**THANK YOU  
FOR CHOOSING

The background of the entire image is a solid red color. Overlaid on this background is a repeating pattern of two white icons: a cross and a four-dot pattern (resembling a die face). The icons are arranged in a grid, alternating between the two symbols in a checkerboard fashion. The text 'THANK YOU FOR CHOOSING SPIELTEK.' is centered in the upper portion of the image in a bold, white, sans-serif font.

# ATTACHING THE HEAD STRAP

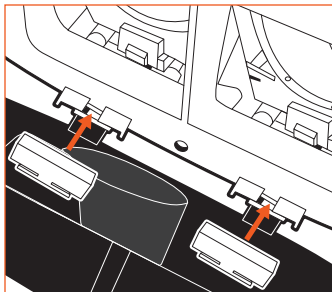

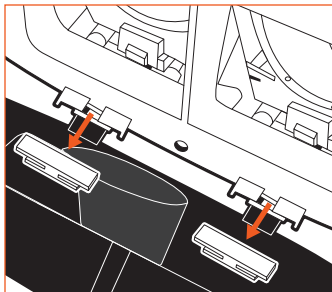

1. Orient the T-strap with the fuzzy side facing out, and fit the three ends through the attachment loops on the sides and top of the headset.
2. Loop the ends over, and press them onto the touch-fastener strips.
3. Continue to adjust the length of the straps until the visor sits comfortably on your face without putting too much pressure on the bridge of your nose.

# INSERTING THE PHONE

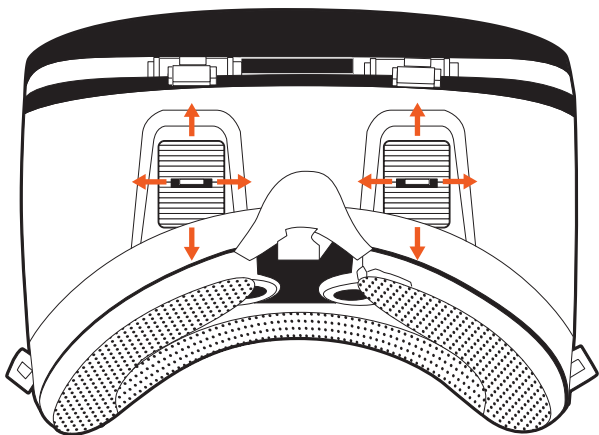

1. Open the visor by pulling the locking tab at the top of the headset.
2. Rest your phone on the two feet inside the visor. For smaller phones, remove the adjustment feet by sliding them off of the mounts, and replace them with the larger feet that are included with the headset.
3. Align the middle of the screen with the center bar inside the headset.
4. Close the visor until it snaps shut.

**Important!** *Be sure the visor is securely closed before proceeding.*

## ADJUSTING THE LENSES

Use the lens adjusters on the bottom of the headset to move each lens forward or back to compensate for near- or farsightedness until the picture is sharp and clear.

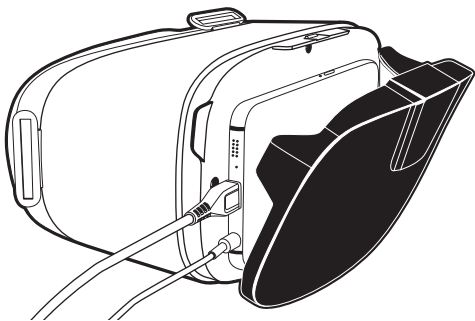

# USING YOUR PHONE WITH THE VR-M1

Insert your phone into the headset, and close the visor.

You can use wired headphones or attach a charging cable while using the headset by extending the cables through the gap between the visor and the headset.

**Important!** *You cannot access the screen while using the VR-M1 headset. To control your phone and camera while using the headset, use a Bluetooth remote like the Spieltek VR-BTR (available separately).*
