C-Stand

Pro Caster Set

INSTRUCTIONS

# Introduction

## Thank you for choosing Impact.

The Impact C-Stand Pro Caster Set is compatible with any C-stand with legs up to 1 inch in diameter. The 3-inch rubber wheels are mounted on rugged steel offset brackets that lower the stand's center of gravity and extend the footprint diameter for stability, even if the stand is carrying a heavy load. Mobility is effortless with 360° wheel rotation, and C-stands will glide over most surfaces, including thick carpeting. Dual-action foot-operated wheel locks make locking and unlocking fast and easy so repositioning a C-stand will take seconds. An included hex key is the only tool you need to attach the casters to your C-stand. The leg receivers feature dual hex bolts to prevent rotation once they're tightened.

## Precautions

- Please read and follow these instructions, and keep this manual in a safe place.
- Clean the unit with only a soft, dry cloth.
- Make sure all attachment screws are tight and secure before proceeding.
- Make sure that this product is intact and that there are no missing parts.
- All images are for illustrative purposes only.

# Setup

## Attaching the Casters

1. Slide the C-Stand's legs into the caster's receivers.  
**Note:** Be sure to align the casters so the center of the receiver is aligned with the leg.

2. Use the included hex key to tighten both hex screws until secure.  
**Note:** Make sure to tighten both hex screws evenly.

## Operating the Wheel Locks

Step on the left On side to lock the wheels.

Step on the right Off side to unlock the wheels.

**Important!** When using the casters on a C-stand with a leveling leg, make sure the casters are locked when the C-stand is on an uneven surface, stairs, or a curb.
