The AG-HMC70 series is a low-cost HD camcorder that records onto memory cards to meet a wide range of image production needs. Its high-quality HD lens, 3CCD camera system, XLR audio inputs, BNC terminals and stable shoulder-held style enable top-quality HD recording for professional applications. Employing the AVCHD format on SD/SDHC memory cards, the AG-HMC70 series boasts high reliability against vibration, impacts and temperature change, for up to 360 minutes* of recording. It allows a wide range of users to get a start in tapeless HD image production.

*When using a 16-GB SDHC card and recording in HE (extended-time) mode.
High Image Quality, High Reliability, Low Cost

- The 1/4-inch progressive 3CCD system captures widescreen HD images with high sensitivity and resolution.
- Features a 38.5mm (35mm lens equivalent) wide-angle, 12x zoom lens with integrated optical image stabilizer.
- Provides pro-tuning color reproduction inheriting the color tones of Panasonic’s professional HD camera series.
- Mechanism-free memory-card recording means high durability and reliability against vibration, impacts and temperature change.
- SD/SDHC memory cards are inexpensive, widely available, and can be repeatedly reused.
- Employs an AVCHD (MPEG-4 AVC/H.264) codec with advanced technologies.
- Records up to 360 minutes* of high-resolution 1080i HD images.

Professional Features

- The shoulder-held design enables stable shooting with minimal blur, while light weight and excellent balance enhance stability during long recording sessions.
- Professional audio specifications include two XLR Mic/Line switchable inputs (+48V compatible), and both Auto & Manual Rec level dials.
- Component output (BNC x 3), composite output (BNC x 1), audio output (RCA x 2).
- Headphone output.
- Speaker provides clear sound, even in the field.

Other Functions and Specifications

- Thumbnail display on the 3-inch LCD monitor provides instant image access for easy confirmation or deletion.
- One-push auto focus.
- Still-image recording with 2.1-megapixel resolution, even while recording motion images.
- HDMI output, USB 2.0 (B-type devices).
- Options: VW-VBG6 5,800-mAh Battery, VW-W4307H Wide Conversion Lens, HD SDHC Card 5,800-mAh Battery
