

## INTRODUCTION

Thank you for choosing the Genaray LED-2100 On-Camera Light. This product will provide you with powerful, portable and dependable illumination that can be used in a variety of settings. Featuring advanced light dispersion capabilities and supporting accessories that add instant versatility to this light kit, the Genaray LED-2100 On-Camera Light proves to be the perfect choice for photographers and videographers alike.

### KEY FEATURES

- Integrated Shoe Mount Connects To DV & HD/SLR Cameras
- Unit Has 25' Lighting Range & 65° Illumination Angle
- Stackable Mounting Feature Interlocks With Other Units
- Mounting Bracket Connects To 1/4 20 Camera Tripod Screw

### PRODUCT CONTENTS

- 1 - LED Light With Built-In Diffuser & Shoe Mount
- 1 - Thread Adapter for Sony AIS Shoe Mount
- 1 - Included Camera Mounting Bracket
- 2 - 700mAh Li-Ion Rechargeable 1-Hour Batteries
- 1 - 110-240V AC/DC Wall Charger
- 1 - European Plug Adapter

### POWERING LED LIGHT

- Open latch found on battery compartment cover by squeezing tab upwards; hold tab in upward position and remove the entire cover
- Install fully-charged battery by sliding it into battery compartment; ensure that gold-colored battery conductor contacts face upwards and are touching metal prongs in the battery mounting area
- Replace battery compartment cover
- Move the power switch into the ON position to illuminate the LEDs

### MOUNTING LED LIGHT ON CAMERA

- Begin by positioning light unit directly atop camera or video camera
- Ensure that locking ring is fully loosened and slide cold shoe mount into shoe of camera; rotate ring clockwise to lock light into place securely

### MOUNTING LED LIGHT ON BRACKET

- Included mounting bracket is designed for point-and-shoot cameras that have no shoe mount; begin by mounting light on cold shoe found on bracket
- Insert 1/4 20 screw found on bracket into the 1/4 20 threading mount found on bottom of camera; adjust spacing of camera by sliding knob along length of bracket arm and secure tightly

### INTERLOCKING WITH OTHER LED UNITS

- Ensure that device locking ring is fully loosened and slide cold shoe mounting into interlocking expansion slot of another compatible Genaray LED light unit; rotate ring clockwise to lock light in place securely
- Up to 3 compatible Genaray LED light units can be mounted to each individual light unit or in a stacked vertical format for increased illumination

## SAFETY WARNINGS

- Do not attempt to disassemble, repair or perform any unauthorized modifications on device
- Do not handle with wet hands, immerse in liquids or expose to water and rain; electric shock or fire may result
- Device contains small parts which may pose a choking hazard; keep out reach of children
- Do not operate device in presence of flammable gas or vapors
- Do not use product if it emits smoke or a strange odor; disconnect power source immediately to avoid personal injury and contact place of purchase
- Observe caution when handling batteries; only use batteries approved by the manufacturer of this product
- Batteries are prone to leakage when fully discharged; to avoid damaging product be sure to remove batteries when leaving product unattended
- Do not intentionally stare or gaze at LED light panel for prolonged periods while device is on
- Do not use or leave device in conditions of extreme heat, severe cold or high humidity
- Unit will display a decrease in brightness when the battery runs low; be sure to replace battery when necessary to avoid affecting recording quality

- When cleaning the device, use only a mild detergent solution and quickly wipe dry with a soft cloth
- Please dispose of used batteries, packaging and old devices in accordance with appropriate environmental regulations
