

Sport & Helmet Video Cameras

Sport and helmet video cameras are tearing the envelope like never before, and these on-board POV (point-of-view) systems will be there for you every step and slide of the way. They're shock-resistant, water-and dust-proof, built to handle your lifestyle and capture all of it on light-weight, ultra reliable tapeless media with crystal-clear imagery.

POV cameras are easily attachable to where you need them, feature lengthy SD-card storage times in a variety of formats, and download quickly to NLE systems. No matter how you grip it and rip it, your POV is captured for keeps.

Filmmakers are also pushing the edges of the frame, and POV cams are making music videos, documentaries, and indie films more visceral and exciting than ever. Extended techniques and hybrid styles are now part of a shooter's vibe. POV cams can capture the unique footage you want, for projects that crackle and pop with energy. These unique cameras are also ideal for undercover applications. They're small enough for situations impractical or inaccessible to conventional cams. Wherever your ride takes you, POV cams are the new generation of image capture.

DRIFT HD 170 Action Camera

Wearable action camera with integrated LCD and wireless remote, the waterproof HD170 features everything you need to capture your extreme sports videos and photos in glorious HD. It records 720p and 1080p HD video (as well

as 5-megapixel photos) from a 170° fully rotatable wide angle lens. 4x digital zoom get you even closer to the action.

on a bicycle

on helmet

Integrated 1.5" LCD lets you line-up the perfect shot, preview footage and share with friends. The lens can be rotated 300° enabling you to mount the camera at whatever angle works best for you. In addition to allowing hands-free video and photo, the wrist-mounted remote control (10' range) also safely starts and stops recording, and saves edit time by making it easy to shoot shorter clips.

- Eye-popping orange body is also waterproof up to 16'.
- Night mode for optimal low-light performance.
- Records video and 5MP still photos to SD/SDHC memory cards
- Includes an assortment of mounts to wear the HD170 on your head, goggles, handlebars and more.
- Built-in microphone and speaker, plus you can also add an optional external mic

HD 170: Includes remote control, handle bar grip, goggle mount, head strap, helmet grip, universal clip, velcro strap and HDMI cable (DRHD170)**329.00**

X170: For those looking to save money, the X170 is similar except it only captures 720 x 480 standard video (DVD quality) resolution, has no ext. mic input and no digital zoom (DRX170)**Call or Log-on**

veho™

Muvi Atom

Measuring just 1.75 x .75 x .75" (HxWxD), the Muvi Atom is ideal for more than just hand-held video. Use the included sports kit to attach the Muvi Atom to your bike, helmet or wall, to capture intriguing videos from a unique perspective. Supplied mounting clip allows you to clip the camera right onto your clothes or bag. Recording 640 x 480 standard definition videos and 1280 x 960 digital stills to microSD card. Standby mode with noise activation. Built-in lithium-ion rechargeable battery is easily powered up for up to 45 minutes continuous operation. Just connect it to your computer via the USB connection and you'll be ready to go again in no time.

Muvi Atom: In Black (VEVCC004B) or Turin White (VEVCC004W)**Call or Log-on**

Muvi Mini Cam

The Veho Muvi Mini Cam is the smallest video camera in the world featuring a high resolution 2MP camera. Perfect for extreme sports, the Muvi unique micro design enables digital video recording in situations where it may not be possible to use standard camcorders. Coupled with the Extreme Sports Pack the Muvi Mini Cam allow you to capture high quality AVI 640 x 480 digital video and sound hands-free. Plus, it's very durable with robust thumb sized alloy metal casing.

- Comes with a 2GB Micro SD Card, enough for 90 minutes of footage
- Connects to a computer via micro USB, so you can upload videos in seconds (or use as a webcam).
- Built in rechargeable battery runs the 2-3 hours
- Charge through any USB for for complete portability
- Voice activated start/stop recording function for hands-free recording

Muvi Mini Cam: In Black (VEVCC003M) or Turin White (VEVCC003MT)**Call or Log-on**

Muvi-PRO Mini Cam: Same as above, plus features time and date stamp, FRE Technology (up to 30 fps) and includes 4GB Micro SD card. In Black (VEVCC003P)**Call or Log-on**

Pro Handle Bar Mount

Waterproof Case

Waterproof Case for Muvi Mini: Hard plastic housing protects the camcorder up to 100' underwater, while allowing access to most controls. (VECWIP)**34.90**

ELMO

SUV-CAM II Micro Video Camera System

A tough, portable video recording system that can be used for sports, security and industrial applications, the SUV-Cam II is small enough to be mounted in places inaccessible to conventional cameras. Records 2½ hours of DVD-quality on a 4GB SD/SDHC card and can be viewed on the recorder's 2.2" LCD screen or output to a monitor.

- Records in MPEG-4 format video to a SD/SDHC card. Images can be played back right on the recorder's 2.2" color LCD screen, on a PC, or a large TV/monitor via its A/V ports. The use of SD cards as a storage medium is ideal for this recorder given a flash memory drive's virtual immunity to shock and vibration.
- When the action starts there is no time to fiddle around with menus and settings to get the system to start recording. Simply needs to press the Start/Stop button once and the unit instantly goes into recording mode even if it's been turned off. There is also a 'hold' feature to prevent the 'stop' button from being accidentally pressed during intense or extreme movements.
- Although the camera is ultra compact, it is built of a tough metal waterproof material able to submerge down to 132'. Pleasure divers and career marine biologists alike will love recording the wondrous sights and sounds under the sea. (The recorder cannot be immersed in water.)

SUV-CAM II with 2.6' Cable (ELSC23C) **747.95**

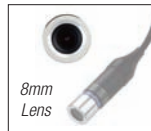

SUV-CAM II with 5' Cable (ELSC25C) **764.95**

SUV-Cam Pro (recorder only): Same as the SUV-Cam II, except it accepts cameras with longer cable lengths (9.8' and 16.4') and also supports schedule based recording. (ELSCP)..... **594.95**

Replacement Battery: Lithium ion battery pack for SUV-CAM II (ELSCBP) **47.95**

External Battery Holder: When the internal battery is about to run out and there's no time to recharge, the case holds 4 AA batteries and will provide 3 hours of sequential recording (ELSCBEC) **29.95**

- The focusing ring is designed that it shouldn't become de-focused under most operating conditions. Additionally, this system enlists the aid of a sophisticated white balance function to ensure that your skies don't turn out green and your snow doesn't acquire a yellowish tinge.

2.8mm Wide Conversion Lens (ELSC28)..... **74.00**

6mm Lens (ELSC6)..... **34.95**

8mm Lens (ELSC8)..... **42.00**

Swivel Mount: Attaches to the camera via a clip and allows for a swivel adjustment of the camera angle. (ELSCSM)..... **32.95**

Helmet Mount: Rubber mount attaches to a helmet via hardware and/or adhesive and offers a secure attachment for the camera with a cable routing tray. (ELSCM)..... **15.95**

POV.1.5 Point-of-View Video Systems for Extreme Action Sports

The innovative POV.1.5 captures the most thrilling point of view—yours. This hands-free video sports system is built to withstand the dust, shock and water that make action sports fun. The camera head mounts to your gear, helmet, or handle bars, while the all-digital, flash memory recorder can be mounted nearby or stowed easily in your pack. The remote controlled recorder has a straight record mode and an edit-on-the-go space saving mode. Recording in DVD-quality MPEG4 video, the POV.1.5's wide aspect ratio mode allows you to merge footage into an HD workflow. The POV.1.5 package—with a tethered camera head, built-in video recorder, 4GB SD card (8GB limit), wireless remote and software for managing your point-of-view videos allows you to shoot, tag, edit, and share your footage right out of the box.

- High-quality wearable video camera records with 720 x 480 resolution at 30fps
- Ergonomic user interface design enables single-handed operation and hands-free video capture
- Shock-resistant, water-resistant and dustproof for use in the most hazardous environment

POV.1.5: Digital Helmet Camera System (VIPOV150) **399.95**

POV Pouch: Fitted Cordura nylon case for the recording unit. Attaches to any belt, pack or vest via two touch fastener belt strips. (VIPOV145)..... **18.00**

POV H2O Pouch: Submersible PVC pouch with locking knobs allows you to use the recorder up to 10' underwater up to 2 hours. (VIPOV162)..... **79.95**

POV Mount Kit: Provides you with a variety of ways to attach your POV image head to just about anything. (VIPOV650)..... **57.00**

C-Clamp: For mounting POV cam to tube or Picatinny rails (VIPOV126)..... **7.95**

Ultra Clamp: Mount the camera to different items from 1/8-1½" thick like a bike seat post. Use it with flex mounts or as a stand alone for capturing exciting shots (VIANL016)..... **24.95**

12" Flex Mount: For capturing hard to get angles (VIANL015)..... **14.95**

Wide Flange Base: Gives a base for attaching to a helmet or any smooth surface. (VIPOV123) **11.95**

POV Chest Harness: Can be worn over and under jackets, holds the POV recording unit to the chest. Shoulder strap h attaches to a goggle mount. The camera head can be mounted on harness shoulder strap or on a helmet or goggles. (VIPOV174) **29.95**

POV Chest Harness Kit: Same as above, plus POV pouch and goggle mount (VIPOV189) **54.95**

RAM POV Recorder Cradle: Secures the POV recording unit allowing for hands-free, worry-free, recording. (VIPOV194) **34.95**

RAM POV Recorder Cradle + RAM Suction Mount: The cradle holds the POV recorder for use in multiple settings, while the RAM Suction Mount connects both pieces, along with the recording unit, to any smooth, non-porous surface. (VIPOV195) **74.95**

RAM POV Recorder Cradle + Ultra Clamp: The cradle holds the POV recorder for use in multiple settings, while the Ultra Clamp can secure both accessories, and the mounted recording unit, to surfaces or items from 1/8-1½" in diameter. (VIPOV197)..... **64.95**

RAM Suction Cup Mount: Mounts the POV camera to any smooth, non-porous surface, like glass or non-porous plastic, with an ultra-tight grip. 2" adjustable arm for multiple recording options, and a 1/4-20 threaded male connector for numerous mounting options. (VIPOV198) **39.95**

RAM Suction Mount + POV Camera Clamp (VIPOV199) **49.95**

Double Hook and Loop Mount: Mounts your POV helmet cam to most vented helmets via the hook and loop fastening system. (VIANL008)..... **6.95**

Right Angle Hook & Loop Mount: Mounts the POV camera to handle bars, paddles and other equipment with a smaller than 1½" circumference. (VIANL009)..... **6.95**

POV Lens Shield: Use when road trophy truck or rally car racing, and dirt bikes. (VIPOV1630) **12.95**

Digital AV Cable: 5' cable for use with the POV.1 camera. Features an inline mic with adjustable levels for capturing audio in a variety of settings. (VIPOV103)..... **64.95**

POV Extension Cable: Add length to your camera head's digital video cable. Get an extra 11.5' for maneuvering or mounting your camera head with ease. (VIPOV161)..... **54.95**

New! POV. HD

Equipped with a native 1080p CMOS sensor and high quality, 6-element glass lens, the POV.HD delivers incredible sensitivity, vibrant color and enhanced resolution. It has a high resolution 2-inch LCD, and incorporates advanced TI Da Vinci processing to offer realtime lens distortion correction, vignetting correction and lens softness correction. Shockproof, waterproof and dustproof, it offers Full HD 1920 x 1080p video at 30 fps (142°) and 1280 x 720p at 60 fps (95°) for slow motion sports.

- In-field exposure control includes video brightness and exposure metering (Full Frame, Center Zone, Bottom Zone).
- In-field editing lets you "tag" scenes while recording them from either the recorder or the supplied wireless remote control. Compile tagged scenes into highlight clips automatically and in-the-field.
- Four recording modes:
 - Clip Mode: Start and stop recording action from the POV
 - Loop Mode: Capture footage from the past
 - Loop & Forward Mode: Capture footage from the past + continuous recording into the future
 - Still Image Mode

HD Helmet HERO

Wearable 1080p HD Video and Still Photo Camera

HD Helmet HERO gives you everything you need to capture 1080p HD footage as well as 5MP digital stills. from your helmet, vehicle, or other equipment. With 3 helmet mounts, 2 gear or vehicle mounts and even a head strap for wearing the camcorder like a headlamp you can record all your adventures in high resolution while your hands remain free to perform the task at hand. You can even take it 180' underwater thanks to the waterproof housing. Plus, the tough polycarbonate housing protects the camera from jumps, flips, rolls, and crashes. The camera can shoot photos automatically every 2, 5, 10, 30, or 60 seconds until the battery dies or the SD card fills. You can also set it to take a single shot, triple shot, or use the self-timer to get yourself in the photo. In addition to all that, the HD Helmet HERO is compatible with all of GoPro HERO's optional mounting accessories, meaning the possibilities for shooting are endless.

- Offers three different HD resolutions, giving you three filming modes to capture the best angles for any given activity:
 - 1080p: 1920 x 1080 True HD featuring a 127° angle of view, 30 fps, and 16:9 widescreen aspect ratio
 - 960p: 1280 x 960 Ultra Wide and Tall HD featuring a 170° angle of view, 30 fps, and 4:3 aspect ratio. See more of the action above and below than widescreen 16:9 resolutions can show.
 - 720p: 1280 x 720 Ultra Wide HD featuring a 170° angle of view, both 30 and 60 fps, and 16:9 widescreen aspect ratio

- Battery provides up to 2.5 hours of continuous recording. You can recharge the battery up to 80% in as little as 1 hour when plugged into a USB compatible wall or car charger or 2 hours when plugged into your computer's USB port. The camera can also be used while charging. Built-in heating system keeps the battery warm even in colder weather.

HD Helmet HERO (GOHHH)299.95

HD Motorsports HERO: Same as HD Helmet HERO except it mounts to motorcycle, ATV, car, plane, jet ski, boat, or snowmobile using specialized Motorsports package. (GOHMH)**299.95**

HD Surf HERO: Specifically designed for shooting high definition video while you surf, the HD Surf HERO mounts to your board in seconds with the included adhesive base mounts—proven in heavy surf from Hawaii to Tahiti. Or you can install an FCS™ fin plug into the deck of your board and then use the camera mounting plug to allen key your HD Surf HERO into the FCS™ plug. Optional accessories can be used for shooting in a variety of other settings as well. (GOHSH)**269.95**

HD HERO Naked: Why "Naked"? Because this HD video/still camera is compatible with ALL GoPro HERO camera mounting accessories. This means you can mix and match optional accessories for quick setup in any number of applications. With the appropriate optional mounting accessories in place you'll be ready to film with your helmet, vehicle, RC car, surfboard, and anywhere else you can stick a mount. All you'll have to do is pop the camera into place and go. (GOHDHC)**259.95**

Helmet HERO Wide: Same as HD version, except it records standard definition 512 x 384 video (GOHHW)**149.95**

Motorsports HERO Wide: Same as HD version, except it records standard definition 512 x 384 video (GOMSHW)**149.95**

Surf HERO: Same as HD version, except it records standard definition 512 x 384 video (GOSH)**119.95**

RC HERO Wide: Same as Helmet HERO Wide except designed for mounting on remote control car, plane, boat, or other RC powered vehicles. Mount the camera in the cockpit or under the fuselage of your remote control plane for airborne recording. The 'upside down' mode flips the recorded image for installations that require the camera to be mounted upside down (GORHR)**179.95**

Replacement Rechargeable Battery: For HD Hero cameras (GOBHDH)**19.95**

Quick Release Housing: Spare or replacement housing for Wide SD cameras (GOQRWH)**39.95**

Quick Release Housing: Spare or replacement housing for HD cameras (GOQRHH)**39.95**

Surf HERO Mounting Kit: Revolutionary system for attaching GoPro camera to a surfboard (GOSHEK)**19.95**

Suction Cup Mount: Industrial strength suction cup for attaching an HD Hero to cars, boats, kayaks, surfboards, motorcycle gas tanks, etc. Proven at 135 mph. (GOSCM)**29.95**

Anti-Fog Inserts: Prevents any GoPro housing from fogging in cold temperatures or humid environments. (GOAFI)**14.95**

Chest Mount Harness: Fully adjustable design fits all shapes and sizes, including over large jackets. See your knees and skis on the slopes, bike frame and handlebars while riding. A more immersive view than helmet mounting (GOCMH)**39.95**

Grab Bag: Bag of expansion parts for attaching an HD HERO camera to more helmets and gear. (GOGB)**19.99**

Vented Helmet Strap: Makes it easy to attach an HD HERO camera to any vented helmet. (GOVHSE)**14.95**

Head Strap Mount: Head strap mount for quick-release HERO cameras. One size fits all adjustability (GOGPHS)**14.95**

Lens Replacement Kit: Two lenses and seals per kit, replacement screws and screwdriver for hassle-free repairs. For HD HERO and HERO Wide housings (GOLKWH)**19.95**

Roll Bar Mount: Attaches camera to cars, boats, ATVs, etc. Mount fits on any parts ranging from 1.4-2.5" in diameter, allowing virtually countless angles to shoot from (GORBM)**29.95**

Ride HERO: Combination handlebar and seat post mounting clamp for stable on-bike video—fits motorcycle handlebars and more. Fits tubes and shapes from 0.75-1.4" in diameter (GORH)**19.99**

VholdR™
WEARABLE CAMCORDER

ContourHD 1080p
Wearable Camcorder

Capture and share your most exhilarating extreme experiences with the rugged, weatherproof ContourHD. An all-in-one contained unit that mounts to virtually anything, use it to capture all the action

when you're riding, skating, wind surfing and then some. 135° rotating lens gives you a wide angle view and at the same time is fixed focus, allowing you to forget about the camera and keep your eyes on the trail, slope, or road. Record 8 hours on a 16GB MicroSD card (includes 2GB card). Over-sized record switch makes it easy to record—even with gloves on. No need to fuss with focus: camera's dual lasers, activated on demand, indicate where it's pointed and if it's level. Lens and capture card rotate in unison within a pivoting, hermetically sealed capsule—so no matter how upside-down, ContourHD makes it level.

ContourHD 1080p Camcorder (VHCHDWC)299.95

USB Battery Charger (VHACA)17.95

Car Charger (VHBCC)19.99

Replacement Battery: 3.7v, 1050mAh (VHBN)**24.99**

Universal Wall Charger (VHBWCN)39.95

Hard Carrying Case: Holds camera with microSD cards and extra battery. Has two mesh pockets and a carabiner that attaches the case to a strap or belt loop. (VHCC)**29.99**

Waterproof Case: Allows the camera to go 33' underwater. (VHWPC)**39.99**

Handle Bar Mount: Attaches ContourHD to standard 29mm handle bars. Mount rotates 360°, giving you numerous angles from which to capture all the action. (VHBHM)**29.95**

Flat Surface Mount: Attach the camera to any flat surface, including cars and non-vented helmets. (VHMIN)**19.99**

Surf Wake Mount: Large footprint pad for adhesion. 360° rotation with rubber ball. (VHSWM)**39.99**

Universal Mount Adapter: Attaches ContourHD to any mounts or tripods with a male 1/4"-20 screw. (VHUMA)**19.99**

Vented Helmet Mount: Your camera will be safe and secure and ready for all the action. (VHVHM)**19.99**

Windshield Mount: Suction cup securely attaches the ContourHD to any car windshield or body. Once mounted you'll be able to maneuver the camera 360°. (VHWMK)**39.99**

Goggle Strap Mount: Secures ContourHD to your goggles. Simply attach the camera, slide the goggle strap into the mount, click the rails in place, and record. (VUCHDGM)**19.99**

Lens Kit: With extra lens covers, a replacement lens ring and ring adapter, screwdriver and some hardware, you can make quick repairs wherever you find yourself. (VHLK)**29.99**

Panasonic

HM-TA1

Pocket-Sized 1920 x 1080 HD Camcorder

Measuring a mere 2 x 0.7 x 4" (WxDxH) and weighing just 4 oz., the HM-TA1 fits in the palm of your hand, yet it features a 4x digital zoom, 2" LCD, built-in LED light, electronic image stabilizer, and can record 1920 x 1080 HD video at 30fps and

8-megapixel stills to a SD/SDHC/SDXC memory card. Using its integrated software and USB terminal, the HM-TA1 can also double as a Web camera and microphone, seamlessly working with IP-based video chat programs, such as Skype.

- iFrame (960 x 540/30p) and MP4 recording modes allow quick and easy uploading and editing of your videos on Mac and PC.
- Single-function buttons include: Power, Play, Record, Still Photo, LED Light (on/off) and Delete. Additional settings can be selected via a center keypad.
- In-camera editing lets you cut still images out of a video clip
- Integrated USB terminal with pre-loaded software allows recorded video clips and still images to be easily loaded into a PC, edited, and then uploaded to sites such as YouTube and Facebook.
- Color effects include Sepia, Monochrome, and Soft Skin

All Flip Cameras include pre-loaded FlipShare 5.0

Pre-loaded on all Flip Video camcorders (Mac and Windows compatible), FlipShare 5.0 greatly expands the video sharing options available. In addition to direct uploads to Facebook, YouTube and MySpace, FlipShare also offers instant video sharing to mobile phones like iPhone, Blackberry and Android using the FlipShare Mobile app. Additional features include:

- Tools and simple user controls to organize, edit, and share videos. Organize videos by dragging and dropping into folders you've created, or use the automatic date-stamped folders.
- Edit and trim your favorite videos clips or add your own music, all using FlipShare's easy editing tools.
- Create video greeting cards or use the Magic Movie feature to make movies with the click of a button
- Upload videos instantly to Facebook, YouTube and Twitter
- Email video privately through Flip Video's hosted service
- Share instantly to any TV using FlipShare TV
- Create custom Flip Channels to share with friends and family on FlipShare.com
- Watch videos on-the-go at FlipShare.com
- Capture photos using the easy Snapshot feature. You can grab a still-image photo from any of the 60 frames that comprise each second of your video.

Flip MinoHD Pocket-Size HD Camcorder

The new MinoHD combines signature Flip Video quality with improved technology to offer HD video that is better than ever. Featuring a flat-back panel with touch-sensitive, backlit buttons and a super-slim, pocket-sized design, the new MinoHD records 1280 x 720p video at 60 frames per second, while built-in image stabilization produces incredibly clear and steady HD video. Watch your videos on the 2" anti-glare LCD screen. For convenience, the MinoHD's internal battery automatically charges every time you connect the camcorder to your computer. Watch your videos on a large screen HDTV via optional mini HDMI cable.

- Even though the lens is fixed focus, a 2x digital zoom is there when you need to get just a little bit closer.
- Built-in wide-range, omni-directional microphone; built-in speaker with software volume control.
- Slim enough to fit in your pocket or purse, it features a unique brushed metal front and soft, rounded edges.
- Silent mode for recording in sensitive situations
- Put a tripod to get in the video yourself or shoot hands-free

VPC-PD2 Full HD 1080 Pocket Movie Dual Camera

The VPC-PD2 records 1080 HD video with stereo audio, and 10-megapixel digital photos to SD/SDHC/SDXC memory cards. Equipped with a 2" LCD display for composition and playback, digital image stabilization, and a 3x optical zoom (36mm-108mm equivalent) for video and photo capture, the VPC-PD2 lets you easily preserve all your memories. When it comes time to share, videos and photos can be tagged and quickly uploaded to Facebook, YouTube, and Picassa using the Simple Uploader. A convenient link to Tweet on Twitter is available as well. You can also upload your videos to iTunes for transfer to a video capable iPod or iPhone. HDMI output lets you connect direct to HDTV for large screen viewing.

- Separate photo and video recording buttons allow images to be captured easily without changing modes
- Integrated USB connector enables the camera to be connected to a PC in seconds without any cables
- Sequential "photo" shooting mode lets you shoot up to 30 photos at 10 fps (2MP resolution)
- Digital Image Stabilizer—for photos and videos—compensates for distracting up-and-down or side-to-side camera movement, keeping the subject steady and easy to follow. Accurately distinguishes between unintentional camera shake and deliberate camera movement
- Simultaneously shoot video clips and still images—you'll never need to miss another precious photo opportunity.

Flip SlideHD

Shoot and Share HD Camcorder

Featuring an all-new form factor with a wide 3-inch touch screen LCD, SlideHD makes it even more fun to capture, watch and share HD videos anytime, anywhere. With SlideHD, users can record up to four hours of 1280 x 720p HD video on its 16GB internal memory. Or store up to 12 hours of video and photo content in Space Saver format (using FlipShare software), and then view them instantly on the stunning, slide-up display. It's like having a portable life book for spontaneous viewing anywhere.

Like all Flip models, the SlideHD is pre-loaded with the FlipShare software that allows users to easily organize, create and share their videos. Using a PC or Mac, video content can be instantly uploaded, both privately and publicly, and ready for one-click sharing—from Facebook, MySpace and YouTube—to email, mobile devices, Flip Channels, and the TV.

- Simple touch screen and innovative slide strip make it easy and fun to quickly navigate through your library to locate a video or photo.
- SlideHD lets users design their own camcorder to make it uniquely their own. Users can also choose from thousands of designs from artists, design firms, celebrities, and iconic brands, or upload their own image to create a one-of-a-kind camcorder.

FlipShare TV

Wireless Media Extender

Now it's even easier to enjoy and share your videos. Bring your entire Flip Video library into the family room and onto you HDTV without wires, as well as enabling you to share videos instantly with other FlipShare TV users. Just connect the FlipShare TV base to your TV via the included composite or HDMI cables, plug the USB Key into your Mac or PC, and start enjoying your Flip Video library wirelessly on your TV.

- Wirelessly and automatically connects your TV to your computer — no confusing setup required.
- The USB key and console are preconfigured to function wirelessly so the Flip videos stored on the computer can be instantly viewed on the TV with no need for a wireless home network.
- Wirelessly integrates with videos in your FlipShare™ library, as well as videos others have shared with you in your Flip Channels.
- Watch other videos you've imported into your FlipShare library on your TV as well, even if you captured them on a different device.

FLFSTV.....**99.99**

- Using the included wireless remote, users can easily click through the intuitive TV interface to watch their favorite videos, custom movies, or photos and watch them in full HD.
- Watch video shared by other Flip Video users on their own TV. FlipShare TV automatically accesses video shared through Flip Channels™, presenting them for users to watch directly through the simple FlipShare TV interface.
- Friends and family can use FlipShare TV to watch videos you've shared with them using FlipShare's Flip Channel feature—even if they don't own a Flip Video camcorder themselves.

GC-FM2 • GC-WP10 PICSIO Pocket Cameras

Bringing a new level of fun and ease to shooting and sharing videos and photos, the PICSIO GC-FM2 and GC-WP10 both feature Full HD video, excellent low-light performance, a 3-touch screen, and record to SD/SDHC/SDXC memory cards for versatile storage. Also compatible with Eye-Fi cards, so files can be quickly uploaded and shared using a wireless network. Otherwise the same, the GC-WP10 is waterproof.

They record 1920 x 1080p Full HD video at 30 fps with image stabilization, plus three different recording resolutions: HD 720 (1280 x 720/60p), iFrame (960 x 540/30p) and Quarter High Definition (960 x 540/30p). The cameras also capture 5-megapixel still images and offer time-lapse recording, which reduces hours-long segments to mere seconds.

- 3-inch touch screen features on-screen graphics for shooting and playback controls, including the 4x digital zoom. What's more, the touch screen functions are easily operated even when wearing gloves for all-season fun.
- The GC-FM2 (only) includes a slide-out USB connector, so no connecting cable is needed. Both cameras are charged through via USB, so they are ready to shoot after transferring files.

- The GC-WP10 (only) is waterproof to 10' (IPX8 certified) for worry-free recording underwater, on the slopes or in the rain. It also offers a MP3 audio recorder to capture everything from lectures to jam sessions in stereo.
- They incorporate software for quick, intuitive editing and direct upload to YouTube and Facebook, exporting to iTunes and more. An array of special effects is available for creative editing.

GC-FM2: Available in Black (JVGCFM2B), Blue (JVGCFM2BL) or Yellow (JVGCFM2Y)**Call or Log-on**

HMX-U10 • HMX-U20

Ultra-Compact Full-HD Camcorders

The HMX-U10 and HMXU20 deliver Full-HD 1920 x 1080 recording in an extremely portable design measuring 2.1 x .61 x 4.1". They have a 7° slanted ergonomic handgrip that saves your hand and wrist from unwanted strain, while keeping the lens angled at just the right pitch, allowing you to maintain the most comfortable and natural position while shooting video and stills. Video and images are stored on SD/SDHC memory cards.

- The HMX-U10 has a 1x zoom fixed focus lens and can capture 14MP still images, while the HMX-U20 steps up with a 3x optical zoom and 10MP still capture. View images on the 2" LCD screen on the back of the camera. They also include Hyper Digital Image Stabilization to help produce blur-free video.
- They offer one-touch upload to YouTube and built-in intelligent studio software for in-camera editing. For creativity, time lapse recording allows users to program the camcorder to record at a pre-set interval of one image every one, five, 10 or 30 seconds.
- For added convenience, a built-in, swing-out style USB connection gives users the ability to forego having to always carry a separate USB cable to connect and upload footage to a computer. USB charging also eliminates the need to take along a separate charger while on-the-go. Furthermore, HDMI connectivity, allows users to enjoy their full HD video on their HDTV.

HMX-E10

Pocket Sized Full HD Camcorder

In addition to recording 1920 x 1080p and 1280 x 720p HD video, the HMX-E10 sets itself apart with an appealing form factor, adjustable 270° swivel lens, and a 2.7" touchscreen LCD that rotates the screen view to the camera's orientation. Whether it's an up-close shot on a sharp angle or filming yourself in the action, the swivel lens' ability to rotate - normal, low, and high - gives you a creative edge.

- Keep an eye on what you're shooting with the bright and clear wide view LCD touchscreen. An intuitive user interface makes finding features effortless.
- An interactive and onscreen "upload" button makes uploading to the Web effortless. The one-touch "upload" button links directly to sites such as YouTube and Facebook, and reduces the number of steps needed to successfully upload and share video.
- When connected to a computer via the USB arm, the built-in intelligent studio 2.0 automatically runs, so you can view, edit, manage, and upload from anywhere using your Windows-based PC. The camcorder works with Macs via the drag and drop method and editing software that's compatible with MPEG AVC/H.264 files.
- Get creative with Samsung's Smart Filter. Its miniature feature shrinks your subjects, while vignetting fades the edges. Defog auto-corrects haze, improving clarity, while the sketch function transforms your photo into a hand-drawn work of art.
- Autofocus and auto tracking ensures your memories are sharp clear, while the bright f2.2 lens ensures images are sharp and crystal clear even in low light.
- HDMI output for connection to widescreen HDTV.

**3D-HD 720P Camcorder**

Small enough to fit in the palm of your hand or slip right into your pocket, Aiptek's 3D-HD camcorder utilizes powerful, dual-HD sensors allowing you to capture 3D 1280 x 720 HD videos and 5-megapixel stills that can be viewed on most major brand 3D televisions—as well as laptops and PCs equipped with 3D cards. When watching videos on the camera's built-in 2.7" stereoscopic LCD display, no glasses are needed. Or use the bundled software and convert the videos and photos into 3D 'Anaglyph' format, allowing you to view them on your computer or existing HDTV with the included Red/Blue glasses. Of course you can still shoot video and capture still photos in standard 2D.

- Utilizes "Parallax Barrier" technology on its LCD preview screen so that you can enjoy a Live 3D view while you record. Essentially takes the Polarized glasses that you would wear in the movie theater and embeds them into the screen so that you can view your videos in 3D without the need for glasses.
- HDMI output lets you connect directly to existing HDTV or new 3D HDTV for video and photo playback.
- Bundled software includes easy to use 3D video editing program that uploads directly to YouTube with the click of a button.
- Record 3D videos with one touch of a button; take snapshots with one touch of a button; playback your videos and pictures with one touch of a button.
- Built-in 128MB internal memory, plus it can record to SD/SDHC memory cards.

3D-HD (AI3DHD).....**Call or Log-on**

AIAHDPRO.....**149.95**

**Zoom Q3 Handy Video Recorder**

What do video cameras and smart phones that record video have in common? They both come with very low-quality built-in microphones. Changing this, the Q3 is an high-quality portable audio recorder with an integrated digital video camcorder. The Q3 uses the same microphone capsules as Zoom's industry-leading H4n Handy Recorder and is perfect for recording anything where great audio and video are a must. From live musical performances and rehearsals, interviews, conferences to video podcasts, journalism, education, recitals, weddings or sports, the Q3's pristine audio quality takes your videos to another level. A fixed focus lens captures 640 x 480 video at 30fps. All you need to do to create great sounding video with the Zoom Q3 is to press record.

- 2.4" LCD display features bright and accurate audio meters (in both audio and video modes) ensuring your levels aren't clipping.
- Easily transfer videos to a computer via built-in USB 2.0 cable, while included HandyShare software (Mac/Windows) enables you to easily edit your video, as well as upload it to YouTube.
- You can also put the Q3 into audio-only recording mode and capture high-resolution audio at 96 kHz 24-bit. You can also turn on the Q3's "Auto Record Level" feature which adjusts the microphone sensitivity automatically for optimum results.

Q3 Handy Video Recorder (ZQ3).....**199.00**

Canon

ZR960 Mini DV Camcorder

The ZR960 provides users with the reliability of the MiniDV format—whether you just want to record your child's ballet recital or you're an aspiring film student.

Features a 37x optical zoom, 2.7" widescreen LCD, and offers an external mic and headphone terminals—a must for students.

- DV (IEEE1394) terminal lets you easily upload your video to a computer for editing or sharing on the web.
- Once you open the LCD the ZR960 is ready to record—never again miss that once in a lifetime moment.
- Smooth zoom control with three fixed speeds for fluid transitions
- Exposure lock keeps your exposure settings in place when you want to refine your composition
- Level and Grid Markers help you compose better shots by lining up the horizontal lines in your images

ZR960 (CAZR960)249.99

VIXIA HF21

HD Dual Flash Memory Camcorder

The VIXIA HF21 provides you with 24 hours of true 1920 x 1080 HD recording to its 64GB internal memory along with the option to record extra

footage to SDHC memory cards. The camera captures clean, clear video and 3.3MP digital stills thanks to the 3.89MP CMOS sensor, DIGIC DV III Image Processor, and 15x HD lens with SuperRange Optical Image Stabilizer. For those looking to capture video with a film-look, the camera offers the 24p Cinema Mode and 30p Progressive Mode for action or sports footage. In addition, higher quality audio can be captured by utilizing the external mic terminal and the Mini Advanced Accessory shoe for attaching microphones and lights. A headphone terminal is attached as well for controlling audio levels and listening to closely upon playback.

- Genuine Canon 15x HD Video Lens records long shots of your child on the soccer field, wide shots of beautiful landscapes, and everything in between. And because it comes with four zoom speeds - three pre-set and one variable - you always get smooth, steady, professional-looking zoom shots.
- Super Spectra Coating technology results in images with minimal flare and ghosting. Plus, the lens' aspheric design reduces aberration and increases resolution, ensuring crisp, sharp video - enhancing the HD image quality. Gradation neutral density (ND) system gives you better exposures in bright shooting situations.
- 24Mbps recording capability of the VIXIA HF21 gives you the highest quality AVCHD video possible.
- Capture video and photos without switching modes, which saves you time and helps you avoid the chance of a missed shot.
- Level Marker makes it easy to keep your camera level for more better looking video, while a Grid Marker lets you compose shots accurately, according to the grid in the viewfinder.
- To make your videos sound as good as they look, it offers a built-in audio meter and manual audio level adjustment.

Canon

FS-300 • FS-31

Standard Definition Flash Memory Camcorders

Measuring just 2.2 x 2.3 x 4.8" (WHD), the ultra-sleek FS300 combines big video storage capacity in a compact camcorder weighing only 7.9 oz. It features a 680,000-pixel CCD sensor, Genuine Canon 41x Advanced Zoom, and DIGIC DV II Image Processor for exceptional color and clarity. Available in three fashionable colors, the FS-300 offers Image Stabilization 2.7" Widescreen LCD and records video directly to an SDHC memory card. It also offers a host of conveniences including, Video Snapshot, Quick Start, Quick Charge, Dual Shot, joystick control, Program AE modes and more. Stepping up, the FS31 adds dual flash memory capability. In addition to recording to an SDHC memory card, the FS31 incorporates a 16GB internal Flash drive, for up to 10 hours of video recording.

- DIGIC DV II Image Processor allows continuous shooting of up to five 1024 x 768 still images per second.
- Image stabilization gives your video a more professional look, with rock-steady shots, even when shooting at max. telephoto.
- Record high-resolution 16:9 widescreen video.
- Dual Shot Mode lets you capture video and photos in the same mode - without requiring any switching.
- For the best exposure for various situations, the Program AE mode will automatically adjust the settings to compensate for the conditions and subject. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight and Fireworks.
- In Video Snapshot Mode capture a series of 4-second video clips, then blend in one of 10 supplied music tracks, or your favorite background music to create an entertaining movie.
- Level Marker makes it easy to keep your camera level for more better looking video, while a Grid Marker lets you compose shots accurately, according to the grid in the viewfinder.
- Built-in electronic lens cover means you never have to go looking for your lens cover again.

- Hi-speed USB 2.0 for ultra-fast transfer of movies and photos.
- When in Camera Mode and the LCD panel is closed, the camcorder is placed in standby mode. When the action starts, open the LCD panel and you start recording in less than one second.
- Pre-Record gives you a head start on capturing the action by continuously recording three seconds of video to memory before you even press the record button. When you start recording, the additional video also recorded.
- With the optional Canon's DW-100 DVD Burner, a single cable, and the click of a few buttons is all you need for your videos to be burned to a disc ready to play in a compatible DVD player.
- Quick Charge feature gives the supplied lithium-ion battery 30- or 60-minutes of juice, in just 10- or 20-minutes of charging (respectively). The battery also keeps you informed by displaying remaining battery life to the minute.
- Bundled ImageMixer 3SE software (Windows XP and Vista compatible) lets you play back recorded video on a computer, as well as edit your footage and burn it to a DVD. Trim, reorder, and combine scenes, as well as add music, titles, and transitions.

Vixia HV40 HDV Camcorder

The VIXIA HV40 shares the core components found within the VIXIA line, but also offers a Genuine Canon 10x HD Video Lens and 2.96 Megapixel Full HD CMOS Image Sensor. What's more, it also allows users to record in native 24p Mode—allowing you to capture and record 24 progressive fps (frames per second) to a HDV tape, a big advantage for the serious filmmaker. SuperRange Optical Image Stabilization and Instant Auto Focus give the control demanded by high definition. If you wish to continue to use your existing SD (Standard Definition) equipment, the HV40 has both SD and HD recording modes. Another add-on feature, Custom Key Mode, enables users to assign commonly used functions to a single button on the camcorder for easy access.

- 2.96MP full HD CMOS sensor delivers 1920 x 1080 HD video, while Canon's DIGIC DV II Image Processor reduces image noise and customizes the color and tonality of your video and still images.
- 10x HD Video Lens with three fixed zoom speeds for fluid transitions. Super spectra coating eliminates flare and ghosting, while the aspheric design cuts down on aberration while boosting resolution.
- 2.7" multi-angle widescreen LCD with hard coat AR surface reproduces color accurately with reduced glare and enhanced contrast.

Vixia HV40 (B&H# CAHV40)649.95

DW-100 DVD Burner

Share your best camcorder footage with family and friends, or burn DVDs for archival backup. Perfect for those on a budget, they feature Genuine Canon 20x HD Video Lens and Dynamic IS that works in combination with sophisticated Canon HD image processing to deliver the sharp, vivid, lifelike video you want to see on your HDTV. They also feature Instant AF, Canon Face Detection, HDMI output, external mic input, 24p and 30p frame modes, built-in digital camera, easy file sharing, Smart Auto and Advanced Video Snapshot that lets you create 2-, 4- or 8-second movie clips, with music, that are perfect for sharing. Otherwise the same, the HF R100 records to an SD memory card, while the HF R10 and HF R11 also incorporate 8GB and 32GB of internal flash memory (respectively). The HF R10 and HF R11 also feature Canon's Relay Recording and HD-to-SD Downconversion.

- Genuine Canon 20x HD Video Lens delivers unsurpassed image quality. They capture 1920 x 1080 HD video via Canon's exclusive 2.39-megapixel HD CMOS Image Sensor captures high definition video and photos with astonishing detail, while DIGIC DV III Image Processor provides the ultimate in color and imaging performance, with enhanced reproduction of difficult to capture purple and blue tones.
- Dynamic IS (image stabilization) system provides continuous adjustment throughout the entire zoom range to correct a broader range of motion. Extra compensation is applied at wide-angle focal lengths to eliminate unwanted vibration common when shooting while walking.
- HD-to-SD Downconversion feature (HF R10/R11 only) enables users to convert recorded HD video to standard-definition files while preserving the original HD video. These standard-definition files make it even more convenient to share video online or create a DVD.
- Relay Recording allows users to capture uninterrupted video when the primary recording media is full. The HF R10/R11 will continue to record a scene by switching from one memory source to the other as it fills up, so that you won't miss a moment of action.
- Smart Auto intelligently detects and analyzes faces, brightness, color, distance, and movement, then automatically selects the best settings for the scene. Whether you are capturing a sunset, a day at the beach, or a fast-paced soccer game, Smart Auto delivers exceptionally accurate results.
- Easy, one-cable connectivity to your HDTV is achieved via the HDMI terminal which also supports CEC and x.v.Color. An external microphone input with manual audio level control and headphone terminal provide exceptional audio flexibility.

HF R10: SD +8GB Memory In Black (CAHFR10B), Red (CAHFR10R) or Silver (CAHFR10S).....	Call or Log-on
HF R11: SD +32GB Memory In Black (CAHFR11B).....	Call or Log-on

- 2.7" Widescreen LCD features hard coat anti-reflection surface, improved color reproduction and wider range of viewing angles—so you see more of what you're recording.
- With Canon's high quality Face Detection technology, up to 35 faces can be detected automatically, and 9 detection frames can be displayed at one time. This ensures razor-sharp focus and natural, accurate exposure of the chosen subjects. It recognizes faces that are turned downwards or sideways. In addition, a specific face may be used to search for clips featuring that specific subject's face.
- Advanced Video Snapshot mode lets you capture the highlights of a once in a lifetime trip with the same ease as taking photos. Simply record a series of short video clips (2, 4, or 8 seconds) – or select your favorite clips while in Playback Mode – and blend in background music to create an exciting movie. Additionally, audio from an external source, such as an MP3 player, can be played along with the snapshot movie and playback can be controlled from that source.
- They are also compatible with the Eye-Fi SD Memory Card. This makes it possible to wirelessly transfer photos to your computer, or upload them directly to online sharing sites in a few simple steps.
- 24p Cinema Mode enables users to achieve a professional "film-look". Change the camcorder's frame capture rate to 24p (recorded at 60i), which provides the appearance of the same frame rate as movie film. In addition, CINE mode changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.

VIXIA HF M300 • HF M30 • HF M31 • HF M32

HD (High Definition) Flash Memory Camcorders

Offering stunning Full 1920 x 1080 HD video in an ultra-sleek, compact and lightweight body, the VIXIA HF M300, HF M30 and HF M31 step up from the VIXIA HF R series with a 3.89-megapixel HD CMOS Image Sensor Genuine Canon 15x HD Video Lens, a 2.7-inch Touch Panel LCD with Touch & Track technology and Dynamic SuperRange Optical Image Stabilization and optional 5.1-channel surround sound recording. Otherwise the same, the HF M300 records to an SD memory card, while the HF M30, HF M31 and HF M32 also incorporate 8GB, 32GB and 64GB of internal flash memory (respectively).

- In addition to Canon's Dynamic SuperRange Optical Image Stabilization, Powered IS provides an even higher level of compensation for subtle hand movement at the telephoto end of the zoom range. This new enhancement can be engaged by pressing the Powered IS button on the LCD panel.
- For the ultimate home theater experience, 5.1-Channel Surround Sound (optional SM-V1 5.1-Channel Surround Microphone required) allows you to capture audio quality that matches the stunning realism of your high definition video. The sound is captured from all directions (five different pickup sensors) so your home movies will look and sound more lifelike than ever before.

- 2.7" widescreen Touch Panel LCD with Touch & Track for faster and easier menu navigation. Touch & Track delivers precise tracking of the focus and exposure on any subject- people, pets, vehicles and more. Simply select your point of interest on the Touch Panel LCD, and you will have your subject in sharp focus, regardless of where in the frame it moves during the shot – and, the exposure will be perfectly adjusted for subject and conditions. Touch & Track is the default setting. You can also choose to adjust focus or exposure independently by turning off Touch & Track, and turning on Touch Focus or Touch Exposure.

VIXIA HF S200 • HF S20 • HF S21

HD (High Definition) Flash Memory Camcorders

Canon's premiere camcorders, the VIXIA HF S-series comes equipped with varying levels of internal flash memory and all feature two SD card slots for maximum storage capacity and easy video transfer. Recording Full 1920 x 1080 HD video, they feature a Genuine Canon 10x HD Video Lens and a massive 8.59-megapixel Full HD CMOS Image Sensor for stunning video and outstanding photos up to 8MP. They also include a 3.5-inch High Resolution (922,000 pixels) Touch Panel LCD screen for a large, bright display and easy menu navigation, including Touch & Track technology. In addition, they also offer a host of professional features such as a built-in LANC terminal, and Native 24p (AVCHD) recording. For shooting outside on a sunny day, the VIXIA HF S21 includes a viewfinder which offers a reliable viewing environment when shooting in bright outdoor conditions. Otherwise the same, the VIXIA HF S200 records video directly to removable SD memory cards, while the HF S20 and HF S10 camcorders incorporate 32GB and 64GB of internal flash memory, respectively.

**V5061u**

Budget-friendly HD camera designed for the YouTube set, capture 1440 x 1080p HD footage and 5MP digital stills to 32MB internal memory, or to SD/SDHC memory cards. Features a 4x digital zoom and a large 3-inch LCD screen gives you a generous platform on which to compose and review footage. Additionally, the V5061u can output recordings to an HDTV (via HDMI) at full 1920 x 1080 HD resolution without cropping. Now you can capture videos of your life's moments in sharp details and in vivid colors

- Provides the flexibility of using AA batteries whenever the rechargeable battery runs out of power.
- With motion detection, set up the camera to automatically start recording when your pet or toddler start to move.
- Capture still images with up to 16MP resolution (interpolated).

V5061u (HEV5061)**154.90**

**Cinecam ADVCO1F DV Camcorder**

Easy to use video camera for capturing video or stills for Internet sharing, the Cinecam features a fixed focus lens, an uncomplicated interface, and quick uploading using the built-in USB arm. Capture VGA 640 x 480 or QVGA 320 x 240 AVI videos and 5-megapixel photos to the built-in 16MB flash memory or to optional SD/SDHC cards. Watch videos on the 2" LCD or on TV via included AV cable.

ALADVCO1F**48.50**

Cinecam AHDVCO2F HD Camcorder

Pocket-sized HD camcorder, the AHDVCO2F camera captures 1440 x 1080p video at 30fps and 5MP stills to SD/SDHC memory cards (comes with a 4GB SD card to get you started). Features a 2x digital zoom for video and 4x digital zoom for photos, pistol grip design and a 3" flip-out LCD screen for composition and playback. Built-in lithium-ion battery for up to 2 hours of continuous use. USB connection for quick transfer of files to your computer, while HDMI output gives you one cable connection to large screen HDTV. **(ALAHVCO2F)**.....**114.95**

**Cinecam AHDVCO3F Full HD Camcorder**

The AHDVCO3F steps up with 1920 x 1080p HD video and 5MP still images.

It features a traditional camcorder design, a 3" touchscreen LCD, and an SD/SDHC expansion slot for cards up to 32GB. Also features a 5x optical zoom for capturing subjects from a distance, and a lithium-ion battery with 2 hours of battery life. When you're ready to share your footage the included Arcsoft Software helps you edit your videos and stills for sharing with friends and family. **(ALAHVCO3F)**.....**168.50**

**GZ-MS110 • GZ-MS230 • GZMS250****Everio S Series SD Card Standard Definition Camcorders**

The elegant, slim, lightweight GZ-MS110, GZ-MS230 and GZ-MS250 feature a Konica Minolta 45x optical zoom lens, Laser Touch operation, automatic video light, image stabilization, built-in lens cover and remaining battery power indicators.

The GZ-MS110 has a pair of SD/SDHC card slots while the GZ-MS230 GZ-MS250 offer a single SD/SDHC card slot and 8GB and 32GB of internal flash memory (respectively).

All offer continuous recording –when one storage medium fills up, recording automatically switches to the other. Record up to 15 hours in the highest quality mode or up to 80 hours in lowest quality mode using two 32GB cards.

- Record digital still images by simply switching to the image mode and then pressing the snapshot button. Record still images with resolution up to 832 x 624.
- They include a remote control to operate Everio from a distance for playback, DVD burning, etc. just like a DVD deck.

**Everio S Series, Everio G Series and Everio HD Series All Feature**

- Advanced Image Stabilizer ensures steady images even while walking, and is especially effective when shooting bright scenes from full wide to 5x zoom. Advanced Image Stabilizer uses a wide-angle image sampling area that is four times larger than that of conventional systems.
- Super LoLux improves low-light sensitivity to capture clear images with precise colors even in low-light environments. Super LoLux is made possible a high-sensitivity 1/6" CCD.
- Time-Lapse recording lets you shoot in one- to 80-second intervals, enabling hours-long segments to be reduced to seconds, such as the continuous recording of changing sky patterns spanning an entire day.
- Auto record automatically initiates recording when a person or other moving subject enters the picture and the luminance changes, a great convenience for home surveillance, monitoring a baby, recording wildlife, taking group shots (instead of using a self-timer) and more.
- Each is equipped with a 2.7" color LCD monitor. Opening the LCD automatically opens the built-in lens cover and powers up the camcorder. Closing the LCD also closes the lens cover and shuts down the power. Quick Restart allows recording to start one second after the LCD is re-opened.
- Built-in light turns on automatically so you can shoot brilliant images even in low light situations
- To easily check the content on Everio's HDD or SD/SDHC card, the Digest Playback function automatically selects highlight scenes using JVC's proprietary algorithm and plays back what looks like a "coming attractions" trailer for a movie. 60 minutes of footage is condensed into five minutes of highlight scenes.
- Data battery allows you to check the remaining power by % and remaining recording time in minutes
- Zoom and record using the Laser Touch scroll bar or buttons next to the LCD, or with the standard zoom lever and REC button. Laser Touch also makes it easy to browse through thumbnail images of recorded scenes and access menu selection.
- One Touch Export function allows videos to be imported into iTunes and loaded into an iPod or iPhone.
- Conveniently upload videos to YouTube™ via One Touch Upload function. Users can perform an in-camera edit of any length video to fit the 10-minute YouTube limit.
- Grip belt works in two handy ways, as a conventional handle-style grip when both ends are snapped in place or as a strap when one end of the belt is released.
- Bundled Everio MediaBrowser software (Windows) provides an easy-to-search calendar-type graphical interface for indexing and finding video files with thumbnail images of recorded videos and stills are superimposed on the calendar. With built-in filter functions, you can instantly narrow down the selection to just videos, just stills, and so on.
- The software also allows easy playback, simple cut editing, and "Decomotion" to spruce up recorded footage with animated graphics for upload to YouTube. Supports burning to Blu-ray disc in addition to DVD.
- Optional CU-VD50 Direct DVD Burner/Player lets you burn videos to a DVD disc without having to use a PC.
- With the CU-VD50 or with a DVD burner equipped PC, you can burn a full-sized DVD-Video disc at the touch of a button. Just press the DIRECT DVD button on the camcorder, and the DVD burning process starts automatically. Automatically transfer only newly recorded data to the burner, just the scenes you manually select, or pre-select the scenes you want in the order you want internally at the camera using the Playlist function.

GZ-MG750**Everio G Series Hybrid (microSD/SDHC & Hard Disk) Standard Definition Camcorder**

With a built-in 80GB HDD, the GZ-MG750 can hold up to 100 hours of video. Using optional microSD/SDHC memory cards expands the camera's capacity even further. The camera also features a 1/6" CCD image sensor with Super LoLux low light recording, 45x Dynamic zoom, an Advanced Image Stabilizer, and JVC's Laser Touch Operation LCD. In addition to these components the camera comes with user-friendly functions designed to make your recording experience an easier one. You'll benefit from Auto REC, Time-Lapse REC, a video light, and a 2-way grip belt. When you're all done recording the included Everio MediaBrowser editing software helps you edit, manage, and share your footage.

GZ-MG750 (JVGZMG750BUS).....**Call or Log-on**

**GZ-HM300 • GZ-HM320 • GZ-HM340 • GZ-HD500 • GZ-HD620****Everio Memory and Hard Disk HD Camcorders**

JVC's Everio HD camcorders record 1920 x 1080 full HD video, the GZ-HD500 and GZ-HD620 offer HDD storage for extra-long recording times. The GZ-HM300 offers dual SD card recording with continuous recording from one card to the next, and is one of the smallest and lightest full HD camcorders available. The GZ-HM320 and HM340 record to internal memory or an SD card. They all feature a 1.37 megapixel CMOS image sensor, and maintain native 1920 x 1080 resolution through playback, enabling output of a 1080p to make the most of high-end HD displays.

- 1.37MP CMOS sensor captures HD video and stills with clarity
- 20x Konica Minolta HD zoom lens provides a high-performance "eye" for the capture of Full-HD resolution images.
- In UXP video recording mode, you can record at 24Mbps, the highest bit rate possible for AVCHD video, for more detailed, sharper images with less noise

- Face Detection detects up to 16 faces then accurately adjusts the focus and exposure. It works for both video and digital stills. And while browsing through scenes in the Play mode, thumbnails can be displayed with close-ups of detected faces so you can easily identify who's in the file.
- HDMI (1.3) output for connection to a large screen HDTV

HD Everio GZ-HM550 9-Megapixel Dual Use Hybrid Camera

The hybrid Everio GZ-HM550 offers the powerful shooting combination of Full HD video and 9MP still photos, plus creative shooting functions such as slow motion video and high speed "motor drive" still photography. It is also equipped with Bluetooth enabling control of the camera using a smartphone, geo-tagging of videos and stills and use with a compatible Bluetooth headset. Use the camera with a GPS device to record location data of where movie and still files were recorded. The data synchronizes with Google Earth when viewing the file on a PC using the bundled Everio MediaBrowser software. The camera can also be used with a Bluetooth-equipped headset to monitor the recorded sound or for voice recording.

- Up to six 9-megapixel stills can be shot at 15 images per second – faster than what digital SLRs can achieve
- Record to the built-in 32GB internal memory for up to 15 hours in EP mode. You can record another 15 hours when you use an optional 32GB SD/SDHC memory card. The camera features seamless recording, meaning that when the flash memory fills, recording will automatically switch to the inserted SD/SDHC card.
- 2.8" LaserTouch LCD gives you a wide surface on which to compose and playback all your shots.

- Konica Minolta HD Lens with a 16x optical zoom captures your video and still images with clarity.
- Face detection technology assures accurate focus and exposure, and HDMI (1.3) output for connection to large screen HDTV.
- Comes with a remote for controlling the camcorder from a distance. Helps you keep the camera steady, and allows for self-recording.

GZ-HM550 (JVGZHM550BUS)..... Call or Log-on

HD Everio GZ-HM1 & GZ-HM550 Both Feature:

- High-speed recording function shoots ultra-slow motion video. Any one of three speeds – 120 frames per second (fps), 300fps and 600fps – can be selected; the faster the recording speed, the slower the playback motion. With this function, 2.4-second bursts of video are recorded that are then played back over a period of up to 24 sec., 20x longer than normal speed.
- One Touch Export function to export videos into iTunes for playback on an iPod or iPhone. A One Touch Upload function simplifies uploading videos to YouTube.
- AVCHD UXP mode (bit rate of up to 24Mbps) delivers more detailed, sharper images with less noise.

HD Everio GZ-HM1 10.6-Megapixel Dual Use Hybrid Camera

The HD Everio GZ-HM1 features 1920 x 1080 AVCHD recording and 10-megapixel digital still capture up to ISO6400 along with 64GB of built-in flash memory storage and the option to record to SD/SDHC memory cards. It has a 2.8" LCD and includes a Konica Minolta HD lens with 16x Dynamic zoom and JVC-developed optical image stabilizer that uses two active prisms to compensate in the horizontal and vertical directions, providing the same effectiveness throughout the entire zoom range, from wide to telephoto.

- For still image shooting, up to 60fps 5.3-megapixel stills can be shot in a continuous burst of up to 11 images. Or, if preferred, continuous shooting of up to six 10 megapixel stills at up to 15fps is also possible. It is also possible to shoot 5.3-megapixel stills simultaneously while recording 1920 x 1080 Full HD video.

- To shoot stills, it offers aperture- and shutter priority modes, controls for manual brightness and focus adjustment.
- Konica Minolta HD Lens with a 16x optical zoom captures your video and still images with clarity.

GZ-HM1 (JVGZHM1)..... Call or Log-on

**CU-VD3****Everio Share Station Direct HD DVD Burner**

Connect your camcorder via USB 2.0 directly to the CU-VD3 and you can burn a 1-hour DVD (4GB) in just 30 minutes.

It is compatible with AVCHD and MPEG-2 formats, and AVCHD created discs are also playable on compatible Blu-ray players. Plus, it can be connected to your PC, so it can be used as an external DVD burner for your videos and data as well. Uses DVD-R/RW disc, DVD-R DL disc supported. Can be used horizontally or vertically with the included stand.

CU-VD3 (JVCUDV3).....179.95

CU-VS100 HD Media Player

If your camcorder uses SD cards, you're ready to use this player.

Instead of connecting camcorder to TV each time you want to watch, simply insert the recorded SD card and enjoy playback right away. And since it supports still image and music data too, count on it to entertain you.

CU-VS100 (JVCUVS100US).....179.00

CU-VD40**Everio Share Station Direct DVD Burner**

Connect your camcorder directly to the CU-VD40 via USB 2.0 and you can burn a full-sized DVD-Video disc without a PC.

Burning operations are controlled from the Everio itself or by its remote. The camcorder converts Everio MOD files to the DVD Video format. HDMI and component connections ensure the highest quality HD recordings possible. Supports DVD-R/W and DVD-R DL discs.

CU-VD40 (JVCUDV40).....129.95

Special!

1

HD Everio GZ-HM400**9-megapixel Dual Use Hybrid Camera**

The GZ-HM400 features 1920 x 1080 AVCHD recording and 9-megapixel digital still capture along with 32GB of built-in flash memory storage and the option to record to SD/SDHC memory cards. It has a 2.8" LCD and includes a Konica Minolta HD lens with 15x Dynamic zoom and JVC-developed optical image stabilizer.

- For still image shooting, up to 60fps 5.3-megapixel stills can be shot in a continuous burst of up to 11 images. Or, if preferred, continuous shooting of up to six nine-megapixel stills at up to 15fps is also possible. It is also possible to shoot 5.3-megapixel stills simultaneously while recording 1920 x 1080 Full HD video.
- To shoot stills, it offers aperture- and shutter priority modes, controls for manual brightness and focus adjustment.
- Konica Minolta HD Lens with a 10x optical zoom magnifies up to 15x without degradation thanks to Dynamic Zoom technology.

GZ-HM400 (JVGZHM400US).....614.95

Panasonic

SDR-S50 • SDR-T50 • SDR-H85

Standard Definition Camcorders with 78x Zoom

Featuring the world's most powerful 78x optical ultra-zoom lenses, the SDR-S50, SDR-T50 and SDR-H85 also include and Active mode for the Advanced

O.I.S. (Optical Image Stabilizer), helping to suppress blur even if the user is moving and when the powerful zooms are extended. Other features include iA (Intelligent Auto) with AF/AE Tracking, 1.9-sec. Quick Power-On, Long Recording Mode, Face Detection, Intelligent Scene Selector and easy upload to YouTube. Intelligent Contrast Control automatically adjusts brightness to maintain the best possible contrast.

SDR-S50: Records to SDXC/SDHC/SD Memory Cards only. Available in Black (PASDRS50K), Blue (PASDRS50A) or Gold (PASDRS50G) **Call or Log-on**

SDR-T50: Built-in 4 GB memory can store almost 3½ hours of video. When internal memory gets full, a relay recording function automatically changes the recording media to the SDXC/SDHC/SD Memory Card to ensure uninterrupted recording. PASDRT50K **Call or Log-on**

SDR-H85: Can capture and store up to 72 hours (in LP mode) of video to its 80 GB internal HDD. In addition, the Anti-Shock Shield helps protect the built-in hard disk from the effects of external impact. Can also records to SDXC/SDHC/SD Memory Cards. Available in Silver (PASDRH85S), Black (PASDRH85K) or Blue (PASDRH85A) **Call or Log-on**

HDC-SDX1

Ultra Compact, Ultra Light HD Camcorder

Ultra-compact and weighing under half of a pound, the HDC-SDX1 features full-HD 1920 x 1080i at 60 fps in AVCHD format and 1280 x 720p at 30p in the computer-friendly MP4 format. In addition, the HDC-SDX1 can also serve as a Web cam and mic, allowing for users to connect with online video chat programs, such as Skype® and make video calls over the Internet.

- Equipped with wide angle 16.8x optical zoom (35.8-601mm equivalent) ideal for recording portraits indoors, as well as sweeping landscapes and even allows for voices to be clearly recorded at far distances. Intelligent Zoom function makes it possible to take telephoto shots with zoom power up to 23x.
- Panasonic's Intelligent Auto (iA) mode automatically selects the most suitable of six shooting modes at the simple press of a button. These include Face Recognition, the HYBRID O.I.S., AF/AE Tracking, Intelligent Scene Selector, Face Detection and Intelligent Contrast Control.
- Touch screen operation with a 2.7-inch wide LCD monitor.
- HYBRID Optical Image Stabilization (O.I.S.) system provides optical and electrical hand-shake correction — especially helpful when zooming. In addition, press the O.I.S. Lock button on the LCD monitor, and blur detection sensitivity is maximized and other camera movements are detected and corrected.
- Supports Apple iFrame video format for smooth and easy loading and editing of image data. Users can directly upload video clips to YouTube or Facebook without having to launch a browser.

PAHDCSDX1 **Call or Log-on**

HDC-SD60 • HDC-TM55 • HDC-HS60

High Definition Flash Media and Hard Disk Drive Camcorders

The HDC-SD60, HDC-TM55 and HDC-HS60 are introductory HD camcorders featuring a powerful 25x optical zoom. And with Panasonic's Intelligent Zoom feature, it can extend to a 35x zoom. Intelligent Zoom corrects image degradation in ordinary digital zooming to deliver stunningly clear HD quality, even with the zoom fully extended. They also feature Panasonic's iA (Intelligent Auto) with Face Recognition (six faces) to automatically prioritize focus and exposure on the registered face. In addition, the focus continues to track the subject as the person moves anywhere within the LCD frame, making it easy to focus on a specified person in a group. Other iA features include: AF/AE Tracking, Intelligent Scene Selector, and Intelligent Contrast.

- 5x the corrective power of previous versions, POWER O.I.S. helps suppress blurring from low-frequency vibration. They also feature Active mode in POWER O.I.S. which minimizes the blurring while the user is moving and walking.
- Wind Noise Canceller: automatically detects and suppresses wind noise to help ensure natural sounds with lifelike ambience.
- Touch-screen icons displayed on the LCD lets users operate a variety of functions intuitively without taking their eyes off of the subject they are recording.

- They automatically adjust the brightness of the LCD screen according to the shooting environment. In dark places, the screen brightness is reduced to 1/3 the normal level. In bright outdoor places, the screen brightness is double the normal level.
- Connect a Panasonic HD Camcorder to a Panasonic VIERA HDTV via an HDMI mini cable, and operate the camcorder using the TV's remote control and follow on-screen prompts.
- Record up to 4 hours/12 hours in highest/lowest quality mode on 32GB SD/SDHC memory card.

HDC-SD60: Records to SDXC/SDHC/SD Memory Cards only in Black (PAHDCSD60K) or Silver (PAHDCSD60S) **Call or Log-on**

HDC-TM55: Records to built-in 8GB memory and to SDXC/SDHC/SD Memory Cards (PAHDC TM55K) **Call or Log-on**

HDC-HS60: Records to internal 120GB hard disk drive and to SDXC/SDHC/SD Memory Cards (PAHDC HS60K) **Call or Log-on**

HDC-TM700 • HDC-HS700

3MOS Flash Media and Hard Disk Drive HD Camcorders

Semi-professional camcorders, the DC-HS700 and HDC-TM700 are Full HD 3MOS camcorders with 1920 x 1080 resolution. They combine 1080/60p (28 Mbps) recording — allowing them to capture expressive video without detail loss or flickering — with an advanced 3MOS system that produces vivid, true-to-life colors and excels in low-light environments. Both have a 35mm wide-angle Leica lens and a 3.0" touch-screen LCD that allows users to navigate by selecting icons on the display. Equipped with a 1/4-inch image sensor and large-aperture 12x Leica Dicomar lens, they also record still images with a 10.6-megapixel resolution and feature an 8.3-megapixel resolution for still images when simultaneously recording with video.

The HDC-HS700 can store 102 hours of recording (in HE mode) on to its 240GB HDD. When combined with 64GB SDXC Memory Card, the camcorder provides an additional recording time of 27 hours. The HDC-TM700 has a 32GB built-in memory for almost 14 hours of recording (in HE mode). They use three full-HD MOS sensors to deliver the highest quality video and still images.

- Large-diameter F1.5 (46mm) Leica Dicomar lens provides superb image rendering and not only suppresses ghosting and flaring, but also minimizes the distortion and degradation of contrast and resolution. In addition, its 35mm wide-angle capability makes it ideal for many different shooting situations, such as self-portraits, group photos, and landscape shots.
- 12x optical zoom lens is further enhanced by Intelligent Resolution Technology to extend the zoom 1.3x to an 18x Intelligent Zoom, while maintaining the image quality.
- High-Density 1080/60p recording produces 60 images per second. This extremely dense image information creates intricate detail and silky smooth motion. Even when subjects move quickly, afterimages are minimized to create more natural footage. The progressive method is most effective when shooting detailed designs where moiré patterns tend to occur, or when capturing scenes during sports events where the subjects are in constant motion. Also, the recorded images are displayed clearly even when they are made into still images, so it is possible to preserve stunning photos when clipping them from videos
- POWER O.I.S. helps suppress blurring from low-frequency vibration. They also feature Active mode in POWER O.I.S. which minimizes the blurring while the user is moving and walking.

- Manual ring allowing creative flexibility, so users have intuitive control of the zoom, focus, aperture, shutter speed and white balance. An electronic viewfinder, headphone and microphone input allow for even more control.
- Record 5.1-channel surround sound with zoom microphone. They use five microphones so when voices/sounds recorded from front, right, left and back are played back on a 5.1-channel home theatre system, viewers are surrounded by clear, detailed sound. The Zoom Microphone lets users zoom the sound only to hear the subject while continuing to record a wide-angle shot.
- Wind noise canceller automatically detects and suppresses wind noise only, to ensure only the natural sounds remain.
- Auto Power LCD automatically adjusts the brightness of the LCD screen according to the shooting environment. In dark places, the screen brightness is reduced to 1/3 the normal level to minimize the possibility of disturbing nearby people. In bright outdoor places, the screen brightness is increased to twice the normal level.
- Capture brilliant still images up to 14.2MP in size when shooting in 3:2 aspect ratio. When shooting in 16:9, otherwise known as wide angle, they are capable of taking up to 13.3MP photos. And in 4:3, they can capture up to 12.2MP photos.

Panasonic

HDC-SDT750 3D Camcorder

Incorporating Panasonic's broadcast technology and equipped with a 3D conversion lens, the HDC-SDT750 shoots powerful and true-to-life 3D video content for playback on 3D capable televisions. In addition to shooting 3D, it can record full 1080p High Definition (HD) in AVCHD and includes powerful features such as a 3MOS system, a Leica Dicomar lens and 12x optical zoom. To shoot 3D video with the HDC-SDT750, users simply attach the included 3D conversion lens to record dynamic images. The specially-designed 3D conversion lens records right-eye and left-eye images simultaneously through its two lenses, thus resulting in video that can be viewed in 3D. The right and left images (each with 960 x 1080 pixels) that enter through the lenses are recorded using the side-by-side method.

Users can play back 3D videos on 3D-capable televisions via HDMI output. In addition, it is also possible to play 3D images recorded on SD memory cards by using an AVCHD compatible player such as a Panasonic 3D Blu-ray Disc player. When watching 3D content on Panasonic's Full HD 3D VIERA televisions, users can view the content and the television will automatically engage the side-by-side method for smooth viewing of 3D content – no change of settings necessary.

Even without the 3D conversion lens attached, the Panasonic SDT750 is an innovative and high-performance Full HD camcorder equipped with a wide range of sophisticated features and functions:

- Records Full-HD 1920 x 1080 at 60 fps to produce rich expressive images, with no detail loss and flickering.
- High-sensitivity 3MOS System has 7.59 million pixels (2.53 megapixels x 3) and processes each of three primary colors - red, green and blue - independently. The large-diameter f/1.5 lens, 3MOS Sensor and Crystal Engine PRO provide efficient light gathering, sensitivity, and minimal noise to enable bright, low-noise recording even in dim lighting.
- Equipped with 12x wide angle optical zoom (35-420mm equivalent) and an Intelligent Zoom function that goes all the way up to 18x—while preserving image sharpness. You get crisp images of highly detailed objects - without the blurry edges.
- Wide-variety of manual adjustments controlled by a manual ring for easy, creative shooting. The manual ring provides convenient, fingertip control of the focus, zoom, exposure (iris), shutter speed and white balance settings.

- 3" touch-screen LCD allows icons to be easily operated by touching them with a fingertip. On the LCD, recorded 3D images are displayed only as the 2D images that were recorded with the left lens.
- When shooting 2D HD video, the HDC-SDT750's iA function offers the following six functions: Face Recognition, AF/AE Tracking, Intelligent Scene Selector, Face Detection, Intelligent Contrast Control, and HYBRID O.I.S. which provides extremely accurate hand-shake correction with its four-axis blur detection, resulting in steady images while zooming or shooting on the move.
- Time Lapse recording with 1 second, 10 seconds, 30 seconds, 1 minute or 2 minutes intervals allow you to view a long recording in a reduced time period. For example, when a scene is recorded at the 1-second interval setting, a 10-minute sunset scene can be played back in approximately 10 seconds, making the slow change in the subject appear as if it were taking place in a very short time.

- Pre-Rec allows the camcorder to continuously record three seconds of content into internal memory. Then, when the record button is pressed, the three seconds immediately prior will have been recorded.
- Records audio using five highly-directional microphones. When voices are recorded from the front, right, left and back are played on a 5.1-channel home cinema system, users are surrounded by clear, detailed sound. It also allows footage recorded in 3D to be enjoyed with lifelike and dynamic sounds.
- Bundled HD Writer AE 2.6T PC editing software allows users to easily edit recorded 3D images, and save them onto PCs or Blu-ray/DVD discs. "Smart Wizard" starts as soon as the HDC-SDT750 is connected to a computer, providing simple on-screen guidance. Software also enables easy uploading and sharing online, so even an inexperienced user can post video clips on the web.

TOSHIBA

Camileo H30 • X100 HD Camcorders

Compact and lightweight with a generous 3" touch screen LCD display, the Camileo H30 records Full HD 1920 x 1080p videos as well as sharp 10-megapixel digital still photos.

Zoom into amazing detail with 5x optical/4x digital zoom and video stabilization. Or, master great videos with 4 different recording modes: Macro mode for close up shots, motion detection mode for surveillance, slow motion for sports and time elapse mode.

- When you're shooting video or taking pictures in low light the camera has both a built-in light and flash.
- Supplied remote control lets you step away from the camera
- The YouTube hotkey lets you instantly upload movies: simple use for the entire family or watch them directly on your big screen with the included HDMI mini cable.
- For flexible recording time, simply add a SD/SDHC memory card with up 32GB capacity. And since you can charge the H30 with a standard USB cable, you don't need any extra cables or power adapters on the road.
- Stepping up, the Camileo X100 offers a choice of 1080p/30fps or 1080i/60fps HD video. Zoom into amazing detail with 10x optical zoom and video stabilization. Record to the X100's massive 4GB internal memory or to optional SD/SDHC memory cards.

SAMSUNG

SC-DX205 DVD Camcorder

Ideal for those who want to record their memories to DVD, but don't want a high price tag. More sophisticated than simple point and shoot camcorders, the SC-DX205 gives you advanced features, such as Face Detection which corrects for exposure, color, focus on faces in frame. Has a Schneider 34x optical zoom for distortion free up-close video, and enhanced 42x Intelli-zoom for even closer shots without the distortion that is common with digital zoom.

- Records to compatible 3.5-inch DVDs for 720 x 480 resolution H.264 video and 800 x 600 stills.
- Should you need more storage space, SD/SDHC memory cards can be used as well.

SASCDX205.....

- Hyper Digital Image Stabilizer and 3D noise reduction work to keep your video clean and jitter-free.
- Bundled CyberLink MediaShow software enables fast and easy uploading to YouTube

HMX-T10 Full HD Camcorder

Small enough to carry anywhere and everywhere, the HMX-T10 provides unmatched simplicity for capturing and editing video content on the move, without compromising on quality. It features Full HD 1920 x 1080i recording to SD/SDHC memory cards, 10x optical zoom lens, bright 2.7" touch screen LCD, 4.7-megapixel still photo capture, and the ability to simultaneously capture still images and video. Designed to capture memories in comfort and in style, it offers ultra compact size, lightweight body and a brushed metal finish creating a subtle but sophisticated look and feel. Its smooth curves fit so comfortably in your hand, it makes shooting video for longer periods of time more enjoyable.

- Innovative 20° Slanted Lens ensures you enjoy recording without any discomfort to the arm or wrist.
- Back Side Illuminated CMOS sensor provides twice the sensitivity of conventional CMOS sensors. Dramatically reduces distortion and delivers clear video and images, even in low light conditions.
- Intelligent Smart Auto automatically selects the correct shooting mode for capturing video and stills. With 6 preset modes to choose from and automatic AE, AF, and AWB adjustment, you have the tools to shoot professional home movies and photos.

- Optical Image Stabilization ensures videos and stills are blur-free.
- Embedded Intelli-studio 2.0 software, allows the camcorder to be used with any PC in the world. Enables video files to be edited, burned and uploaded without worrying about compatibility issues. Edit videos and upload them onto the web. And since the software is built right into the camcorder, there's no need to install a physical CD or download any other programs of software.

SAMSUNG

SMX-C20

Standard Definition Camcorder

Affordable, ergonomically designed, and user-friendly, the SMX-C20 is an outstanding value for a standard definition camcorder. It features 10x optical zoom lens, 2.7" Wide LCD and records directly to SD/SDHC memory cards.

- 25° Active Angle Lens promotes a healthy hand position and eliminates wrist pain and fatigue, enabling you to shoot in comfort for extended periods of time.
- Edit function allows you to combine and divide files on the camcorder, enabling you to edit without transferring files to a PC.
- Connect the camcorder to any PC, select the files you want to share, and press the one touch upload button—that's it.
- Time lapse recording lets you program the camcorder to record one image at pre-set intervals of 1, 3, 5, 10, 15, or 30 seconds
- The Intelli-Studio 2.0 software allows users to view, edit, and upload content to the web from any PC anywhere in the world.
- Animated thumbnails makes it easy find video clips. Each video clip saved on the camcorder is represented by a small thumbnail on the LCD. When scrolling through one's videos, each thumbnail will provide a short playback of the video file when highlighted.

HMX-200 • HMX-204 • HMX-205 Full-HD Flash Camcorders

The HMX-200, HMX-204 and HMX-205 offer 1920 x 1080 HD video, Schneider Kreuznach Varioplan HD lens, and internal SSD (Solid State) drives. Lightweight and compact, the drives operate silently with very low heat emission, and feature no moving parts, which reduces power consumption and enhances reliability. No moving parts also make them more durable and resistant to shock and vibrations, which can ruin performance of HDD based digital camcorders. SSD technology is also faster than HDD, including quicker boot-up and read/write speeds which is required for the amount of data recorded in full-HD resolution. When actively reading and writing data, Samsung's SSD technology consumes approximately 1/8th of the power of a comparable HDD.

- 1/4.1" 3.3MP BSI CMOS Image Sensor provides double the light sensitivity of normal CMOS sensors and reduces light loss.
- In addition to the internal SSD drive, their memory capacity can be expanded using an SD/SDHC memory card. They use H.264 compression, which significantly increases recording time. At full-HD resolution, users can record for 12 hours on the HMX-H205.
- They incorporate a 20x wide-angle (37-740mm equivalent) Schneider Kreuznach Varioplan HD zoom lens which is paired with Samsung's Optical Image Stabilizer to reduce blur from vibrations or hand shake.

- While recording full HD videos, you can simultaneously capture 4.7-megapixel digital still image.
- HD Time Lapse recording mode lets you record a single image at pre-selected intervals of 1, 3, 5, 10, 15, or 30 seconds, and will save each image as one single movie file.
- Digest/Storyboard function captures 16 still images from the video you select and saves them to the storage media. You get a quick overview of your video -great to quickly review a video.
- One-touch upload to YouTube and built-in Intelli-Studio software for in-camera editing.

HMX-S10 • HMX-S15 • HMX-S16 Full HD Camcorders with Wi-Fi

The HMX-S10, HMX-S15 and HMX-S16 are the world's Full HD camcorders to include built-in Wi-Fi and DLNA connectivity. This allows users to easily access, manage and share content including their full-HD videos across other DLNA certified devices. And with integrated Wi-Fi connectivity, there is no need to connect any cables to view HD video or digital still images on a TV or compute. They incorporate a revolutionary new BSI CMOS imaging sensor designed to absorb more light than other conventional sensors and deliver unprecedented low-light performance while recording 1920 x 1080i video. Even better, they offer 1080p up-conversion of footage to an HDTV. Otherwise the same, the HMX-S10 records to SD/SDHC cards, the HMX-S15 adds an internal 32GB SSD drive, the HMX-S16 steps up with a 64GB SSD drive.

- Powerful Schneider Kreuznach Varioplan-HD lens with 18x Intelli-Zoom goes beyond their 15x optical zooms without sacrificing image quality. The lens is paired with Optical Stabilization to help reduce image blur and shaky video, which can be especially helpful when using the camcorders' full optical zooms.
- Charge or power the cameras, whether you're shooting or not, using the USB cable and your computer.

- Large 3.5-inch wide touch-screen LCD with a 3D graphic user interface (GUI). The ultra-bright, swiveling, WVGA LCDs and GUI not only offer fascinating visual effects but grant users uncomplicated, intuitive and easy access to all of the camcorders' advanced functions.
- The Intelli-Studio 2.0 software allows users to view, edit, and upload content to the web from any PC anywhere in the world.

VPC-CA102 • VPC-CG102 • VPC-GH2 Dual Cameras

Easy-to-hold and easy-to-operate, the pistol-grip styled VPC-CA102 and VPC-CG102, and traditional form-factor VPC-GH2, record 1920 x 1080i HD video via 12x Dual Range Zoom (40-240mm wide mode and 80-480mm tele mode) and 14-megapixel digital still images via 5x optical zoom. To aid you in shooting, the 2.7" LCD flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions.

They offer advanced digital image stabilization (takes two photos at the same time; one at a faster shutter speed and one at a slower shutter speed, then combines both for an image that has less blur and less noise) and high-speed sequential shooting of stills. Specialized video and photo face

detection recognizes multiple subjects' faces and optimizes focus/aperture settings to ensure each individual is in focus. They record MPEG4 AVC/H.264 files to SD/SDHC/SDXC memory cards, including Eye-Fi cards making it easy to edit, share or archive. Capture still images while you're shooting video. Watch your video and stills on a large HDTV via HDMI output. Otherwise the same, the bright yellow VPC-CA102 is a waterproof camera that can be used to a depth of 10' underwater for up to 60 minutes. It can be used in the rain, snorkeling, surfing, water skiing, snow skiing and snowboarding as well.

All Sanyo Dual Cameras Feature:

- Designed to fit in the palm of your hand, they feature an easy to navigate menu which make them a great choice for the beginner and the more advanced user. They are the perfect blend of style, performance, and ease of use.
- AVCHD format makes sharing videos and photos via e-mail or web sites a breeze. Import video and still image files directly into iTunes, then port them to a video-capable iPod.
- Using Face Detection technology, they recognize up to 12 faces for videos and still pictures and optimize focus and aperture settings to ensure all subjects are in focus.
- Record 8 hours of HD video on a 32GB SDHC memory card
- Sophisticated image stabilizer automatically compensates for distracting up-and-down or side-to-side camera movement, keeping your subject steady and easy to follow. It accurately distinguishes between unintentional camera shake and deliberate camera movement. Operates in both wide-angle and telephoto modes.
- Simultaneously shoot video clips and still images. Never miss another precious photo opportunity..
- They all have (except on the VPC-CG10) an HDMI output for a single cable connection to a large screen HDTV
- Supplied battery provides over 3 hours of recording time.

VPC-SH1 Dual Camera

The ultra sleek VPC-SH1 delivers Full HD 1920 x 1080i video and 10 megapixel digital photos. It packs high performance and cutting edge technology into a ultra-compact, easy to use camera. Designed to fit perfectly in the palm of your hand, the VPC-SH1 features an easy to navigate menu which make it a great choice for the beginner and the more advanced user. It is the perfect blend of style, performance, and ease of use.

It features an amazing 30x advanced optical zoom, face chasing technology which automatically reads and corrects focus and lighting for multiple subjects, and dual position recording. Its compact design makes it extremely portable and easy to use. Recording videos, shooting photos and accessing settings in the menu can easily be controlled with the user's thumb. The SH1's convenient design makes sharing videos and photos via social networking web sites, portable video devices like iPod's, TV's and computers, a breeze.

- Features super slow motion capability to capture that perfect golf swing or your pet on the move. Shooting in SHR mode (448 x 336) the VPC-SH1 can reach an amazing 240 frames per second. In UHR mode (192x108) it can reach an astounding 600fps slow motion capability.

VPC-SH1: In Black (SAVPCSH1BK) or Red (SAVPCSH1R) **Call or Log-on**

VPC-WH1 Dual Camera Xacti

The VPC-WH1 has the highest possible waterproof rating—IPX8—allowing you to record stunning 720p AVCHD video 10' underwater for an entire hour. Small and stylish, it features an extra long 30x optical zoom (35mm equivalent of 43-1290mm), 2.5" display that flips out and rotates up to 285° and an easy to navigate menu. Also features built-in flash, HDMI output to HDTV, simultaneous video and still image capture and sequential photo mode up to 13 fps.

VPC-WH1: Available in Blue (SAVPCWH1BL) or Yellow (SAVPCWH1YL) **Call or Log-on**

SANYO

VPC-CS1 Dual Camera

World's smallest, lightest, and thinnest dual camera, the VPC-CS1 records Full HD 1920 x 1080i video at 60fps video and 3-megapixel stills to SD/SDHC/SDXC memory cards - giving you plenty of flash memory media options. It's also Eye-Fi compatible as well as iFrame compatible. The iFrame video format (960 x 540/30fps) is the same format you'll shoot and edit with, making importing and editing on your Mac or PC a breeze. It features an advanced 10x optical zoom (38-380mm equivalent), image stabilization, 2.7" LCD, high speed sequential photo mode, Face Detection and HDMI output to an HDTV. Also offers three audio recording modes:

- Wide mode records very realistic audio with clear left and right channel separation.
- Zoom Mic Mode produces enhanced audio clarity with the audio recording focused more on the camera subject.
- Zoom Combination Mode provides an automatic combination of the first two modes. All audio is recorded in AAC format which make it very compatible with multiple devices.

In Silver (SAVPCCS1) or Pink (SAVPCCS1PE) **Call or Log-on**

VPC-GH4 Dual Camera

The VPC-GH4 records Full HD 1920 x 1080i video and 10 megapixel digital photos. It delivers excellent 10x dual range zoom for video and 5x optical zoom for photos. It has a more traditional horizontal design, but this product is far from ordinary. 2.7-inch LCD display flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions.

Utilizes specialized video and photo face detection technology. It features digital image stabilizer for video and photos, high speed sequential shooting (photos), has an HDMI output, records to SDXC memory cards, and is Eye-fi compatible as well. The VPC-GH4 tracks and focuses on moving subjects, such as children or pets, by detecting their colors. Allows simultaneous shooting of video clips and still images.

SAVPCGH4 **Call or Log-on**

DCR-SX83: 16GB Internal Memory in Silver (SODCRSX83) **349.00**

DCR-SR68 • DCR-SR88 Standard Definition Hard Disk Drive Camcorders

Almost identical to the DCR-SX44 or DCR-SX63 (above) except the DCR-SR68 and DCR-SR88 trade in built-in flash memory for built-in hard disk drive (HDD) that offers extended, hassle-free recording. With their built-in 80GB or 120GB hard disk drive you can record and store up to 60 or 90 hours of video footage in SD LP mode. In addition, "HDD Smart Protection" gives you peace of mind by preventing any recorded video and images from being lost if the camcorder is accidentally dropped. They also offer hybrid Recording to HDD or Memory Stick Duo media. Hybrid recording delivers a level of flexibility for capturing and transferring your video footage and digital photos from the camcorder to compatible viewing devices. Record to the hard disk drive or choose instead to record to removable Memory Stick PRO Duo media. You can even select from various dubbing functions to easily copy video or still images from the HDD to the Memory Stick - without using a PC.

DCR-SR68 80GB Hard Drive in Blue (SODCRSR68L), Red (SODCRSR68R) or Silver (SODCRSR68) **329.00**

DCR-SR88: 120GB Hard Drive in Silver (SODCRSR88) **379.00**

All Flash "Memory Stick" and Hard Disk Drive Camcorders Feature:

- They power on simply by opening the LCD display and offer an Easy Handycam button, letting you focus only on the buttons needed for recording.
- The display rotates up to 270° for multiple viewing angles, as well as provides sharp, detailed images for monitoring or playback. The convenient touch panel allows easy access to menus and additional functionality such as spot focus and spot metering.
- LED video light for capturing video in low-light situations
- USB 2.0 interface for fast transfer of video and still images to PC for editing.
- Dolby Digital stereo recording with built-in zoom mic focuses on subject for clear dialogue and crisp, discrete sounds
- Film Roll and Face Index technology help you find the video scenes you want by previewing the beginning of scenes and create scene indexes set at specified display intervals (3, 6, or 12 seconds and 1 or 5 minutes) or by choosing from the faces displayed in the index.
- Bundled Picture Motion Browser software lets you easily view, organize, and one-click upload images to video and photo sharing Web sites. In addition, multiple output options let you burn your memories to DVD, AVCHD and Blu-ray Disc media.

DCR-DVD650 DVD Handycam Camcorder

Record directly to DVD and enjoy it on your TV. Shooting high quality video is easy with the DCR-DVD650. It features 60x Zeiss Vario-Tessar optical lens (2000x digital zoom) SteadyShot image stabilization, built-in zoom mic, color viewfinder and 2.7" wide touch panel LCD display. With hybrid recording technology, you record to DVD or removable Memory Stick Duo or PRO Duo media.

- Compatible with DVD-R/-RW/+RW and +R DL (Dual Layer)
- Various dubbing functions let you easily copy video from Memory Stick or built-in flash memory to DVD without using a PC.
- Film Roll and Face Index technology help you quickly find the video scenes you want.
- USB 2.0 for fast transfer of video and images to PC for editing.
- 5x zoom in playback or in the playback pause mode.

- Bundled Picture Motion Browser software lets you easily view, organize, and one-click upload images to video and photo sharing Web sites. In addition, multiple output options let you burn your memories to DVD, AVCHD and Blu-ray Disc media.

DCR-DVD650 (SODCRDVD650) **299.99**

SONY

HDR-CX110 • HDR-CX150 • HDR-XR150

High Definition Flash Memory and Hard Disk Camcorders

Offering full 1920 x 1080 HD video recording at up to 24Mbps, the HDR-CX110 and HDR-CX150 feature 25x optical zoom and Sony "Exmor R" CMOS sensor which offers higher sensitivity and reduced image noise to provide stunning low light performance in twilight or candlelit scenes. They also feature, iAuto, Face Touch, Highlight Playback, 60p output and 3MP still photos. Otherwise the same, the HDR-CX110 records to optional Memory Stick media or SD/SDHC memory cards, the HDR-CX150 adds 16GB of internal memory.

- Select a person to be prioritized (for focus, color, exposure and Smile Shutter technology) just by touching a detected face on the screen and the camcorder will remember them – even if they leave the scene – for the entire recording session. Smile Shutter technology, captures candid smiling photos simultaneously while video is being recorded.
- iAuto eliminates the guesswork from selecting optimal camcorder settings for different environments by detecting the camcorder's surroundings and continually optimizing settings in real-time for up to 90 unique scenes.
- Optical Steady Shot™ image stabilization with Active Mode reduces the effects of hand shake in three directions – vertical and horizontal shake corrected by optical image stabilization and the third, by way of electronic image stabilization, corrects lateral-roll shake. This advanced stabilization system results in dramatically smoother video footage.
- User friendly interface uses touch screen technology so users can scroll through menus quickly and even create a personalized "My Menu" to bring together the functions they use most.

HDR-CX300 • HDR-CX350V • HDR-XR350V

Mid-Level HD Flash Memory and Hard Disk Camcorders

Stepping up, the HDR-CX300, CX350V and CX-550V include a wide angle 12x G lens that offers a 27.4mm focal length in photo mode and 29.8mm in video mode. The lens fuses advanced optics with low dispersion aspheric glass elements for accurate color reproduction and sharp, detailed images while a six-blade aperture produces circular "bokeh" defocus effects for creative shooting possibilities. They also offer 7MP still photos.

- Available on the HDR-CX350V and HDR-XR350V embedded GPS lets you track destinations on a map with built-in GPS antenna and NAVTEQ® digital maps for video and photo geo-tagging.
- Building on the slow-motion capture capabilities of Smooth Slow Record, Golf Shot captures a few seconds of motion as a sequence of up to 22 still images, which can be viewed/printed individually or as a composite "sequence shot" image, great for analyzing a golf swing or tennis serve.

SONY

HDR-TG5V

Ultra-Portable HD 1080i Camcorder

The HDR-TG5V delivers full HD 1920 x 1080 resolution video recording and 4-megapixel still image capture in an ultra-portable design, perfect for travel and everyday recording.

The stylish HDR-TG5V features a pure titanium body that makes the camcorder remarkably strong, lightweight, and resistant to scuffs and scratches. It includes a built-in GPS receiver that records the latitude and longitude where videos and photos are shot, automatically adjusts the clock to the proper time zone and displays your current location on the LCD with NAVTEQ map index display. The HDR-TG5V comes with 16GB of embedded flash memory that can record up to two hours of high definition video at the highest quality settings, as well as a number of convenient Sony innovations, including Face Detection with Smile Shutter™ technology and Highlight Playback.

- Features a 10x Carl Zeiss Vario-Tessar zoom lens designed for compact camcorders. Precision ground optics help maintain the sharpness and contrast of larger lenses, and SteadyShot image stabilization reduces blur caused by camera shake.
- 2.7" wide (16:9) touch panel Clear Photo LCD Plus™ display provides excellent viewing clarity with improved resolution.
- 4-megapixel still image capture lets you take high resolution digital photos, and for added clarity and detail in low-light situations, the built-in flash reduces shadows and improves pictures.
- Made possible by the BIONZ™ image processing engine, Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- In Smile Shutter the camcorder automatically take still photos when your subject smiles, even while shooting HD video.
- The Highlight Playback feature lets the HDR-TG5V automatically create a short movie - including transitions and music - by using several criteria to identify and compile key scenes.
- Dolby Digital 2 channel stereo recording captures active sounds coming from left and right, while the built-in zoom mic focuses on your subjects in sync with the camera's zoom lens.
- Record video directly to either the 16GB memory or removable Memory Stick PRO Duo media
- Smooth Slow Record lets you slow down fast motion by increasing the record rate from 60 fps to 240 fps
- x.v.Color™ technology can capture or display nearly twice as many (1.8x) viewable colors as the standard RGB color range.
- HDMI and USB 2.0 output for connection a widescreen HDTV or PC for fast transfer of video and still images for editing.
- Map Index uses your geotagged videos and photos to view your shot locations on NAVTEQ® maps in the camcorder, offering a new way to easily search and find a desired scene by location or view where a scene was captured.
- Film Roll Index creates scene indexes at specified display intervals, making it easier to find and playback the desired moment.
- Face Index uses Face Detection technology to organize your video footage based on the faces detected in each scene.
- Bundled Picture Motion Browser software makes it easy to transfer, sort, and view your video and still images. Multiple output options let you burn to DVD, AVCHD, and Blu-ray Disc™ media, making it simple to upload to video & photo sharing sites.

---------------------------------	---------------

SONY

HDR-AX2000
AVCHD Camcorder

The HDR-AX2000 incorporates AVCHD technology, three Sony Exmor CMOS sensors with ClearVid array, and state-of-the-art 20x G Lens, to deliver full high-definition resolution and low light sensitivity with low noise. The camcorder will record

AVCHD up to 24Mbps, delivering 1920 x 1080 HD images with both interlace and progressive modes along with native 1080/24p, 720/60p and MPEG-2 standard definition recording.

- AVCHD recording format utilizes the MPEG-4, AVC/H.264 video codec, allowing users to record HD video footage onto random access media. Its intelligent and sophisticated algorithm makes AVCHD a highly efficient compression format ideal for memory recording and IT-based editing. (SD format recording is available in addition to HD format recording).
- Three 1/3" Exmor™ CMOS Sensors improve the color reproduction of video recordings and capture sharp, detailed images even in low-light environments with sensitivity of 1.5 lux.
- 20x zoom "G Lens" zoom provides a 29.5-590mm focal length (35mm equivalent). Two ED glass elements reduce chromatic aberrations. Also includes a compound aspheric lens for images that are crisp and clear, even when shooting at full zoom.
- Active SteadyShot offers additional stabilization by increasing the optical lens coverage area and by improving detection with state-of-the-art compensation.
- 3.2" (16:9) Xtra Fine LCD with 921,000 pixels and 0.45" Xtra Fine electronic viewfinder with 1,227,000 pixels for high-resolution, high-contrast images with remarkable color reproduction.
- The LCD and viewfinder feature a Center Marker that lets users identify the center of the screen at a glance. Users can also display a Guide-frame grid on the screen that simplifies the vertical and horizontal alignment of shots.
- Has three built-in neutral density filters, plus manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control.
- Manual zoom, focus and iris for even more flexibility. Offers the same operability as interchangeable lenses.
- Equipped with two memory slots for recording to Memory Stick PRO Duo media and SD/SDHC cards, with the HDR-AX2000 automatically cycling between the two of them. Using two 32GB memory cards, six hours of continuous HD footage can be recorded.
- Assign frequently used functions to shortcut buttons.
- Has a record start/stop button on the handle as well as on the side grip. The zoom lever enables easy zooming even when shooting from a low angle.
- Provides four types of Color Bars for color adjustment
- Users seeking extra control can use Cinematone Gamma to deepen the color and Cinematone Color to recreate film-like color tones. Cinematone Gamma allows operators to quickly set up and load a gamma curve with similar contrast characteristics to a film gamma curve.
- Has dual XLR ports allowing direct input of balanced, pro-level microphones without the need for an XLR-to-mini adapter. Component, HDMI, and S-Video outputs are also available, allowing for direct connection with analog and digital displays.
- Capture still images directly onto one of two selectable Memory Stick PRO Duo media or SD/SDHC media slots for easy transfer to PCs for emailing, printing, or sharing with other compatible Memory Stick devices.

SOHDXRAX2000H**3499.99**

SONY

HDR-FX7 3CMOS 1080i HDV Camcorder

Shoot like a pro with the HDR-FX7. Capture and playback amazing video and still images in both 1080i HDV and standard definition on standard miniDV tapes. Recorded HDV video can be conveniently edited with a choice of available HDV, non-linear editing software. Its HDMI interface offers simple, one-cord connection to compatible display devices. ClearVID 3CMOS sensor combined with Sony's Enhanced Imaging Processor results in higher video resolution, greater light sensitivity with minimal picture noise, and more accurate color reproduction

- The HDR-FX7 has a smooth slow record function. With its three sensors, it can capture a six-second burst of video and play it back in 24 seconds as slow motion video.
- Has a high-resolution, 3.5" SwivelScreen LCD screen with Clear Photo Plus LCD for superb contrast and accurate color reproduction. Also sports a high-resolution viewfinder to accurately check composition, focus and image color.
- Has a Carl Zeiss Vario-Sonnar T* lens with a 20x optical zoom plus a 1.5x digital extender realizing a 30x optical zoom without significant degradation of picture quality.
- Super SteadyShot optical image stabilization reduces shaky footage, even when shooting handheld at high zoom settings.
- Provides extensive manual controls for zoom, focus, shutter speed, white balance, iris, and gain. Independent manual zoom and focus rings provide a high degree of manual control.
- Picture Profile allows the user to set manual adjustments for a scene (color, sharpness, white balance, etc) into any one of six presets, so they can be called up at just the touch of a button.
- Dual record function allows 1.2-megapixel still images and video recorded simultaneously, with the press of a button.

HDR-FX7 (SOHDFX7).....1999.00

SONY

HDR-FX1000 3CMOS 1080p HDV Camcorder

Ideal for amateur videographer shooting weddings or the aspiring cinematographer, the HDR-FX1000 offers advanced cinematic features, including 24P scanning and advanced color settings. It captures full HD 1920 x 1080 resolution using three Sony's ClearVid™ 1/3" CMOS sensor chips which provide high sensitivity, deep resolution, high-speed reading, low noise and a wider dynamic range. It also allows the camcorder to perform significantly better in low-light environments with sensitivity of 1.5 lux.

- 3.2" XtraFine LCD™ (921,000 pixels) and XtraFine 0.45" electronic viewfinder (1,227,000 pixels) for high-resolution and high-contrast images with remarkable color reproduction.
- Peaking focus assist provides a simple way to ensure images are in perfect tack-sharp clarity. The process highlights high-contrast areas that represent sharp lines making focus operation incredibly quick and easy.
- Progressive scan at 1080/24p and 30p gives video productions a film-like look. Using a 2-3 pull down, the 24P scanned image is converted to 60i for easy editing with existing software.
- Three built-in neutral density filters provide exceptional light control even in extremely bright environments.
- 30% extension in dynamic range translates into more detail in both highlights and shadows. Increase dynamic range can be very useful when color correcting during post production.
- Incorporates CinemaTone technology, which comes in two flavors. CinemaTone Gamma™ crushes blacks while keeping the mids and highlights detailed, while CinemaTone Color™ deepens color reproduction for richer hues. Combine the two and footage becomes incredibly film-like.

- Equipped with a Sony G lens with a 29.5mm wide-end viewing angle, extra-low dispersion glass and 20x optical zoom. The lens also has a digital extender that increases magnification by 1.5x, making the lens achieve up to 30x digital zoom levels.
- Manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control. Use of any of the three manual rings for adjustments to zoom, focus and iris provides even more flexibility.
- When shooting in extremely bright-lit areas, the gain control can be knocked even down to reduce noise even further.
- Histogram gives users a visual/numerical reference for making sure the camera is properly color corrected.
- Zebra feature highlights over-exposed areas of the frame
- Color bar button provides reference for quick calibration on location or in the studio.
- x.v. Color technology built into the HDR-FX1000 means the cameras sees nearly twice as many colors than conventional prosumer-level cameras. The camera provides colors that are more accurate and vivid in gamut.
- HDMI output for connection a widescreen HDTV

HDR-FX1000 (SOHDFX1000).....3199.00

SONY

NEX-VG10

Interchangeable Lens HD Video Camcorder

Featuring interchangeable lens capability and an extra-large Exmor APS HD CMOS sensor, the NEX-VG10 allows unprecedented artistic expression—not possible with conventional consumer video cameras. Equipped with the same Exmor™ APS HD CMOS sensor used in the Sony's NEX-3 and NEX-5 digital cameras—19.5x bigger than the standard sensor found in conventional camcorders, the NEX-VG10 can record extremely shallow depth of field. This allows videographers to achieve cinematic results with stunning background defocus (bokeh). Users can also enjoy DSLR-quality photo capture with features like Auto HDR, Handheld Twilight, and Anti Motion Blur, as well as catch fast action sequences with a continuous burst rate of up to seven fps.

Captures full 1920 x 1080 HD video at 30 fps in AVCHD 60i format at up to 24Mbps for amazing clarity and detail—as well as 14-megapixel still images. Includes an 11x E-mount 18-200mm lens optimized for video that combines with silent auto-focus system, and Optical Steadyshot image stabilization with Active Mode for superior versatility.

- Compatible with high grade "E-mount" series of smaller, lighter lenses optimized for video shooting with silent operation and AF. Also compatible (via optional adapter) with "A-mount" lenses used by Sony's DSLR cameras including Sony G and Carl Zeiss branded lenses.
- To satisfy the audio needs of serious videographers, Quad Capsule Spatial Array Stereo Microphone uses advanced processing algorithms to combine signals from four individual microphone capsules. The result is exceptionally clear stereo audio with high directional response. Also offers an external mic input and headphone jack to monitor sound levels.
- TrueBlack™ technology brings remarkably higher contrast and brightness to the high-resolution (921,000 pixel) 3.0" Xtra Fine LCD swivel (180°) display, delivering more natural, realistic colors and easier viewing in bright conditions. The LCD is supplemented by a high-resolution adjustable electronic viewfinder that helps frame, monitor and capture clear images.
- Sony's BIONZ image processor offers chroma noise reduction to high-resolution, low-noise photos even at higher ISO settings. It also enables fast processing for up to 7fps continuous shooting of data-intensive 14.2 megapixel images, and 6-image layering, as well as high quality 24Mbps video recording.
- Intuitive jog dial and hotkeys make it easy to navigate menus and adjust shooting parameters, including full manual control of Iris, Shutter Speed, Gain and White Balance for professional results.
- Optical SteadyShot image stabilization with Active Mode compensates for camera shake to deliver stunningly smooth video.
- Control how the camera processes your images with six finishing styles: Standard, Vivid, Portrait, Landscape, Sunset and B&W. You can even fine-tune contrast, saturation, and sharpness to your personal taste.
- Offers three advanced photo modes:
 - High Dynamic Range (HDR) captures more scene contrast than a single exposure can handle by taking three consecutive shots with different exposure values, then combining the best high-light/shadow detail from them for one incredible shot. Ideal for situations where severe backlighting is present and other high-contrast scenes. (Recommended for still subjects.)
 - Perfect for situations with poor lighting or when using a telephoto lens, Anti Motion Blur mode will take 6 consecutive shots in a split second, taking the best of each individual image and creating a single image with superior clarity and detail. Ideal for minimizing subject movement in low lighting conditions.
 - Great for shots at night or when little light is available, Handheld Twilight mode reduces camera shake when shooting a stationary subject by taking 6 consecutive shots then combining them all to create an image that would have been impossible otherwise.
- Eight white balance modes help you get the shot by optimizing the camera for specific shooting situations. Select from Auto, Daylight, Shade, Cloudy, Incandescent, Fluorescent, Flash, and Custom modes.
- Anti-Dust Technology helps keep the CMOS sensor clean. First a static-free coating on the sensor's low-pass filter helps repel dust. Then vibration automatically dislodges dust from the sensor, essential when changing lenses in between video sessions.
- Enjoy HD movies and stunning still images on a compatible HDTV via HDMI output (mini-HDMI-to-HDMI cable not included).
- Dual accessory shoes (Alpha Hot Shoe/Universal Cold Shoe) allow for many still photography and video accessories, such as shotgun mics and external flashes.
- Records to Memory Stick PRO Duo/PRO-HG Duo/Duo HX (30MB/s transfer rate) and SD/SDHC/SDXC memory cards.

GV-HD700

HDV Video Walkman

- A portable ENG/EPF VCR, the GV-HD700 offers professional reliability and superb functionality in the field or in the studio. Its portable, lightweight design ensures ease of use in a variety of video productions, making it an ideal tool for producers, DPs, editors, and camera rig operators. Records in SD resolution and plays back in HDV resolution. Features x.v.Color, crystal clear still/slow-motion playback, MiniDV SP/LP record/playback, component output, IEEE 1394 interface and PCM digital audio recording. View content on built-in 7" 16:9 LCD or output 1080i/720p signals to an HD display.
- DV In/Out (IEEE 1394) enables editing or dubbing between another Digital camcorder, VCR or computer equipped with DV Capture Card, with virtually no generation loss.
 - Built in assemble editor lets you mark cut-in and cut-out points for up to 20 separate scenes. Use as source while controlling via infrared any remote-capable camcorder or VCR as your recorder.
 - 7" color LCD screen with Active Matrix technology provides clear, accurate colors for on-the-spot playback of recordings.
 - Analog input lets you preserve your analog library by copying it onto a digital format.
 - Edit images by zooming in up to 2x and cropping picture (up, down, left, right). Save the new image as a separate file. Resize lets you save a copy of an image to a smaller or larger file size.
 - USB Image Capture function lets you stream live and recorded moving images to PC via USB port.
 - Capture digital still images up to 1440 x 810 resolution from video-tapes, analog inputs or digital video i.LINK input, directly onto Memory Stick media.

SOGVHD700.....1044.95

PAL Camcorders Explained: In the U.S., the TV color system is known as NTSC, which uses 525 scan lines at 30 frames per second. But there are two other television standards, called PAL and SECAM, used in the rest of the world. Unlike NTSC, PAL uses 625 scan lines at 25 frames per second. So, while camcorders can record video anywhere in the world, it's where that video is played back that makes a difference. PAL camcorders are designed to

play back in countries that support the PAL color system—such as Europe, China, the Middle East, and South Africa. This means that these camcorders—with their different signals and frame rates—*do not* play back on American televisions. There are no multi-standard camcorders; they are either NTSC or PAL. Variations to these standards also exist, such as PAL-B, PAL-I (United Kingdom), SECAM-D (China), and SECAM-L (France).

PRO-24CM

Stereo Camcorder Microphone

This lightweight stereo condenser microphone is ideal for capturing high-fidelity audiodirectly into your camcorder.

- Mounts easily on camera shoe
- Attached 1/8" mini cable
- Rugged all-metal construction
- Battery or "plug-in" power

#AUPRO24CM **61.13**

SMX-10

Directional Stereo Camera Mic

- Shoe-mount stereo camcorder microphone
- Compact design
- Operates on a single AAA battery
- Low frequency roll-off
- Attached stereo mini output cable
- Includes windscreen

#AZSMX10 SMX-10 Directional Stereo Video Mic **64.95**

SGM-X

Camera Mounted Shotgun Mic

Designed specifically for use with mini DV cameras, the Azden SGM-X is a supercardioid shotgun mic with a wide frequency response, an 1/8" mini plug output and camera shoe mount.

#AZSGMX **106.95**

MKE400

Small Shotgun Mic

Rugged and lightweight metal housing for on-camera mounting.

- Selectable wind filter
- Switchable sensitivity for long and short distances
- Integral shock-mount

#SEMKE400 Ultra Compact Shotgun Mic W/Shockmount **199.00**
 #SEMZW400 MZW400 Wind-muff and XLR Adapter Kit for the MKE400 **43.00**

VIDEOMIC

Directional Condenser Mic

Shoe-mountable shotgun microphone specially designed for use with digital video cameras with stereo mini-jack inputs.

- Integrated shock mount
- Switchable high-pass filter
- 9V battery powered • Ultra-lightweight • Low Battery LED

#ROVM Videomic -Directional Condenser Mic **149.00**
 #RODC Dead Cat Wind Muff **39.00**

PortaMic 5.1

Camera-Mounted 5.1 Surround Microphone

Offers a simple, yet professional means of capturing 5.1 surround sound. Six individual mic capsules and built-in Dolby ProLogic II encoder automatically encodes discrete audio for stereo output using the included cables. Operates on a 9V battery and features an elliptical shape that mimics the acoustic properties of human hearing.

#HOPM51 **598.95**

SVM

Stereo Video Microphone

The SVM is an on-camera stereo microphone with an X/Y configuration and the same low-noise circuit design as the Rode VideoMic. It features 9V battery operation, an LED battery status indicator, a high pass filter switch, and a -10dB pad switch

- Stereo X/Y condenser microphone
- Integral camera-shoe mount and windshield
- Rugged cast aluminum body
- 9V battery operation

#ROSVM Stereo Video Mic **249.00**

WMS-PRO

VHF Wireless Lav/Hh Mic System

Reliable portable wireless units that are available as lavalier or handheld systems.

- Camera mountable receiver
- Headphone output
- 2 switchable frequencies

#AZWMSPRO lavalier/handheld system **157.95**
 #AZWLXPRO lavalier system **140.95**
 #AZWHXPRO handheld system **162.95**

UM SERIES

UHF Diversity Wireless System

The Samson Micro Diversity wireless system provides solid, single-channel UHF performance.

- Compact and lightweight components
- Balanced XLR and 1/8" mini output
- Headphone output with level control

#SAU77LLM5N* with LM5 Omni Lavalier Mic **199.00**
 #SAU77LLM10N* with LM10 Lavalier Mic **219.00**
 #SAU77HHN* with HT7/Q7 Handheld Mic **199.00**

PRO 88W

Camera Mountable VHF Lavalier Systems

Includes:

Body-Pack Transmitter, Camera Mountable Receiver, AT830mW Omnidirectional Lav Mic, and Camera Shoe Mount

- 2 User Selectable VHF Frequencies
- Durable Metal Construction Camera Shoe Mountable

#AUP88W830* with MT830R omni mic **149.00**
 #AUP88W829* with AT829 cardioid mic **149.00**

MINI WINDJAMMERS

Designed to be positioned over the foam windscreens of a handheld, stereo, or consumer camcorder microphone.

#RYMWS60 Mini Windjammer for Sony VX-2000/2100 **44.00**
 #RYMWS130 Mini Windjammer for Sony PD-150/PD-170 .. **46.00**
 #RYMWS155 Mini Windjammer for Canon XL1/2 **46.00**

Beachtek DXA-5DA

Passive DSLR Adapter

The DXA-5DA provides professional audio results when capturing video with a DSLR camera. Connect the DXA-5DA to the mic input of the camera and connect two mono microphones, or a single stereo mic. Features two XLR connections and controls for volume and mic/line level operation.

#BEDXA5DA **329.00**

DXA-SLR

Active DSLR Adapter

The DXA-SLR has built-in low-noise preamps that provide 15dB of gain for clean, clear audio, and phantom power for connecting professional audio gear to any DSLR camera that has a mic jack. Good/Peak signal indicators show the ideal input levels, while AGC Disable controls the wild swings of AGC that plague most cameras. Fits neatly under any camera and can also be mounted to a tripod. Runs on 9v battery

**DXA**

XLR Audio Adapters

The DXA family of adapters are designed to give XLR connectivity to cameras that only support 1/8" miniplug inputs.

- 2 balanced XLR inputs
- 1 auxiliary mini-jack input
- Dual Mic/Line level switches
- Durable metal chassis

DXA-4 for Sony VX2100, FX1/FX7 (#BEDXA4) **Call**
 DXA-4P for Canon GL-1/GL-2 (#BEDXA4P) **Call**
 DXA-2T Compact Dual XLR Adapter (#BEDXA2T) **189.00**
 DXA-6A Audio Adapter (#BEDXA6A) **279.95**

CX211 • CX231

XLR Audio Adapters

Provide two balanced XLR connections for 1/8" mini equipped camcorder. High, Mid and Low gain settings with attenuator dial. Mount to the bottom of camcorders and tripod tops. Otherwise the same, the CX231 features 12v and 48V phantom power.

CX211 (#JUCX211) **189.00** CX231 (#JUCX211) **189.00**
 DN101 Automatic Gain Control Disabler for DSLR Cameras when used with CX211 or CX231 (#JUDN101) **139.00**

Video Conversion Lenses

Impact's high-quality convertible lenses are manufactured with premium workmanship, resulting in superior, high-resolution image capture. These conversion lenses are available in several categories: telephoto, wide-angle, macro/close-up, and fisheye. They mount directly onto digital and video camcorders. Impact lenses with a magnetic base will magnetically mount directly to your digital camera or camcorder.

Video Batteries and Chargers

Small and lightweight, Pearstone's lithium-ion batteries are virtually the same as the manufacturers original, but only about 79% of the cost. They can be charged or discharged at any time without developing memory effect. Don't wait for your one and only battery to charge before you can record again, carry a spare and keep on shooting.
