

## Thank you for choosing Angler.

The Angler FB-G3 lets you attach the Godox AD200PRO II, Canon Speedlite EL-5, or Sony HVL-F60RM2 to your Angler FastBox. When the adapter is mounted, you can take advantage of the many accessories that are available for the FastBox, such as the 40° grid, diffusers, and color gels.

**Important!** Before you begin, consult the Godox AD200PRO II, Canon Speedlite EL-5, and Sony HVL-F60RM2 user manuals for setup and operation instructions.

## Attaching the FB-G3 and Flash to the FastBox

Insert the flash head into the adapter. Make sure the flash is fully inserted so the head is flush against the end of the adapter.

Firmly press the locking button until the head is securely housed in the adapter. Before you proceed, make sure the flash doesn't shake or wobble in the adapter. If the flash wobbles, firmly press the locking button again until it clicks.

Line up the alignment dots. Insert the adapter into the FastBox and rotate clockwise until it clicks in place.

## Removing the FB-G3 Adapter

Pull down on the release latch and twist the FB-G3 counterclockwise to remove it from the FastBox.

## Removing the Flash

Press the unlock button and remove the flash from the adapter.
