

H1250-BG Framework Device Panel

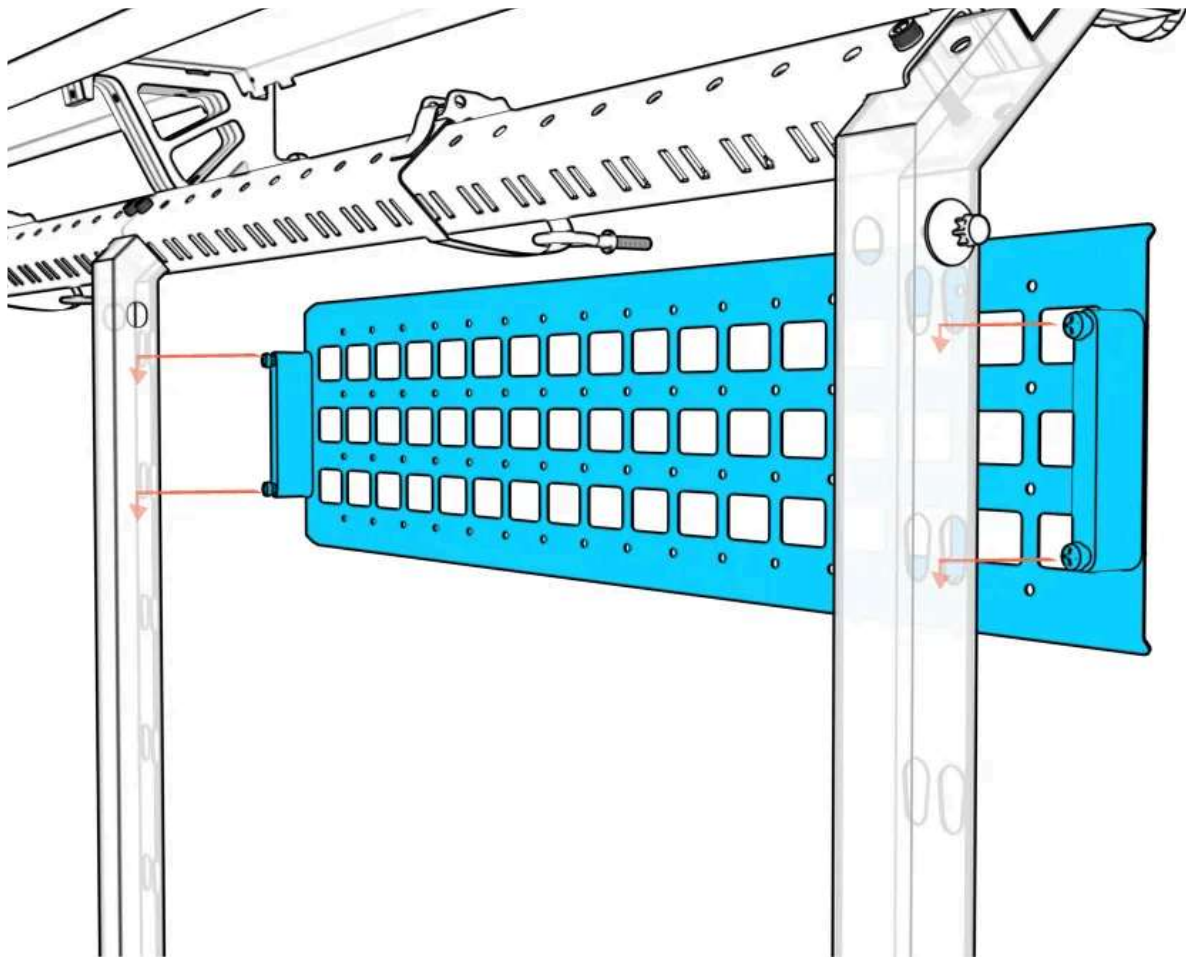

In the box

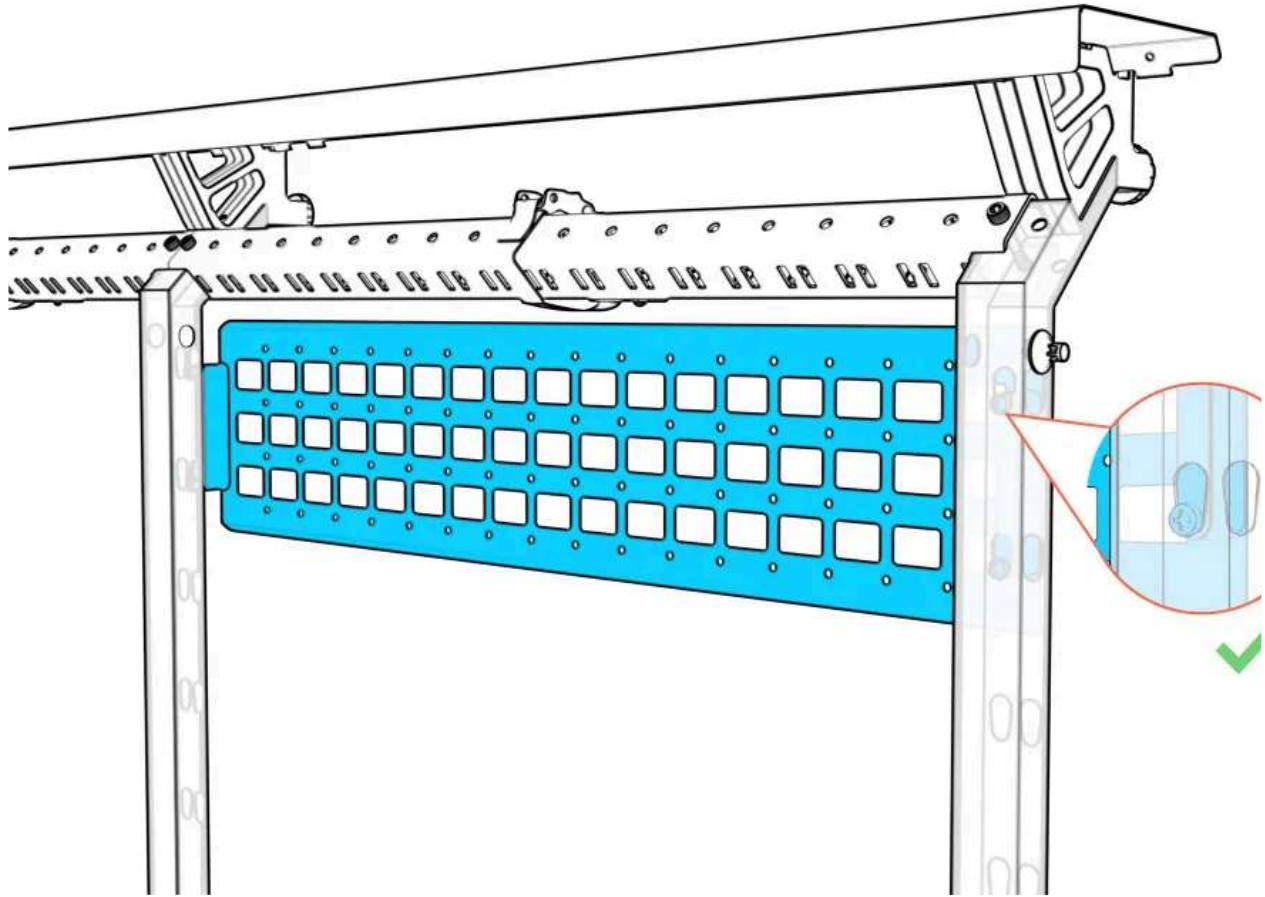

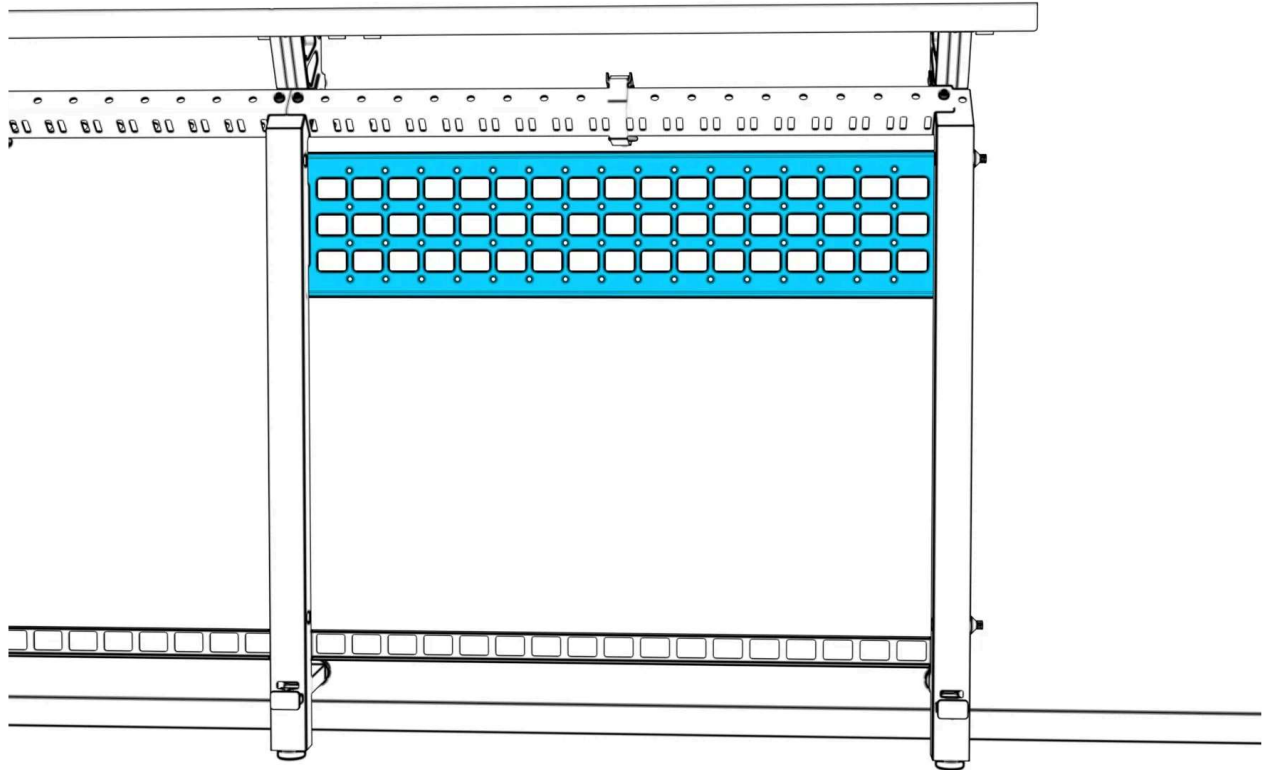

- a. 1 x Device panel (R1063)
- b. 1 x velcro 2ft (F856)
- c. 4 x Rackmount Screw (F938)
- d. 2 x Rackmount Adapter (P280)

Install to the Framework leg

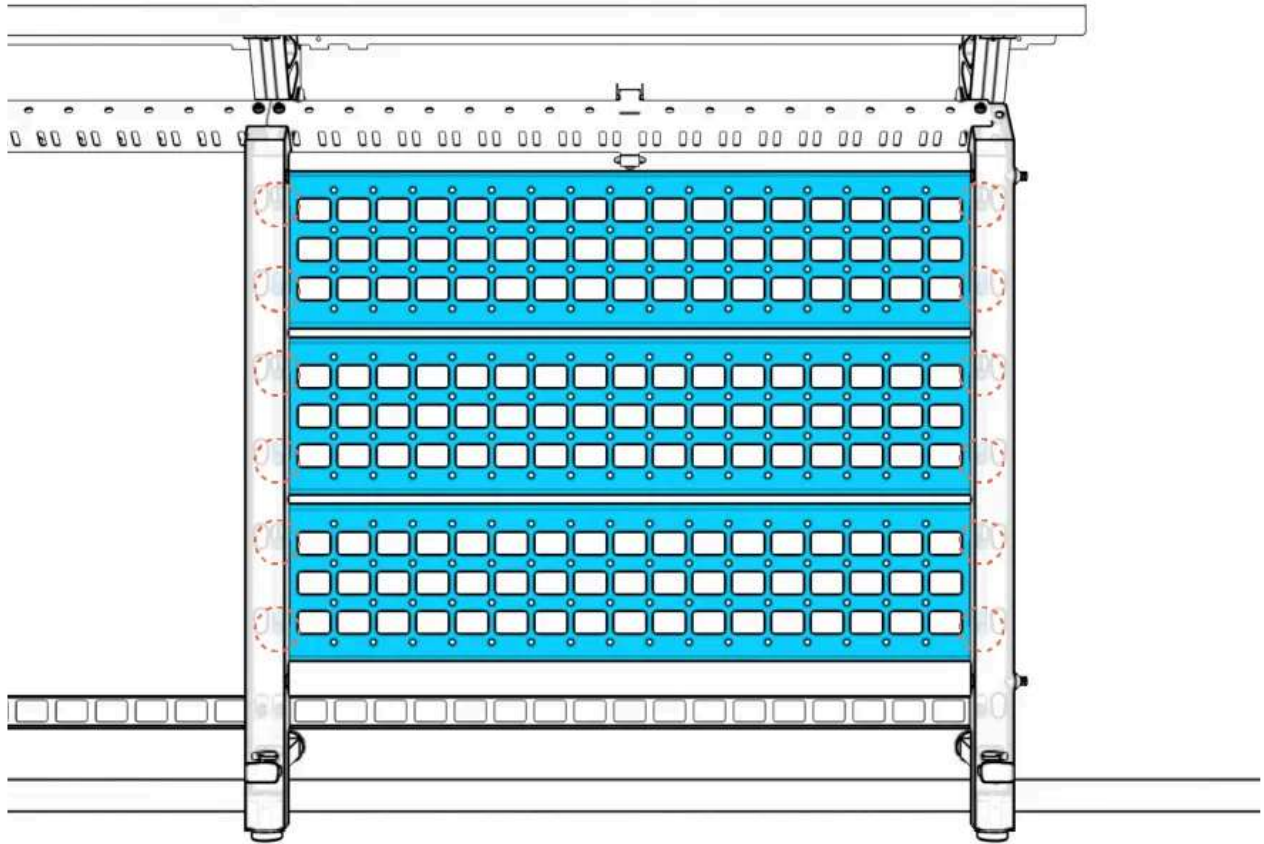

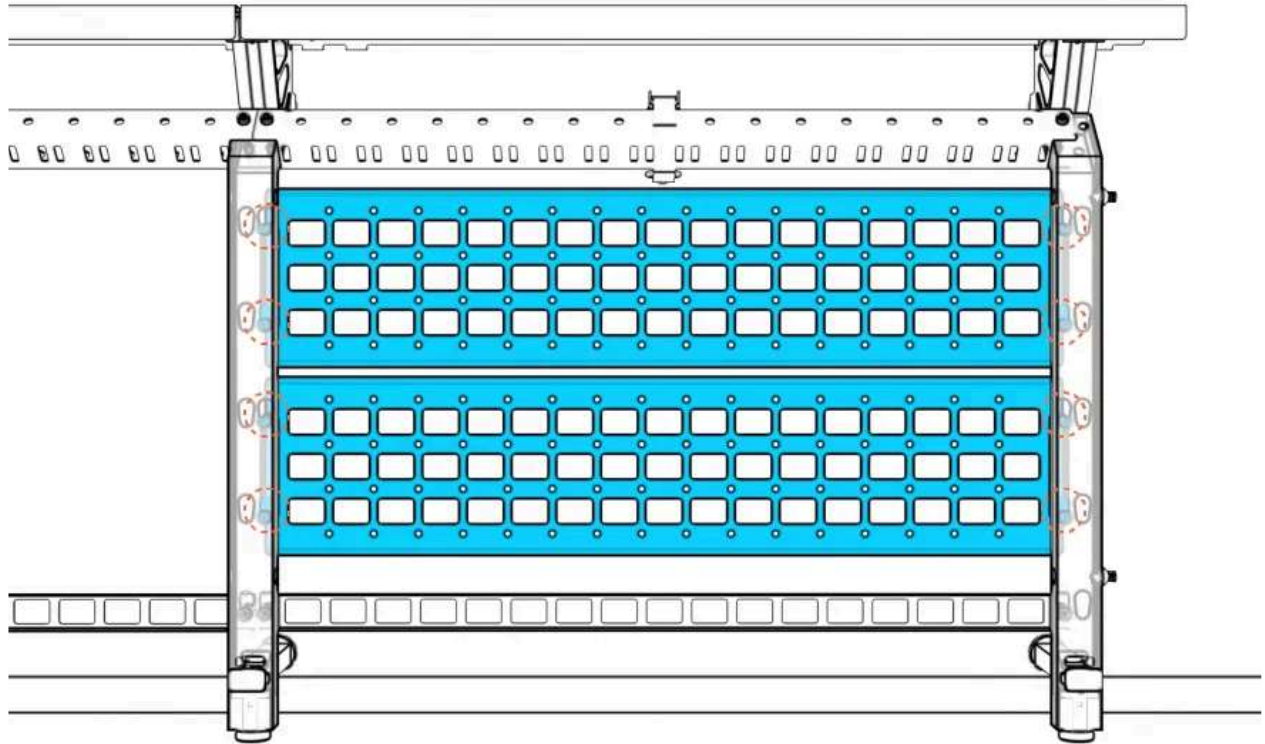

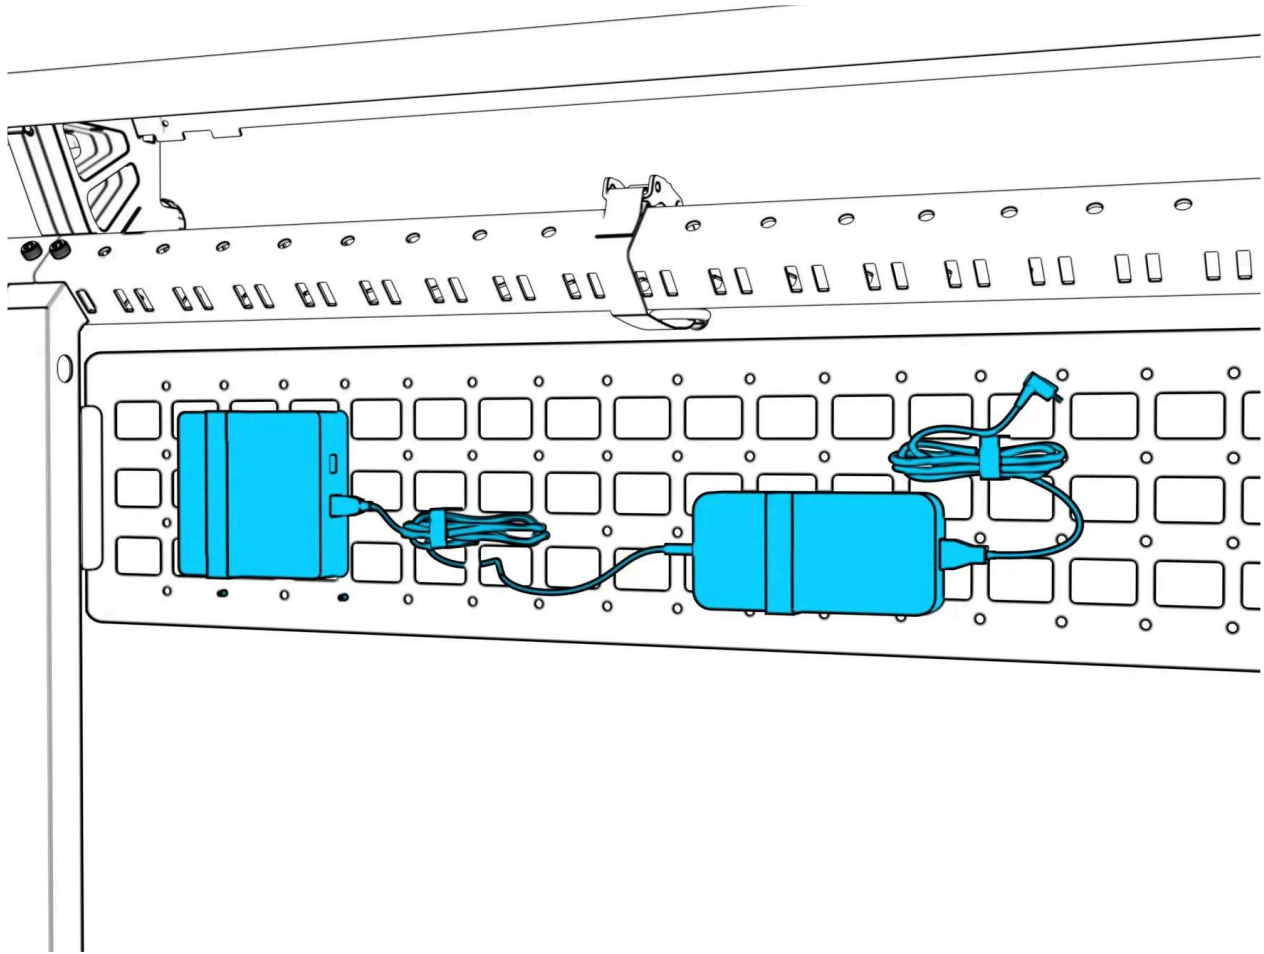

Installing multiple Device Panels on a tall leg

Installing multiple Device Panels on a short leg

Install and organize gear to the grid pattern.

Note: The grid's screw hole pattern is VESA-compatible, allowing you to fasten NUC mounts and other VESA-compatible accessories.
