

CINEPAL

8" HD Personal Media Player

Ultra portable ALL-IN-ONE solution for videos - photos - music - ebooks

Built-in 4GB Memory & Lithium-ion Battery

Overview:

Watch amazing full HD quality videos on the Aluratek Cinepal Personal Media Player on the spacious 8" High Definition LCD display, with a resolution up to 1280 x 768. This is truly an ALL-IN-ONE solution as you can also view photos, listen to music and read ebooks (txt format). Just about every media format is supported. The Cinepal is equipped with a built-in lithium ion rechargeable battery boasting up to 4 hours of continuous fun making the Cinepal the perfect travel companion for those cross country flights. Along with an impressive 4GB internal memory, there is a card slot for SD / SDHC memory cards (up to 32GB) to expand your memory. Connect an External Hard Drive, or USB Flash Drive to easily transfer your favorite videos, pictures, music & eBook files to the internal memory. Connect your Cinepal to your HD TV (cables included) to view stunning video and audio out at 720p or 1080i standards.
