SAFETY INSTRUCTIONS

- Do not store, place, or use the charger where it may come into contact with excess heat, water, or moisture.
- High-voltage internal components present the risk of electrical shock.
- Charge only at room temperature on a dry, vibration-free surface.
- Should you ever notice smoke or a strange odor coming out of the charger, immediately unplug the AC adapter from the power outlet. Using the charger under these conditions can cause fire and electric shock.
- Do not short-circuit the terminals of your battery or charger.
- Do not attempt to disassemble any part of the charger.
- The charger, adapters, and batteries may feel warm during the charging process. This is normal.
- Remove any battery after it is fully charged.
- Unplug the AC cable from the power outlet and clean the area around the prongs of the plug when necessary. The presence of dust around the prongs can cause fire.
