

Thank you for choosing Angler.

The Angler FB-G4 lets you attach the Godox AD200Pro II with H200J II Bare Bulb Flash Head to your Angler FastBox. This adapter allows you to add the FastBox advantage of light shaping and rapid deployment to your lighting setup while you shoot with the Godox Bare Bulb Flash Head.

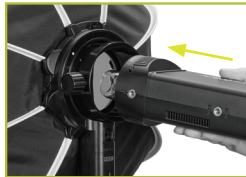

Note: The magnetically attached accessories of the Angler Color Correction Filter Kit for FastBox are not compatible with this adapter.

Attaching the FB-G4 and Flash to the FastBox

Line up the alignment dots. Insert the adapter into the FastBox, and rotate clockwise until it clicks in place.

Insert the Godox Bare Bulb Flash Head into the adapter. Make sure to orient the light so the locking ring is aligned with the FB-G4's notch.

Make sure the flash is fully inserted into the adapter, and tighten the locking thumbscrew until secure.

Removing the Flash

Loosen the locking thumbscrew and carefully remove the flash from the adapter.

Removing the FB-G4 Adapter

Pull down on the release latch, and twist the FB-G4 counterclockwise to remove it from the FastBox.
