

The background of the entire page is a detailed technical drawing of various Canon lenses. The drawing shows multiple lens assemblies from different angles, with numerous dimension lines and numerical values indicating their physical specifications. The lines are thin and grey, creating a complex, layered pattern behind the text.

Note on lens compatibility:

Canon provides 3 types of sensors size, all of which have a direct impact on the field of view coverage of a specific lens, their lens lineup is also divided between EF type lenses that will work on all of their DSLR camera body and the EF-S type which are designed from the onset to work with 1:6 ratio type sensor, please make sure when selecting lenses that they are compatible with your camera model. If you have any question regarding a camera/lens compatibility, please contact your Canon dealer or contact us at info@aquatica.ca
