ISO-SUB

Subwoofer Isolation Stabilizer

Thank you for choosing Auray.

The Auray ISO-SUB subwoofer isolation pad improves the sound and resolution of a subwoofer by reducing vibrations and unwanted resonance that can make a subwoofer sound muddy. High-density acoustic foam decouples the speaker from the floor, so low frequencies are clearer and more focused. A sturdy, fabric-covered wooden base and EVA padding further stabilize the speaker and substantially eliminate speaker recoil. This design preserves the accuracy and clarity of your subwoofer and decreases the transmission of vibrations to adjacent rooms or spaces.

Precautions

- Please read and follow these instructions, and keep this manual in a safe place.
- Exposure to high sound levels can cause permanent hearing loss. Avoid listening at high volumes for extended periods of time.
- Clean this product with only a soft, dry cloth.
