AE SELFLY™

» THE STORY

They say that the technology used to guide Apollo 11 to the moon was no more powerful than a mobile phone.

We decided that instead of flying a rocket ship why not tap into the processing power of today's Smartphones and create an autonomous flying camera that can capture your point of view from a different angle?

From there, SELFLY was born!

Everyone likes to take a Selfie, Selfie drones have become a great way to take the perfect one yet none of them fits so comfortably in your pocket, can be always with you, easy to control, affordable yet of such high quality.

SELFLY's patent pending folding mechanism enables it to fold into a 10mm thin pocket dock with chic design, making it the ultimate high-tech camera system.

Small Palm Drone

» FEATURES

Fashionable and Unique Design

- ◆ Light and portable
- ◆ Foldable to 10mm pocket dock

Unique Flying Modes

- ◆ Fly by Joystick/Fly by Picture/Fly by Pod
- ◆ Follow me mode

Safe fly

- ◆ Safe fly with prop guards
- ◆ One touch auto-landing & One touch takeoff
- ◆ Low battery auto-landing

Unique technology

- ◆ Face tracking
- ◆ Gesture control
- ◆ Optical flow positioning
- ◆ One click download & One click sharing

Accessory
Phone Cases
Available

iPhone 6/7 iPhone X iPhone 8Plus Galaxy S8+ Galaxy S8 Galaxy S6/7 Universal case

Selfly allows everyone to take hands-free photos on the go

» TECHNICAL SPECIFICATIONS

Size	141.1mm*70.2mm*10mm	
Weight (Battery included)	68g (including 4g propeller protector)
