Our earbuds fit differently than other brands in that they are designed to fill the bowl of your ear with the sound tunnel extending down into your ear canal. They are not meant to be pushed down into the ear canal. The back of the bud should brace lightly against the back of the bowl of your ear.

FIT ENHANCERS TO EARPHONE

1 Wrap right enhancer around right earphone.
Repeat for left side.

2 Start with the left bud and rotate sound tunnel between 3-4 o'clock position. Adjust for comfort.

3 Repeat with the right bud and rotate sound tunnel between 8-9 o'clock position. Adjust for comfort.

TO CLEAN ENHANCERS: Remove & wash with warm soapy water
