OF EDUCATION

Oversized Bluetooth Keyboard

Model KB3

Help build early confidence and create opportunities for keyboarding success with this oversized wireless keyboard. Its simplified design makes it an ideal solution for early learners, activities requiring only basic strokes or students with special needs. The extra large color-coded keys help familiarize typists with QWERTY-style layout. The plug and play convenience of the KB3 disables a tablet's on-screen virtual keyboard, enabling students to see the entire display, meeting a key PARCC and Smarter Balanced requirement. It's also aligned to NCSC, EPPA21 and DLM standards.

1. Color-coded function keys for vowels, consonants, numbers and punctuations
 2. Oversized for enhanced accessibility – 90% larger than standard KB1 keyboard
- 2.4Ghz connectivity - just plug and play
 - Warranty for school use - unlike items purchased at consumer electronics stores whose warranties would be voided if used in schools.

“Project Intercept”

Please contact us immediately if you experience any difficulties with your KB3 Keyboard. Our “Project Intercept” customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com.
