For Canon DSLR Cameras

120J II Flash Kit

Highlights

The Sunpak 120J II bare bulb flash kit for Canon is back. Perfect for all your high demand flash demands with a extraordinary high guide number of 54 in meters. The 120J II is completely compatible with all the latest Canon HD DSLR cameras available. It incorporates a high resolution LCD display for easy settings and operations for the perfect setup for any demanding flash need. With full features such as swivel and bounce head, and bare bulb lighting. Works on just four AA batteries for power and fast recycle time or optional power pack. It also includes wireless TTL control for multiple flash setups. Bare bulb flash is back and at a cost anyone can afford.
