

The Savage Ringlight Beauty Kit is the perfect kit for vloggers, photographers and beauticians! The ringlight presents a soft and even light with a flattering circular catchlight to showcase hair and makeup flawlessly. On both the top and bottom of the inner ring is a shoe mount, which the user can attach multiple accessories including a camera, cell phone and mirror to. Produce seamless makeup applications while filming beauty tutorials by mounting the mirror directly under your camera inside the ringlight, allowing your perspective to remain towards the camera at all times.

Cover a distracting background when photographing or filming by hanging the wrinkle-resistant fabric backdrop up on any wall with the included adhesive hooks.

SET UP LIGHT STAND

1. Place the folded stand vertically with the threaded stud at the top.
2. Twist the bottom lock counterclockwise to loosen.
3. Pull the three legs apart until the feet rotate down towards the floor, and tighten the lock once the legs are at the desired height.
4. To extend each upright section, loosen the designated lock, pull the pole up to the desired height, and tighten the lock to secure it in place.

SET UP LIGHT RINGLIGHT

1. With the stand assembled, place the ringlight adapter on the threaded stud of the stand and tighten knob to secure the ringlight on the stand.
 - If the adapter is not sliding over the pin, make sure the wheel on the adapter has been loosened to allow room for the pin.
2. Plug the power adapter into the light and into an outlet. Turn on the light by twisting the power knob near the bottom of the ringlight clockwise.
 - Continue to twist to increase the brightness. To decrease the brightness or to turn off the ringlight, twist the knob counterclockwise.
3. To adjust the angle of the ringlight, loosen upper knob. Adjust the ringlight to the desired angle, and twist the wheel clockwise to secure it.

ATTACHING ACCESSORIES

- All mountable accessories include an adjustable shoe mount, which can be secured to the UPPER & LOWER mounts on the ring light.
 - Loosen the knob on your desired accessory so it is fully open.
- Slide loosened shoe mount onto either UPPER or LOWER mount inside ring light opening.
 - Fully tighten knob once accessory is secured to ring light.

RECOMMENDED ACCESSORY CONFIGURATIONS

The Savage Ringlight Beauty Kit comes with a number of accessories to customize your lighting options. By utilizing the included shoe mounts on the top and bottom of the ringlight, multiple accessories can be used simultaneously for complete lighting control.

ATTACH DSLR ONLY

- Secure DSLR camera to (D) Ballhead
- Secure (D) Ballhead to shoe mount on light

ATTACH DSLR & MIRROR

- Secure (C) DSLR Bracket to lower shoe mount on light
- Secure (A) Mirror to base shoe mount on (C) DSLR Bracket
- Secure DSLR camera to (D) Ballhead
- Secure (D) Ballhead to top shoe mount on (C) DSLR Bracket

ATTACH CELL PHONE & MIRROR

- Secure (B) Flexible Arm to shoe mount on light
- Secure (A) Mirror to ballhead at base of (B) Flexible Arm
- Secure (E) Phone Holder to top of (B) Flexible Arm
- Expand (E) Phone Holder and insert phone

*Tip: Phone Holder has side & back mounting points for horizontal or vertical use.

ATTACH DIFFUSERS

Kit includes 2 sets of 4 snap-on diffuser light panels.
Clear panels produce 5600K daylight balanced (white) light.
Orange panels produce 3200K (warm) light.

- Select panel that matches the shape of the bottom of light. Line the panel up with the light and press in until it snaps on.
- Repeat with 3 remaining panels (each will snap over or under the adjacent panel).

HANG BACKDROP

- Find a flat, even wall or surface
- Peel adhesive from (F) HOOKS
- Place (F) HOOKS 5' apart
- Hang from corner grommets

*Tip: Use gray side for a neutral background, or green for chroma key applications. Steam backdrop to remove wrinkles.
