LITEMONS Full-color LED Light
Instruction Manual

Safety Instructions and Attentions

First of all, as the most basic principle: This product is a professional lighting set equipment and should be used by professional lighting engineers or under the guidance of professionals. Basic safety attentions must always be followed during use, as follows:

1. Before use, please read and understand these instructions and attentions.
2. Professional lighting is prohibited for children. When children are near, parents or accompanying persons must supervise closely to prevent children from personal injury due to collision with lamps or private use of lamps.
3. This lighting product is not ordinary lighting product and cannot be used for general lighting. Anyone who has suffered eye damage or has sensitive eyes should avoid using this product.
4. When the lamp is on, it must be used with care. Do not touch high-temperature parts, such as LED lamp beads, to avoid burns.
5. When the lamp is on, it is forbidden to look directly at the lamp beads under any circumstances. Strong light should be used under the guidance of professional lighting engineers. Avoid prolonged exposure to strong light under any circumstances. If eye discomfort, please turn off the lamp in time, suspend use, and see a doctor immediately.
6. If the lamp bead is damaged or deformed by heat, stop using this equipment, and contact the manufacturer, service agent or qualified maintenance personnel to replace the lamp bead in time to avoid accidents.
7. This product is only suitable for use in -20°C to 40°C operating environment and normal humidity environment.
8. Do not use damaged equipment or accessories, and wait for professional maintenance personnel to check and repair to confirm being normal before use.
9. During using, if the casing of this product is broken due to being dropped, squeezed or subjected to strong impact, please do not use it, so as to avoid electric shock injury due to contact with internal electronic components.
10. If an extension cord is required, please use an extension cord with a current rating greater than or equal to that of the equipment. If an extension cord is rated less than the equipment, overheating may result.
11. Some products have long power cords, please place the power cords properly and keep them in a safe place. Avoid contacting the power cord with overheating surfaces, avoid improper placement that could cause pulling damage, or trip on-site personnel. Please use the certified power cord from the original manufacturer. If the product is damaged by using a non-certified power cord, it will not be repaired by our factory.

12. Be sure to unplug equipment from the power outlet before cleaning and repairing. When not in use, do not pull the power cord to unplug the equipment. For normal power-off, please hold both ends of the plug of the equipment with your hands and pull the plug out of power outlet. This equipment needs to be connected to a grounded outlet.
13. This equipment is not waterproof, please keep it dry and do not immerse it in water or other liquids. The equipment should be installed in a dry and ventilated place, and avoid using it in rainy, humid, dusty or overheated environments. Do not place any objects on the lamp or let liquid flow into the lamp to avoid accidents.
14. Do not disassemble the product without permission. If the product fails, it must be checked and repaired by authorized maintenance personnel.
15. Before storing, make sure that the equipment has cooled down completely. For storage, unplug the power cord from the equipment. The equipment should be placed in the carrying case or in a ventilated dry place.
16. Do not place equipment near flammable and volatile solvents such as alcohol and gasoline.
17. Do not use accessories that are not recommended by our factory to avoid fire, electric shock or personal injury.
18. When cleaning, do not wipe it with a damp cloth, please use a dry cloth or a soft cloth to wipe the dirt of the equipment.
19. Please take off the protective cover before using.
20. This product complies with ROHS, CE and FCC certification, please refer to the relevant national standards for use and operation.
21. The safety instructions are formulated according to the strict testing of the factory, and the design and specifications of the equipment are subject to change without prior notice. For latest product information, please check the GODOX website and view latest electronic instruction.
22. One-year warranty period, accessories such as consumable batteries, adapters, power cords, etc. are not covered by this warranty.
23. If it is found that the equipment is repaired without authorization, the one-year warranty period will be cancelled and relevant fees will be charged for maintenance.
24. Machine failures caused by non-standard operation are not covered by the warranty.

Keep these instructions!

Foreword

Thank you for purchasing!

Brand new LITEMONS LED lights LA150R (input 165W), LA200R (input 220W), and LA300R (input 330W) have the following prominent features: CCT/HSI/RGBW/GEL/FX modes, NFC fixture addition function, remote control through built-in Bluetooth, wide CCT range from 1800K to 10000K, adjustable brightness, high-bright light bead, percentage dimming and etc. Full-color RGBW mode allows different light colors to create the appropriate atmosphere as the shooting theme changes. It is specially designed to provide light source for small scene advertising, microfilm shooting, live streaming and other scenes.

Warning

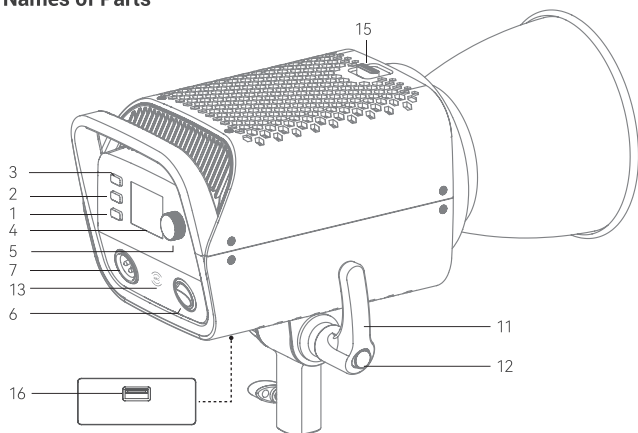

-  Do not look directly at the LED light or illuminate at others' eyes.
-  Do not plug or unplug the power cable or connecting cable when the power is turned on, otherwise personal injuries may occur.
-  Do not cover the heat dissipation vent in working status.
-  Keep out of reach of children.
-  Please make sure to follow the instruction manual and correctly use this professional lighting device.

Do not stare at the operating light source

The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

Note: Due to continuous updates and upgrades of the products, there may be differences between the actual products and the pictures. Therefore, the pictures are for reference only, products to prevail in kind.

Installing/Detaching Reflector

1. Align the reflector with the light head mount and rotate clockwise to install it.

2. Press and hold the mount fixing pusher and rotate counterclockwise to remove the reflector.

Installing the Bracket

Rotate counterclockwise the bracket locking button to loosen it, install the light body onto the bracket firmly, then rotate clockwise the bracket locking button to tighten it.

Note: the bracket is sold separately.

Power Switch

Connect to the power source, toggle the power switch to **|** to turn on the device, toggle it to **○** to turn off the device.

CCT Mode

Press the MODE button to enter mode selection, turn and press the select dial to choose CCT mode. Turn and press the select dial to adjust brightness, CCT and GM values, turn clockwise to increase while turn anticlockwise to decrease.

Brightness: 0% ~ 100%

CCT: 1800K ~ 10000K

GM: -100% ~ +100%

HSI Mode

Press the MODE button to enter mode selection, turn and press the select dial to choose HSI mode. Turn and press the select dial to adjust brightness, HUE and SAT values, turn clockwise to increase while turn anticlockwise to decrease.

Brightness: 0% ~ 100%

HUE: 0 ~ 360

SAT: 0% ~ 100%

RGBW Mode

Press the MODE button to enter mode selection, turn and press the select dial to choose RGBW mode. Turn and press the select dial to adjust brightness, red, green, blue and white values, turn clockwise to increase while turn anticlockwise to decrease.

Brightness: 0% ~ 100%

Red: 0% ~ 100%

Green: 0% ~ 100%

Blue: 0% ~ 100%

White: 0% ~ 100%

GEL Mode

Press the MODE button to enter mode selection, turn and press the select dial to choose GEL mode. Turn and press the select dial to adjust brightness, GEL type, GEL group type, color, CCT, HUE and SAT values, turn clockwise to increase while turn anticlockwise to decrease.

Brightness: 0% ~ 100%

GEL type: R-GEL/L-GEL

GEL Group Type (R-GEL)
COR. / CAL. / SPC. / CINE.

GEL Group Type (L-GEL)
COR. / COLOR. / 600 / COS. / 700

CCT: 3200K or 5600K

HUE: -10 ~ 10

SAT: -20% ~ 20%

FX Mode

Press the MODE button to enter mode selection, turn and press the select dial to choose FX mode. Turn and press the select dial to choose among flash, lightning, cloudy, broken bulb, TV, candle, fire, firework, explosion, welding, police car, SOS, RGB cycle and party. Then turn and press the select dial clockwise to increase while turn anticlockwise to decrease their respective parameters.

1. Flash

This effect simulates a camera flash or flash bulb and is often used to create a vivid, lively atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Trigger: A (Auto) / M (Manual)

Color: CCT/HSI

CCT/HUE: 1800K-10000K/0-360°

Speed: 1-100

Mode: Camera Flash/Flash Bulb

2. Lightning

This effect simulates the natural thunder and lightning and is often used to create a tense, terrifying or mysterious atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Trigger: A (Auto) / M (Manual)

CCT: 1800K-10000K

Times: Random/1-10

Frequency: Random /2-20

3. Cloudy

This effect simulates the effect of cloud occlusion and is often used to create a gloomy, oppressive or sad atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Ratio: 30% -90%

Speed: Random/1-100

4. Broken Bulb

This effect simulates the effect of a broken bulb and is often used to create a dim atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Color: CCT/HSI

CCT/HUE: 1800K-10000K/0-360°

Speed: 1-100

5. TV

This effect simulates the effect of light from a television or screen and is often used to create a cold, mechanical or digital atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Color: CCT/HSI

Speed: 1-100

6. Candle

This effect simulates the effect of light from a candle and is often used to create a soft, warm, shimmering atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Speed: 1-100

7. Fire

This effect simulates the effect of light from flame and is often used to create a bright, warm, shimmering atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Speed: 1-100

8. Firework

This effect simulates the effect of light from fireworks and is often used to create a gorgeous, colorful, romantic atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Embers: 1-100

Speed: 1-100

9. Explosion

This effect simulates the effect of light from explosion and is often used to create a bright, fierce, shimmering atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Trigger: A (Auto) / M (Manual)

Color: CCT/HSI

CCT/HUE: 1800K-10000K/0-360°

Embers: 1-100

Speed: 1-100

10. Welding

This effect simulates the effect of light from welding and is often used to create a hot, mechanical atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Color: CCT/HSI

CCT/HUE: 1800K-10000K/0-360°

Speed: 1-100

11. Police Car

This effect simulates the effect of light from police car and is often used to create a tension, chasing atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Color: Red+Blue/Red/Blue/Blue+White/Blue+Yellow/Yellow/Red+White+Blue/ Red +Yellow+Blue

Mode: 1-5

12. SOS SOS

This effect simulates the flashing effect of an SOS signal and is often used to create a dangerous, distress or emergency atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

Color: CCT/HSI

CCT/HUE: 1800K-10000K/0-360°

13. RGB Cycle

This effect simulates the effect cycle and change of colorful lights and is often used to create a fantasy, sci-fi atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

SAT: 0%-100%

Speed: 1-100

14. Party

This effect simulates the effect of colorful lights, flashes and laser, and is often used to create a carnival, fun, high energetic atmosphere.

Brightness: 0% -100% (in 1% increment)

Switch: Turn on/off the effect

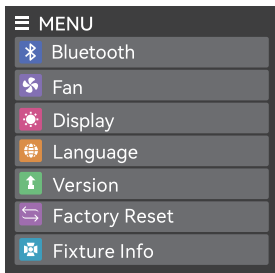

SAT: 0%-100%

Speed: 1-100

Note: Please turn the select dial to adjust the parameters, then press and turn it to the next parameter. Select manual, the effect can be triggered once by pressing the select dial once. After a certain effect is set, press MODE button can return to the 14 effects interface.

MENU Settings

Press the MENU button to enter menu interface, turn and press the select dial to enter the following setting options.

1. Bluetooth

Turn and press the select dial to enter Bluetooth, turn it to select between Bluetooth switch (on/off) and reset, while the Bluetooth MAC code is on the right corner for convenient check, then press MENU button to return to the menu interface.

Quick Bluetooth Reset: Press and hold the Bluetooth button to quickly reset the Bluetooth, the "Resetting" progress bar is full means Bluetooth is resetting.

"GODOX Light" App Download

Scan the QR code to download the "Godox Light" smartphone app (can be used in Android and Apple).

Note:

1. The app can be used directly on the firstly installed device (smartphone or iPad). When change to other mobile device (smartphone or iPad), the light shall be reset before the normal connection of app.
2. The app needs to be version V3.0 or above.

2. Fan

Turn and press the select dial to enter fan, turn it to select among off, auto, medium and high, then press MENU button to return to the menu interface.

3. Display

Turn and press the select dial to enter display, turn it to adjust screen brightness from 10% to 100% (turn clockwise to increase while turn anticlockwise to decrease), then press MENU button to return to the menu interface.

4. Language

Turn and press the select dial to enter language, turn it to select between simplified Chinese and English, then press MENU button to return to the menu interface.

5. Version

Turn and press the select dial to enter version, on which you can check upgrade steps and firmware version on the right corner, then press MENU button to return to the menu interface.

6. Factory Reset

Turn and press the select dial to enter factory reset, turn it to select yes or no. The device will automatically reset and reboot if you choose yes, then simplified Chinese and English options show on the display for your choice, after which the brightness will turn to 100% and go to CCT mode automatically.

7. Fixture Info

Turn and press the select dial to enter fixture info, on which you can check model, firmware version and light head temperature, then press MENU button to return to the menu interface.

NFC Addition

Use the NFC function of smartphone and NFC chip of the light fixture to connect them, then add the light fixture to **【Godox Light】** app.

1. Preconditions: light fixture supports NFC addition, **【Godox Light】** app is V3.2.4 or above, Bluetooth and NFC functions of smartphone are turned on.
2. Operation Instructions: subject to the fulfillment of preconditions, turn on the **【Godox Light】** app and enter the corresponding scene, click **【+】** to select **【NFC Addition】** function, bring the NFC sensing area of smartphone near the sensing area of light fixture to scan to add in **【NFC Addition】** interface, bulk addition is also supported.

Note: Android systems can complete the addition by directly closing the sensing area, while iOS system need to click the  icon on the right top and wait for the pop-up window then add.

Maintenance

- This product, except consumables, is supported with a one-year warranty.
- Unauthorized service will void the warranty.
- Maintenance of the light must be performed by our authorized maintenance department which can provide original accessories.
- If the product had failures or was wetted, do not use it until it is repaired by professionals.
- Shut down the device immediately should abnormal operation be detected.
- Changes made to the specifications or designs may not be reflected in this manual.

Working Environment Temperature	-20°C ~ 40°C		
Dimension (without reflector)	\approx 9.09" \times 6.14 " \times 9.37		
Net Weight (without reflector)	\approx 2.5kg		

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Warning

Operating frequency: 2402MHz – 2480MHz (BT)

Maximum EIRP Power: 9.05dBm(LA150R , LA200R) , 9.49dBm(LA300R)
