reduce the strength of the light, not its quality.

impact Umbrellas

Umbrellas soften, broaden, and diminish the light output of any tungsten or flash light source. Choosing an umbrella surface is as subjective as choosing a paint and brush.

PHOTOFLEX Softboxes

- LiteDome Q39** - Consistently delivers even, natural light from your strobe unit.
- SilverDome NXT** - Can be used with strobes or continuous lighting. Switch between high-contrast and buttery-soft lighting in seconds.
- MultiDome** - Gives you extensive creative control. This box is designed to work with strobe lights.
- WhiteDome** - Its unique, translucent design produces soft, nearly shadowless lighting. Ideal for lighting your videos, films, and large sets.
- MovieDome** - Exceptionally heat-resistant design for movie and video production.
- CineDome** - Has a narrower, deeper profile designed to maximize the light projection of your Fresnel lights.
- HalfDome2** - The narrow profile is great as a hairlight for group portraits or getting sleek, elongated catch lights in product photography.
- OctoDome NXT** - Designed to be used with the Starlite continuous light source or with strobe lights.

Aluminum Trussing Systems

Trussing is modular aluminum framework designed to support staging & lighting.

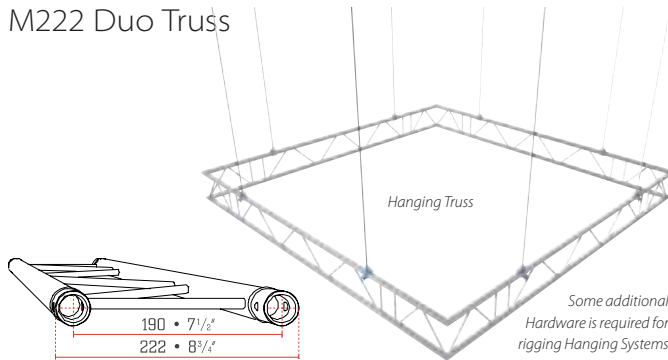

The Milos QuickTruss M222 System features solid conical connectors & tapered pins for an extremely Quick, Simple, and Secure assembly of structures. Available as complete Hanging & Floor kits or as Individual M222 Components.

Why use Trussing? The Milos QuickTruss system allows controlled focus of lighting & speaker components while making maximum use of allocated installation space. The space-saving Hanging or Floor systems have more available space for hanging than floor stands, and offer great weight loading capabilities (despite their small size & light physical weight). The modular design of QuickTruss system allows for infinite expandability; components can be reused for wide variety of staging applications.

Applications for Trussing include: Stage lighting, Live Sound/DJ applications, Studio Lighting, General Staging, Trade Shows, Retail, and Decorative. A rubber mallet is recommended for fastening components together

On-Stage Stands LS7720BLT Lighting Stand with Side Bars

This On-Stage Lighting Stand includes 2 side bars with M8 thread and wingnut mounts that hold up to 4 par fixtures each. It rises to a maximum height of 10.5 ft and folds down to 54". It has a 140 lb weight capacity, and a black finish.

- 48" Top T-Bar holds up to 4 Par lights
- 44" footprint allows support of fixtures up to 140 lb total

#ONLS7720BLT **\$79.95**

On-Stage Stands LS7740QR Lighting Stand with Quick Release Side Bars

This On-Stage Lighting Stand includes 2 Quick-Release bars with M8 thread and wingnut mounts that hold up to 4 par fixtures each. It rises to a maximum height of 10.5 ft & folds down to 54". It has a 140 lb weight capacity, and a black finish.

- 48" Top T-Bar holds up to 4 Par lights
- 44" footprint allows support of fixtures up to 140 lb total

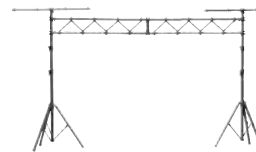

#ONLS7740QR **\$99.95**

BOWENS Jet Stream Wind Machine

A must for the fashion and beauty studio where creating movement in hair and clothes is essential. The Jet Stream's 2500 rpm fan creates all the breeze you need. The continuously variable, speed motor and 20' remote wire control is equally useful for table tops. It can be suspended from a Hi-Glide or other rail suspension system.

#BOJSWM **\$1,038.95**

On-Stage Stands LS7730 Lighting Stand with Truss

The On-Stage Lighting Stand with Truss allows quick setup of your lighting fixtures on a small stage or set. It consists of two 3 section stands with T-Bars that rise to a maximum height of 10.5'. The center truss is comprised of two 5' wide sections with plastic mounting brackets.

- Supports up to 250 lbs. of lighting equipment
- 4-ft wide T-Bars support additional fixtures
- Black-anodized finish

#ONLS7730 **\$167.95**
Lighting Stand Bag #LSB6500 **\$38.95**

On-Stage Stands LS9790 Lighting Stand with 10' Truss

The On-Stage Steel Lighting Stand with Truss allows quick setup of your lighting fixtures on a small stage or set. It consists of two 3 section stands with T-Bars that rise to a maximum height of 10.5'. The center truss is comprised of two 5' wide sections with plastic mounting brackets.

- Supports up to 400 lb of lighting equipment
- 4-ft wide T-Bars support additional fixtures
- Black-anodized finish

#ONLS9790 **\$244.95**

ROSCO Fog Machines

Alpha 900
It has a large volume for such a small machine. It is operated from a handheld remote attached to a 30' cord with an ON/OFF switch.

#ROA900FM **\$427.95**

#1700
Volume control on the remote. This allows the user to dial up the exact amount of fog needed for each effect. On/off timers for automatic initiation & cessation

#RO1700FM **\$729.95**

ROSCO Stainless Steel Gobos

Patterns, or gobos, are widely used by designers in theatre, film, photography, and television to create atmosphere, project scenery, and generally enhance the visual impact of their lighting. The Rosco range presently includes hundreds of standard stainless steel gobo designs.

A Size – 100MM	\$11.95
E Size – 37.5MM	\$11.95

• Seat 14" diameter • Base 25" diameter
• Pneumatic Height Adjustment 20 - 25.5"
with 4 Leg Tubular Base #PHPS \$99.95

impact AC Radio Slave System

This multi-functional radio slave system is designed to trigger strobes for flash photography wirelessly or to take exposure meter readings.

Includes: • AC 16-Channel Radio Slave Receiver

- AC 16-Channel Radio Slave Transmitter
- Male Mini to PC Adapter
- Male Mini to Male Phono Adapter
- Female Mini to Male Phono Adapter
- A23 12v Alkaline Battery

#IMACRSS16KQ **\$89.95**

MicroSync Digital 4 Channel

Radio Slaves

Using a hot shoe mount transmitter about the size of a CompactFlash memory card, it instantly sends a wake-up & triggering signal to its mated "H" prong receiver plugged directly into your strobe pack or monolight. This 4-channel system functions at distances of up to 100'.

Size	Receiver Only	Kit
Monoplug	#MIRM \$129.95	#MITRKM \$129.95
"H" Prong	#MIRH \$129.95	#MITRKH \$129.95

PocketWizard™ Pocket Wizard Plus II

Combined Transmitter and Receiver

- Auto-Sensing Transceiver Technology determines which mode (Transmit or Receive) to set itself.
- Photographers can trigger their cameras remotely, and the camera-mounted transceiver relays the signal to a remote flash—automatically.

#WIPWP2T **\$188.95**

AC Slave Strobes

Slave strobes screw directly into a standard AC socket and allow you to boost or fill in with any electronic flash by means of its built-in slave. Bare Bulb model covers 180°.

SP-72 Screw-In (G.N. 72) #SP72 \$32.50

SP-72PCT with PC Socket (G.N. 72) #SP72PCT \$49.95

Flotone Graduated Backgrounds

A synthetic PVC material with beautiful, smoothly graduated backgrounds that afford interesting lighting effects. Each sheet is individually handmade to achieve a silky matte, non-glare surface. The material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers etc. They can be cleaned with a mild soap solution and soft cloth, making Flotone eminently reusable.

Canvas Series

Canvas backdrops are made of heavy cotton canvas and paints specially mixed for elasticity and durability. These backdrops will last decades.

Canvas Scenic Series

Canvas Scenic backdrops are carefully hand-painted scenes on heavy cotton canvas, when you need something more specific than abstract colors in your backdrops. These backdrops are highly durable.

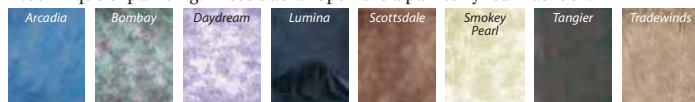

Old Master Scenic Series

Canvas Scenic backdrops are carefully hand-painted "Old Master" scenes on heavy cotton canvas, when your shot requires a touch of the traditional. These backdrops are also highly durable.

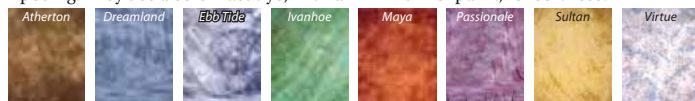

Classic Muslin Series

The Classic Series is a wide array of color choices, presented in a softly blended technique of painting. These backdrops have a painterly "canvas look."

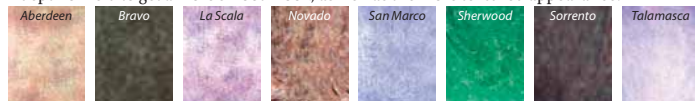

Designer Muslin Series

The Designer Series backdrops are very soft, easily draped muslins for care-free posing. They use a color-fast dye, with a minimum of paint, for softness.

Europa Muslin Series

The Europa Collection is for the photographer who wants a backdrop having a definite texture - a bolder look, not blended. With this stronger Europa texture, you can adjust your depth of field to get a more smooth look, as well as the more textured appearance.

Impression Muslin Series

The Impressions Series is an unusual array of color and pattern choices.

Lastolite Collapsible Backgrounds

The ultimate location accessory! Now you can have even greater flexibility on location or in the studio with our Collapsible Reversible Backgrounds. Features crease resistant fabric and folds to one-third of its original size. Perfect for varying sizes from solo portraits to small groups. Zip up bag included.

Digital Flash Umbrella Kit

With this B&H exclusive kit, you can get professional studio-quality lighting with your existing on-camera flash. Just place the brackets on top of the lightstands. Then mount your on-camera flashes on top of the brackets. Place the umbrella shafts through the holes provided in the brackets and you're ready to start shooting. The convertible umbrellas give you the option to shoot through the umbrella to soften the light or to bounce the light for an even softer look.

- Includes:**
- 2 Umbrella Bracket
 - 2 32" Convertible Umbrella
 - 2 Air-cushioned Black Stands
