

Snambol

Product model:CP5 Lite

Product Manual

Shenzhen ZO Video Technology Co., Ltd.

1: Product Highlights

Full HD Screen

Shutter Control

1 Click
Connection

3.5 Hours
Battery Life

50m Range

<40ms Latency

2: Product Design

- 1 Power/Brightness
- 2 Shutter/Zoom In
- 3 Rotate/Mirror
- 4 Reset Hole
- 5 Headphone Jack
- 6 Battery Indicator
- 7 Type-C Port
- 8 Antenna Cover

- Power Switch: Short Press to Turn On, Long Press to Turn Off
- Short Press to Adjust Brightness
- Short Press to Shoot
- Long Press to Zoom In
- Short Press to Mirror
- Long Press to Rotate

(Please use a power adapter of 5V=2A or higher for charging.)

Battery status light Indicators.

Connected to usb power:	Light on	Battery charging
	Light off	Battery fully charged
Not connected to usb.	Light off	No status indicated

3: Package List

1 CP5 Lite

2 Product Manual

3 Type-C Cable

4 USB-A Cable

4: Parameter

Model	CP5 Lite
Ports	Type-C Port
	3.5mm Headphone Jack
Power Supply	Type-C 5V/ Built in Battery
Power Consumption	< 2.5W
Weight	123g
Dimensions	123.92*69.24*9.6mm
Bluetooth Shutter Control	Support
Transmission Frequency	2.4G / 5GHz
Transmission Latency	40ms
Receiving Sensitivity	-85dBm

○ : Indicates that the content of the hazardous substance in all homogeneous materials of this component is below the limit requirements specified in GB/T 26575-2011.

✗ : Indicates that the content of the hazardous substance in at least one homogeneous material of this component exceeds the limit requirements specified in GB/T 26575-2011.

According to the Chinese electronic industry standard SJ/T 11364-2014 and relevant government regulations, this product and some of its internal or external components may carry an environmental protection use period label. The use period label may vary depending on the components and their manufacturers. The use period label on the components takes precedence over any conflicting or different environmental protection use period labels on the product.

10: Safety Precautions

1. This product is designed to operate in environments with temperatures between 0°C and 35°C, and should be stored at temperatures between -20°C and 45°C. Extreme temperatures can affect the product's performance and may damage both the product and the battery. Please avoid charging outside the 0°C to 35°C range to prevent reduced battery performance or damage.

2. Please do not place this product or battery near heating devices, cooking appliances, or pressure vessels (such as microwaves, induction cookers, ovens, heaters, pressure cookers, water heaters, gas stoves, etc.) or inside them, as this may cause the battery to overheat and potentially explode.

3. User must use certified and compatible chargers, data cables, and batteries. Using unapproved adapters or cables may result in electric shock, fire, explosion, or other hazards.

4. This product is not designed to be waterproof and does not support immersion in liquids. Please do not use this product in or near liquids to avoid device damage

Warning: the following actions may pose safety risks to the battery and lead to safety issues during normal use of this product:

- 1. Disassembling the battery yourself.
- 2. Applying excessive pressure or puncturing the product.
- 3. Placing the phone in a microwave, near a flame, or close to other heat sources.
- 4. Allowing the product to come into contact with water or other liquids.

Battery Tips:

- 1、Increasing screen brightness will reduce battery runtime.
