SpeedTop 30 Backpack

Hideaway Partition Stowing:

Step 1. Pull the partition out and up, releasing the hook-and-loop during the process.

Step 2. Fold the main strip of hook-and-loop back on to itself.

Step 3. Secure the hook-and-loop "wings."

Step 4. Tuck the partition into the built-in stash pocket.

Stash Master S Camera Cube Installation (Sold Separately):

Step 1. Unlatch and spread apart the main compartment compression straps.

Step 2. Feed both attachment straps through the loops within the main compartment with the hook-side facing downwards.

Step 3. With its lid open and flipped back underneath itself, place the Stash Master Small and affix the hook-and-loop on the accessory straps to the interior.

Step 4. Secure the Stash Master with the compression straps and buckle. Adjust the straps so they hold the cube in place without deforming its shape.
