GALE-50

# Studio Fan

INSTRUCTIONS

# Introduction

## Thank you for choosing Impact.

Impact's Studio Fan creates movement in your photos with this simple to use wind effect. Direct the fan on a subject's hair to simulate a windy beach setting or some leaves blowing on a fall afternoon. Mount the fan onto any light stand with a 5/8-inch stud and use the tilt feature to lock in the ideal angle. A single knob operates the power switch and variable speed control so you can dial in the perfect airflow for your shot.

## Precautions

**WARNING  Do not stick any objects into the air inlet or outlet.**

- Please read and follow these instructions, and keep this manual in a safe place
- Keep this unit away from water and any flammable gases or liquids.
- Make sure the unit is powered off when plugging it into a power source.
- Use only the correct, recommended voltage.
- Handle the unit with care.
- Clean the unit with only a soft, dry cloth.
- Do not attempt to disassemble or repair the equipment—doing so will void the warranty, and Impact will not be responsible for any damage.
- Keep this unit away from children.
- Use only parts provided by the manufacturer.

# Operation

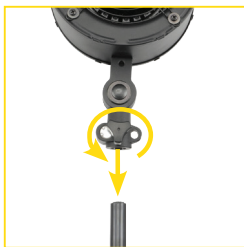

## Attaching the Air Duct

1. Remove the duct screw from the main body of the fan.
2. Align the air duct with the hole and insert the screw.
3. Tighten the screw until secure.

## Mounting the Fan

1. Loosen the mount's locking knob. Then press and hold the release button and seat the receiver onto the 5/8-inch stud.
2. Tighten the locking knob until secure.

## Adjusting the Tilt

1. Support the body of the fan with one hand and loosen the tilt locking knob.
2. Tilt the fan into position, and tighten the locking knob until secure.

## Fan Operation

**Warning** ⚠ Before turning on the unit, make sure the fan is securely attached to the stand, turned off, and no objects are sticking in the air inlet or outlet.

1. Plug the power cord into a power socket.
2. Rotate the fan speed control clockwise until you hear a click and the power indicator lights up green and the fan starts to run.

**Note:** The fan produces a loud noise during operation and it is not recommended for use with audio recordings.

## Changing the Fuse

1. With the fan unplugged, loosen the fuse cover in the direction of the arrow.
2. Replace the 5 A fuse, and tighten the cover until secure.

# One-Year Limited Warranty

This Impact product is warranted to the original purchaser to be free from defects in materials and workmanship under normal consumer use for a period of one (1) year from the original purchase date or thirty (30) days after replacement, whichever occurs later. The warranty provider's responsibility with respect to this limited warranty shall be limited solely to repair or replacement, at the provider's discretion, of any product that fails during normal use of this product in its intended manner and in its intended environment. Inoperability of the product or part(s) shall be determined by the warranty provider. If the product has been discontinued, the warranty provider reserves the right to replace it with a model of equivalent quality and function.

This warranty does not cover damage or defect caused by misuse, neglect, accident, alteration, abuse, improper installation or maintenance.
