

HID-B7

Dash Information Alarm Clock

Stop searching for the latest news, weather, sports scores and social network updates. Dash™ streams playlists of personalized apps, as well as Internet radio and photos, through a vivid 7" touch screen.¹ Connecting to your home wireless network, Dash delivers fresh, up-to-the-minute content, available at a glance.

Stay updated with Free Apps

The 1,000-plus apps available for the Sony® Dash™ delivers the information and entertainment you want – weather, traffic, social networking, music & more – right to your bedroom, kitchen, living room, or office.¹

7" LCD Touch screen

The WVGA 800x480 LCD touch screen displays crystal clear photos and automatically adjusts the display for an upright or tilted orientation.

Easy-to-Use Clock and Alarms

Set up custom alarms, either one-time or recurring; with the option of waking to Internet radio stations,¹ apps or built-in alarm sounds.

Listen to What You Want

Dash™ is a compact audio multi-tool: listen to Internet Radio¹ out loud with the built-in speaker, or privately by using the headphone jack (headphones not included).

Simple PC-Free Setup

Out of the box, Dash™ setup is simple and hassle free, allowing you to connect to the Internet quickly and easily through your home or office wireless network.

Customization

Customizing the Dash™ home screen to fit your own personal needs and style is easy. Simply choose your favorite apps and theme that you want displayed.

Elegant and Space Saving Design

The compact footprint maximizes bedside, desktop, and counter space, and the unique design blends in with any décor.

Online Photo Access and Sharing

For a great photo viewing experience, Dash™ conveniently displays your photos from online services such as Photobucket^{®1}, or you can simply view your photos directly via USB.

USB 2.0 Interface

Access audio or photo content stored on mass storage USB devices by connecting to the USB port.
