### ORDER INFO

Model	Description
KDX-200	Transmitter and Receiver for DVI, KVM, and sound.
KDX-RX200	KDX receiver for DVI, keyboard, mouse and sound.
KDX-TX200	KDX transmitter for DVI, keyboard, mouse and sound.

## Applications

### Sharing:

Enables easy access to one server from remote location. Facilitates data sharing among departments.

### Security:

Safeguards the servers by storing them in a secure and climate controlled environment while still providing access from the production floor.

### Saving:

Saves equipment costs, physical space and utilities expense.

### Productivity:

Increases productivity by facilitating testing and performance evaluation of software and equipment, on multiple servers, from a single keyboard mouse and monitor station.

### Multimedia:

Can be used in multimedia presentations, where the presentation information is broadcasted to various KVM.

Provides remote access of the PC with DVI-D, keyboard, mouse and sound.
