

## New Product Introduction!

**Shoot pictures and videos and see them LIVE on your smartphone or device!**

The Ominus FPV has all the great benefits of the original Ominus - plus FPV! In addition, it allows you to turn your smartphone into your eye-in-the-sky! The Ominus FPV includes a Wi-Fi-enabled HD digital camera, and you can use your smartphone or other mobile device to watch your flight and operate the camera. All you need to do to see a crystal-clear, first-person view of your flight is download to your smartphone the FPV Cam app, which is free from the Apple App Store<sup>SM</sup> or Google Play<sup>TM</sup>. Everything else is included, right down to "AA" batteries for the 2.4GHz radio.

### Features:

- Fully assembled quadcopter designed for extreme durability, with a rugged, resilient plastic frame
- 1MP Wi-Fi-enabled high-definition FPV 1280 x 720P camera, with a range up to 328 feet (100 meters), depending on Wi-Fi environment
- Innovative smartphone holder with sunshade
- Download photos and videos to either the included micro memory card (card reader is also included) or a smartphone
- Turn camera on/off, adjust brightness, replay or delete videos, edit or delete photos, and manage video and photo storage – all from a smartphone
- Four different flight modes: Easy, Normal, Advanced and Expert
- Three axis gyro and three accelerometers make the Ominus FPV stable enough to fly indoors or out; the accelerometers can be turned off for greater maneuverability
- High intensity, multi-color LED lights for easy tracking and orientation
- Auto-Flip button: Capable of flips, rolls, and twists at the touch of a button
- Available in four colors: Blue, green, red, and yellow
- Q200 2.4GHz transmitter for interference-free flight
- Rechargeable 1S 3.7V 700mAh 35C LiPo battery and high-output USB fast charger
- Long flight times up to 12 minutes
- Four "AA" batteries and extra set of blades

**Diagonal Length:** 9.4 in (238 mm); **Weight:** 4.2 oz (120 g)

**Requires:** Smartphone or other device for Android or Apple and FPV Cam app are required for FPV flight
