

**BBS AREA 48 STUDIO:
HIGH-OUTPUT,
GREAT COLOR**

AREA 48 STUDIO™

WHEN ACCURATE DIMMING IN THE LAST 5% IS A MUST

BBS LIGHTING brings you a major break-through in LED Technology.

The AREA-48 STUDIO represents the next-generation in lighting technology for studio and location work. BBS's new integrated LED technology moves the phosphor away from the LED itself, thereby greatly improving color rendering, consistency, and light output. The system's color rendering accuracy is over 98 TLCI, with HD-friendly soft light output comparable to a 1K traditional soft light. Moreover, the phosphor panels themselves are interchangeable, allowing you to quickly change the fixture from Daylight to Tungsten, to Chroma-Green, all in a matter of seconds.

The Area 48 Studio is ideal for specific applications where smooth and accurate dimming in the last 5% is a must. The first of its kind, this feature is especially useful for sound stages, television studios, classic concert halls, theatres, and motion capture studios.

AREA 48 STUDIO FEATURES

- Chroma Green 525n, 98 TLCI 2700°K , 98 TLCI 3200°K, 98 TLCI 4300°K, 98 TLCI 5600°K, 98 TLCI 6500°K and Chroma Blue Phosphor Panels
- Extremely high light output
- Wide 160° light dispersion (95° w/optional softb)
- Flicker-free dimming from 100%-0
- Silent operation (no fan)
- Internal DMX 512 for remote control
- Special effects strobing mode
- Very compact, versatile unit

AREA 48 STUDIO INCLUDES

- 3200°K or 5600°K High TLCI phosphor panel
- Integrated barn doors
- Angled yoke with 3 1/2" female baby pin TVMP
- Power supply and locking AC power cord

**AREA 48 STUDIO
Specifications**

POWER

Power Supply: 48V
AC Power: 100-240V 50/60Hz
Max Power Consumption: 122W

LED

Premium LED Array - 50,000 hour life

CONTROL

Manual dimming or DMX 512
DMX in/out for daisy-chaining
8/16 bit dimming 100%-0
Up to 4 control channels,
selectable via digital display

DIMENSIONS

W: 356mm / 13.97"
H: 275mm / 10.82"
D: 115mm / 4.53"
Weight: 3.6kg / 7.94 lbs

THERMAL

Ambient Operating Temperature:
0-40°C / 0-104°F

assemble 1X2, 2x2 or 9 Area 48 Lights
in a 8X8 frame with optional Soft Boxes
and Grids

WHEN ACCURATE DIMMING IN THE LAST 5% IS A MUST

ADDITIONAL INFORMATION

Options

- Chroma Green 525n, 98 TLCI 2700°K, 98 TLCI 3200°K, 98 TLCI 4300°K,
- 98 TLCI 5600°K, 98 TLCI Chroma Blue phosphor panels
- Phosphor panel carrying case
- DoPchoice Snapgrid™ and Snapbox softboxes and grids
- 1 light and 2 light canvas cases
- Area 48 Remote Dimmer : fits in the palm of your hand, allows single or multi-fixture 16-bit dimming of Area 48 fixtures smoothly from 100% to blackout, as well as ON/OFF.

Wide 160° to 40° Light Dispersion Pattern

Product Benefits

- Wide spectrum quality soft light with visually accurate color temperature
- Flexible AC or DC power options
- Ultra accurate dimming without color shift even in the last 5%
- Flicker-free performance at any frame rate or shutter angle
- Microprocessor controlled current management for long LED life
- Efficient power management for low power consumption and high reliability
