

DUE TO POPULAR DEMAND, WE HAVE BROUGHT BACK THE DURABLE HENSEL INTEGRA 500 TWO AND THREE LIGHT KITS AT SPECIAL PRICING!

FROM \$1299

ATTENTION PHOTOGRAPHERS!

HENSEL
performing light

Because of popular demand they have returned and have been improved with a sliding stand mount for counter balancing large light modifiers, improved air cushioned light stands, and a new rolling travel case with a solid inner piece design.

The 2 light kit (#7048815EN) is only \$1,299.00 and the 3 light kit (#7338815EN) is only \$1,899.00. These lighting kits are by far the most durable, high quality lighting kits available for a great price and are complete kits with many useful accessories! They are used 7 days a week, 12 hours a day by major cruise ship companies around the world for their event photography. They do not include a wireless RC system but most Wizards will work with them. They are made 100% in Germany, have a solid metal housing, and are multi-voltage, fan cooled and not made in China or India like other companies do.

Purchase either one of these new kits or any Hensel Lighting kit, and receive a FREE 3 Foot Octa Softbox and Speedring Adapter at NO CHARGE (#300090S) until June 30, 2013. THIS IS A \$300 VALUE!
