

Product Highlights:

- High-speed performance—leverages UHS-II technology (U3) for a read transfer speed up to 150MB/s (1000x)¹
- Captures high-quality images and extended lengths of stunning 1080p full-HD, 3D, and 4K video with a DSLR camera, HD camcorder, or 3D camera
- Large capacity options up to 256GB let you enjoy shooting longer without changing cards
- High-speed file transfer from card to computer to dramatically accelerate workflow²
- Backwards compatible with UHS-I devices
- Limited lifetime warranty

Capacities:

SDHC
32GB

SDXC
64GB
128GB
256GB

The speed you need to capture and transfer high-quality photos and video

Whether you're a professional photographer, videographer, or enthusiast, Lexar® Professional 1000x SDHC™/SDXC™ UHS-II cards make it easy to quickly capture and transfer 1080p full-HD, 3D, and 4K video. The cards leverage UHS-II technology (UHS Speed Class 3 (U3)) to deliver high-speed performance—up to 150MB/s (1000x)¹. This dramatically accelerates workflow from start to finish. For versatility, the cards also work with UHS-I devices at UHS-I speeds, and they're backwards compatible with older cameras and readers, performing at Class 10 speeds when used with non-UHS devices. Cards also come with a limited lifetime warranty.

Shoot high-quality images and 1080p full-HD, 3D, and 4K video. Using a DSLR, HD camcorder or 3D camera, you'll be able to leverage the latest photo and video features available for shooting high-quality images and stunning 1080p full-HD, 3D, and 4K video.

Capture extended lengths of video with high-capacity options. With growing HD, 3D, and 4K video capabilities, you need high-performance cards you can rely on, and high-capacity options to keep you shooting longer without changing cards. The Lexar Professional 1000x SDXC UHS-II card makes that easy by leveraging UHS Speed Class 3 performance and providing you with large capacity options up to 256GB.

Save time with dramatically accelerated workflow. The high-speed performance of Lexar Professional 1000x SDHC/SDXC UHS-II cards dramatically accelerate your workflow from start to finish, so you can save time and get back to the business of photography².

Backwards compatible at the highest UHS-I speeds. For versatility, the cards are also backwards compatible with UHS-I devices, performing up to the maximum thresholds of UHS-I speed capabilities (SDR104). The cards also work with older, non-UHS-I devices, performing at Class 10 speeds.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and solid-state drives. With so many options, it's easy to find the right Lexar solution to fit your needs. Lexar products are available worldwide at major retail and e-tail stores. For more information or support, visit www.lexar.com.

¹ Up to 150MB/s read transfer, write speeds lower. Speeds based on internal testing. Actual performance may vary.

² Highest transfer speeds achieved only when paired with an SD UHS-II reader.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.

Limited lifetime warranty is limited to 10 years from purchase in Germany and regions not recognizing lifetime warranty.
