

WATSON[®] PRO

C-SPT

Li-ion Battery Charger
with P-tap

Thank you for choosing Watson Pro

Please read this user manual carefully and keep it for reference before using the charger.

SAFETY INSTRUCTIONS

- Do not store, place, or use the charger where it may come into contact with excess heat, water, or moisture.
- High-voltage internal components present the risk of electrical shock.
- Charge only on a vibration-free, dry surface at room temperature.
- Should you ever notice smoke or a strange odor coming out of the charger, immediately unplug the AC adapter from the power outlet. Using the charger under these conditions can cause a fire or electric shock.
- Do not short-circuit the terminals of your battery or charger.
- Do not attempt to disassemble any part of the charger.
- Use this charger with Watson Pro batteries only.
- The charger, adapters, and batteries may feel warm during the charging process. This is normal.
- Remove any battery after it is fully charged.
- Unplug the AC adapter from the power outlet and clean the area around the prongs of the plug when necessary. The presence of dust around the prongs can cause fire.

OPERATING INSTRUCTIONS

- 1 Plug the AC adapter power cord into the AC adapter.
- 2 Plug the power cord into a wall outlet.
- 3 Plug the P-tap connector into the P-tap port of the battery.

LED STATUS

Green	Charger is turned on without any batteries connected. Battery is fully charged.
Red	Battery connected with low or empty power.
Flashing red and green	The charger has detected some problems with the battery. For more information, or to arrange service, visit www.poweredbywatson.com or call Watson Customer Service at 212-594-2120.
