LIMITATION OF LIABILITY

Circumstances may arise where because of a default on ASUS’ part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product.

ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement.

This limit also applies to ASUS‘ suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY.

About this manual

This manual provides information about the hardware and software features of your Notebook PC, organized through the following chapters:

Chapter 1: Hardware Setup

This chapter details the hardware components of your Notebook PC.

Chapter 2: Using your Notebook PC

This chapter shows you how to use the different parts of your Notebook PC.

Chapter 3: Working with Windows® 10

This chapter provides an overview of using Windows® 10 in your Notebook PC.

Chapter 4: Power-On Self-Test (POST)

This chapter shows you how to use POST to change the settings of your Notebook PC.

Tips and FAQs

This section presents some recommended tips, hardware FAQs, and software FAQs you can refer to for maintaining and fixing common issues with your Notebook PC.

Appendices

This section includes notices and safety statements for your Notebook PC.
Conventions used in this manual

To highlight key information in this manual, some text are presented as follows:

**IMPORTANT!** This message contains vital information that must be followed to complete a task.

**NOTE:** This message contains additional information and tips that can help complete tasks.

**WARNING!** This message contains important information that must be followed to keep you safe while performing tasks and prevent damage to your Notebook PC’s data and components.

Icons

The icons below indicate the devices you can use for completing a series of tasks or procedures on your Notebook PC.

- = Use the touchpad.
- = Use the keyboard.

Typography

**Bold** = This indicates a menu or an item that must be selected.

**Italic** = This indicates sections that you can refer to in this manual.
Safety precautions
Using your Notebook PC

This Notebook PC should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

Refer to the rating label on the bottom of your Notebook PC and ensure that your power adapter complies with this rating.

Your Notebook PC can get warm to hot while in use or while charging the battery pack. Do not leave your Notebook PC on your lap or near any part of your body to prevent injury from heat. When working on your Notebook PC, do not place it on surfaces that can block the vents.

Do not use damaged power cords, accessories, and other peripherals with your Notebook PC.

While powered on, ensure that you do not carry or cover your Notebook PC with any materials that can reduce air circulation.

Do not place your Notebook PC on uneven or unstable work surfaces.

You can send your Notebook PC through x-ray machines (used on items placed on conveyor belts), but do not expose them to magnetic detectors and wands.

Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.
Caring for your Notebook PC

Disconnect the AC power and remove the battery pack (if applicable) before cleaning your Notebook PC. Use a clean cellulose sponge or chamois cloth dampened with a solution of nonabrasive detergent and a few drops of warm water. Remove any extra moisture from your Notebook PC using a dry cloth.

Do not use strong solvents such as thinners, benzene, or other chemicals on or near your Notebook PC.

Do not place objects on top of your Notebook PC.

Do not expose your Notebook PC to strong magnetic or electrical fields.

Do not use or expose your Notebook PC near liquids, rain, or moisture.

Do not expose your Notebook PC to dusty environments.

Do not use your Notebook PC near gas leaks.
Proper disposal

Do not throw your Notebook PC in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

Do not throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.
Chapter 1: Hardware Setup
Getting to know your Notebook PC

Top View

**NOTE:** The keyboard's layout may vary per region or country. The Notebook view may also vary in appearance depending on the Notebook PC model.

Notebook PC E-Manual
1 **Array microphones**

The array microphones feature echo canceling, noise suppression, and beam forming functions for better voice recognition and audio recording.

2 **Camera**

The built-in camera allows you to take pictures or record videos using your Notebook PC.

**IR Camera**

The built-in camera allows you to take pictures or record videos using your Notebook PC. The IR Camera also supports Windows Hello.

---

**NOTE:** The red IR LED blinks in the process while data is being read before you sign in with Windows Hello facial recognition.

3 **Display panel**

This high-definition display panel provides excellent viewing features for photos, videos, and other multimedia files on your Notebook PC.
4 Keyboard
The keyboard provides full-sized QWERTY keys with a comfortable travel depth for typing. It also enables you to use the function keys, allows quick access to Windows®, and controls other multimedia functions.

NOTE: The keyboard layout differs by model or territory.

5 Capital lock indicator
This indicator lights up when the capital lock function is activated. Using capital lock allows you to type capitalized letters (such as A, B, C) using your Notebook PC’s keyboard.

6 Function key lock indicator
This indicator lights up when the function keys feature is activated.

NOTE: For more details, refer to the Using the keyboard section in this manual.
Touchpad/Touch numeric keypad (on selected models)
The touchpad/touch numeric keypad enables you to toggle between touchpad and touch numeric keypad.

The touchpad allows the use of multi-gestures to navigate onscreen, providing an intuitive user experience. It also simulates the functions of a regular mouse.

**NOTE:** For more details, refer to the *Using the touchpad* section in this manual.

The touch numeric keypad allows the use of numeric input.

**NOTE:** For more details, refer to the *Using the numeric keypad* section in this manual.

Screenpad
The screenpad allows you to toggle another screen for the touchpad, providing more adaptive controls.

**NOTE:** For more details, refer to the *Using the keyboard* section in this manual.

Power button
Press the power button to turn your Notebook PC on or off. You can also use the power button to put your Notebook PC to sleep or hibernate mode and wake it up from sleep or hibernate mode.

In the event that your Notebook PC becomes unresponsive, press and hold the power button for at least ten (10) seconds until your Notebook PC shuts down.
9 Power indicator
The power indicator lights up when the Notebook PC is turned on and blinks slowly when the Notebook PC is in sleep mode.

10 Touchpad
The touchpad allows the use of multi-gestures to navigate onscreen, providing an intuitive user experience. It also simulates the functions of a regular mouse.

NOTE: For more details, refer to the Using the touchpad section in this manual.

Screenpad
The screenpad allows you to toggle another screen for the touchpad, providing more adaptive controls.

NOTE: For more details, refer to the Using the keyboard section in this manual.

11 Numeric keypad
The numeric keypad toggles between these two functions: for numeric input and as pointer direction keys.

NOTE: For more details, refer to the Using the numeric keypad section in this manual.
Bottom

NOTE: The bottom side may vary in appearance depending on model.

WARNING! Your Notebook PC can get warm to hot while in use or while charging the battery pack. Do not leave your Notebook PC on your lap or near any part of your body to prevent injury from heat. When working on your Notebook PC, do not place it on surfaces that can block the vents.

IMPORTANT!

• Battery time varies by usage and by the specifications for this Notebook PC. The battery pack cannot be disassembled.

• Purchase components from authorized retailers to ensure maximum compatibility and reliability. Consult an ASUS service center or authorized retailers for product service or assistance on proper disassembly or assembly of the product.

15” model
Air vents

The air vents allow cool air to enter and warm air to exit the Notebook PC.

---

**WARNING!** Ensure that paper, books, clothing, cables, or other objects do not block any of the air vents or else overheating may occur.

---

Audio speakers

The built-in audio speakers allow you to hear audio straight from your Notebook PC. Audio features are software-controlled.

1 Status indicators

The status indicators help identify the current hardware status of your Notebook PC.

Power indicator

The power indicator lights up when the Notebook PC is turned on and blinks slowly when the Notebook PC is in sleep mode.
Two-color battery charge indicator

The two-color LED provides a visual indication of the battery’s charge status. Refer to the following table for details:

<table>
<thead>
<tr>
<th>Color</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid White</td>
<td>The Notebook PC is plugged to a power source and the battery power is between 95% and 100%.</td>
</tr>
<tr>
<td>Solid Orange</td>
<td>The Notebook PC is plugged to a power source, charging its battery, and the battery power is less than 95%.</td>
</tr>
<tr>
<td>Blinking Orange</td>
<td>The Notebook PC is running on battery mode and the battery power is less than 10%.</td>
</tr>
<tr>
<td>Lights off</td>
<td>The Notebook PC is running on battery mode and the battery power is between 10% to 100%.</td>
</tr>
</tbody>
</table>

Headphone/Headset/Microphone jack

This port allows you to connect amplified speakers or headphones. You can also use this port to connect your headset or an external microphone.
USB 2.0 port

The USB (Universal Serial Bus) port is compatible with USB 2.0 or USB 1.1 devices such as keyboards, pointing devices, flash disk drives, external HDDs, speakers, cameras and printers.

MicroSD card slot

This built-in memory card reader slot supports microSD card formats.

Memory card reader

This built-in memory card reader supports SD card formats.

USB 3.1 Gen 2 Type-C™/DisplayPort (on selected models) combo port

The USB 3.1 (Universal Serial Bus 3.1) Gen 2 Type-C™ port provides a transfer rate of up to 10 Gbit/s and is backward compatible to USB 2.0. Use a USB Type-C™ adapter to connect your Notebook PC to an external display.

NOTE: Transfer rate of this port may vary per model.
USB 3.1 Gen 2 port
The USB 3.1 (Universal Serial Bus 3.1) Gen 2 port provides a transfer rate of up to 10 Gbit/s and is backward compatible to USB 2.0.

HDMI port
This port is for the HDMI (High-Definition Multimedia Interface) connector and is HDCP compliant for HD DVD, Blu-ray, and other protected content playback.

Power (DC) input port
Insert the bundled power adapter into this port to charge the battery pack and supply power to your Notebook PC.

WARNING! The adapter may become warm to hot while in use. Do not cover the adapter and keep it away from your body while it is connected to a power source.

IMPORTANT! Use only the bundled power adapter to charge the battery pack and supply power to your Notebook PC.

**WARNING!** The adapter may become warm to hot while in use. Do not cover the adapter and keep it away from your body while it is connected to a power source.

---

**IMPORTANT!** Use only the bundled power adapter to charge the battery pack and supply power to your Notebook PC.

2 **HDMI port**

This port is for the HDMI (High-Definition Multimedia Interface) connector and is HDCP compliant for HD DVD, Blu-ray, and other protected content playback.

3 **USB 3.1 Gen 2 port**

The USB 3.1 (Universal Serial Bus 3.1) Gen 2 port provides a transfer rate of up to 10 Gbit/s and is backward compatible to USB 2.0.
USB 3.1 Gen 2 Type-C™ port
The USB 3.1 (Universal Serial Bus 3.1) Gen 2 Type-C™ port provides a transfer rate of up to 10 Gbit/s and is backward compatible to USB 2.0.

NOTE: Transfer rate of this port may vary per model.

USB 3.1 Gen 1 port
The USB 3.1 (Universal Serial Bus 3.1) Gen 1 port provides a transfer rate of up to 5 Gbit/s and is backward compatible to USB 2.0.

Headphone/Headset/Microphone jack
This port allows you to connect amplified speakers or headphones. You can also use this port to connect your headset or an external microphone.
Chapter 2:
Using your Notebook PC
Getting started

Charge your Notebook PC

A. Connect the DC power connector into your Notebook PC’s power (DC) input port.

B. Plug the AC power adapter into a 100V~240V power source.

Charge the Notebook PC for 3 hours before using it in battery mode for the first time.

NOTE: The power adapter may vary in appearance, depending on models and your region.

IMPORTANT!

Power adapter information:

- Input voltage: 100-240Vac
- Input frequency: 50-60Hz
- Rating output current: 13”/14”: 2.37A (45W) UMA / 3.42A (65W) dGPU
  15”: 3.42A (65W) UMA / 6A (120W) dGPU
- Rating output voltage: 13”/14”: 19V
  15”: 19V / 20V
IMPORTANT!

• Locate the input/output rating label on your Notebook PC and ensure that it matches the input/output rating information on your power adapter. Some Notebook PC models may have multiple rating output currents based on the available SKU.

• Ensure that your Notebook PC is connected to the power adapter before turning it on for the first time. We strongly recommend that you use a grounded wall socket while using your Notebook PC on power adapter mode.

• The socket outlet must be easily accessible and near your Notebook PC.

• To disconnect your Notebook PC from its main power supply, unplug your Notebook PC from the power socket.

WARNING!

Read the following precautions for your Notebook PC’s battery:

• Only ASUS-authorized technicians should remove the battery inside the device (for non-removable battery only).

• The battery used in this device may present a risk of fire or chemical burn if removed or disassembled.

• Follow the warning labels for your personal safety.

• Risk of explosion if battery is replaced by an incorrect type.

• Do not dispose of in fire.

• Never attempt to short-circuit your Notebook PC’s battery.

• Never attempt to disassemble and reassemble the battery (for non-removable battery only).

• Discontinue usage if leakage is found.

• The battery and its components must be recycled or disposed of properly.

• Keep the battery and other small components away from children.
Lift to open the display panel

Press the power button
Using the touchpad

Moving the pointer

You can tap anywhere on the touchpad to activate its pointer, then slide your finger on the touchpad to move the pointer onscreen.

Slide horizontally

Slide vertically

Slide diagonally
One-finger gestures

Tap/Double-tap

- Tap an app to select it.
- Double-tap an app to launch it.

Drag and drop

Double-tap an item, then slide the same finger without lifting it off the touchpad. To drop the item to its new location, lift your finger from the touchpad.
**Left-click**

- Click an app to select it.
- Double-click an app to launch it.

**Right-click**

Click this button to open the right-click menu.

---

**NOTE:** The areas inside the dotted line represent the locations of the left mouse button and the right mouse button on the touchpad.

---

**Two-finger gestures**

**Tap**

Tap two fingers on the touchpad to simulate the right-click function.
**Two-finger scroll (up/down)**
Slide two fingers to scroll up or down.

**Two-finger scroll (left/right)**
Slide two fingers to scroll left or right.

**Zoom out**
Bring together your two fingers on the touchpad.

**Zoom in**
Spread apart your two fingers on the touchpad.
Drag and drop

Select an item then press and hold the left button. Using your other finger, slide on the touchpad to drag the item, lift your finger off the button to drop the item.

Three-finger gestures

Tap

Tap three fingers on the touchpad to invoke Cortana.
**Swipe left/Swipe right**

If you opened multiple apps, swipe three fingers left or right to switch between these apps.

**Swipe up**

**Swipe down**

Swipe up to see an overview of all the apps currently opened.  
Swipe down to show the desktop.
Four-finger gestures

Tap

Tap four fingers on the touchpad to invoke Action Center.

Customizing your touchpad

1. Launch **All settings** from the Action Center.
2. Select **Devices**, then select **Mouse & touchpad**.
3. Adjust the settings to your preference.
Using the keyboard

HotKeys

The HotKeys on your Notebook PC’s keyboard can trigger the following commands:

- $f_1$  
  Turns the speaker on or off

- $f_2$  
  Turns the speaker volume down

- $f_3$  
  Turns the speaker volume up

- $f_4$  
  Decreases display brightness

- $f_5$  
  Increases display brightness

- $f_6$  
  Enables or disables the touchpad/screenpad

- $f_7$  
  Adjusts brightness for the backlit keyboard

- $f_8$  
  Toggles the display mode

**NOTE:** Ensure that the second display is connected to your Notebook PC.
Windows® 10 keys

There are two special Windows® keys on your Notebook PC’s keyboard used as below:

- ![ ] (key) Launches the Start menu
- ![ ] (key) Displays the drop-down menu*

* On selected models

Function keys

Press ![ ] (key) + ![ ] (key) to enable or disable the function keys feature. When the function keys feature is enabled, you can also access HotKeys by holding down ![ ] (key) in combination with the top row keys.
Using the numeric keypad

**NOTE:** The numeric keypad layout may differ by model or territory but the usage procedures remain the same.

**13” and 14” model (on selected models)**

Press 📋 to toggle between number keys or touchpad.

**NOTE:** Press and hold until the number keys appear.
A numeric keypad is available on selected Notebook PC models. You can use this keypad for numeric input or as pointer direction keys.

Press $\text{fn} + \text{num lk}$ to toggle between using the keypad as number keys or as pointer direction keys.
Chapter 3:
Working with Windows® 10
Starting for the first time

When you start your Notebook PC for the first time, a series of screens appear to guide you in configuring your Windows® 10 operating system.

To start your Notebook PC for the first time:

1. Press the power button on your Notebook PC. Wait for a few minutes until the setup screen appears.

2. From the setup screen, pick your region and a language to use on your Notebook PC.

3. Carefully read the License Terms. Select I accept.

4. Follow the onscreen instructions to configure the following basic items:
   - Personalize
   - Get online
   - Settings
   - Your account

5. After configuring the basic items, Windows® 10 proceeds to install your apps and preferred settings. Ensure that your Notebook PC is kept powered on during the setup process.

6. Once the setup process is complete, the Desktop appears.

NOTE: The screenshots in this chapter are for reference only.
Start menu

The Start menu is the main gateway to your Notebook PC’s programs, Windows® apps, folders, and settings.

You can use the Start menu to do these common activities:

- Start programs or Windows® apps
- Open commonly used programs or Windows® apps
- Adjust Notebook PC settings
- Get help with the Windows operating system
- Turn off your Notebook PC
- Log off from Windows or switch to a different user account
Launching the Start menu

Position your mouse pointer over the Start button in the lower-left corner of your desktop then click it.

Press the Windows logo key on your keyboard.

Opening programs from the Start menu

One of the most common uses of the Start menu is opening programs installed on your Notebook PC.

Position your mouse pointer over the program then click to launch it.

Use the arrow keys to browse through the programs.

Press to launch it.

**NOTE:** Select *All apps* at the bottom of the left pane to display a full list of programs and folders on your Notebook PC in alphabetical order.
Windows® apps

These are apps pinned on the right pane of the Start menu and displayed in tiled-format for easy access.

**NOTE:** Some Windows® apps require signing in to your Microsoft account before they are fully launched.
Working with Windows® apps

Use your Notebook PC’s touchpad or keyboard to launch, customize, and close apps.

Launching Windows® apps from the Start menu

Position your mouse pointer over the app then click to launch it.

Use the arrow keys to browse through the apps. Press enter to launch an app.

Customizing Windows® apps

You can move, resize, unpin, or pin apps to the taskbar from the Start menu using the following steps:

Moving apps

Position your mouse pointer over the app, then drag and drop the app to a new location.
**Resizing apps**

Position your mouse pointer over the app and right-click it, then click **Resize** and select an app tile size.

Use the arrow keys to navigate to the app.
Press \[ \text{Esc} \] or \[ fn + ctrl \] (on selected models), then select **Resize** and select an app tile size.

**Unpinning apps**

Position your mouse pointer over the app and right-click it, then click **Unpin from Start**.

Use the arrow keys to navigate to the app.
Press \[ \text{Esc} \] or \[ fn + ctrl \] (on selected models), then select **Unpin from Start**.
Pinning apps to the taskbar

Position your mouse pointer over the app and right-click it, then click **Pin to taskbar**.

Use the arrow keys to navigate to the app.
Press `Esc` or `fn + ctrl` (on selected models), then select **Pin to taskbar**.

Pinning more apps to the Start menu

From **All apps**, position your mouse pointer over the app you want to add to the Start menu and right-click it, then click **Pin to Start**.

From **All apps**, press `Esc` or `fn + ctrl` (on selected models) on the app that you want to add to the Start menu, then select **Pin to Start**.
Task view

Quickly switch between opened apps and programs using the task view feature, you can also use task view to switch between desktops.

Launching task view

Position your mouse pointer over the icon on the taskbar and click it.

Press + on your keyboard.
**Snap feature**

The Snap feature displays apps side-by-side, allowing you to work or switch between apps.

**Snap hotspots**

You can drag and drop apps to these hotspots to snap them into place.
Using Snap

1. Launch the app you wish to snap.

2. Drag the title bar of your app and drop the app to the edge of the screen to snap.

3. Launch another app and repeat the above steps to snap another app.

1. Launch the app you wish to snap.

2. Press and hold the key, then use the arrow keys to snap the app.

3. Launch another app and repeat the above steps to snap another app.
**Action Center**

Action Center consolidates notifications from apps and presents a single place where you can interact with them. It also has a really useful Quick Actions section at the bottom.

![Action Center](image)

**Launching Action Center**

1. Position your mouse pointer over the icon on the taskbar and click it.

2. Press `Ctrl + A` on your keyboard.
Other keyboard shortcuts

Using the keyboard, you can also use the following shortcuts to help you launch applications and navigate Windows® 10.

- Pressing `Windows` Launches **Start menu**
- Pressing `Windows` + `A` Launches **Action Center**
- Pressing `Windows` + `D` Launches the desktop
- Pressing `Windows` + `E` Launches the **File Explorer**
- Pressing `Windows` + `I` Launches **Settings**
- Pressing `Windows` + `K` Launches **Connect** panel
- Pressing `Windows` + `L` Activates the Lock screen
- Pressing `Windows` + `M` Minimizes all currently active windows
Launches **Search**

Launches **Project** panel

Opens the **Run** window

Opens **Ease of Access Center**

Opens the context menu of the Start button

Launches the magnifier icon and zooms in your screen

Zooms out your screen
Connecting to wireless networks

Wi-Fi

Access emails, surf the Internet, and share applications via social networking sites using your Notebook PC’s Wi-Fi connection.

---

**IMPORTANT!** Airplane mode disables this feature. Ensure that Airplane mode is turned off before enabling the Wi-Fi connection of your Notebook PC.

---

**Connecting Wi-Fi**

Connect your Notebook PC to a Wi-Fi network by using the following steps:

1. Select the icon from the taskbar.

2. Select the icon to enable Wi-Fi.

3. Select an access point from the list of available Wi-Fi connections.

4. Select Connect to start the network connection.

**NOTE:** You may be prompted to enter a security key to activate the Wi-Fi connection.
**Bluetooth**

Use Bluetooth to facilitate wireless data transfers with other Bluetooth-enabled devices.

---

**IMPORTANT!** *Airplane mode* disables this feature. Ensure that *Airplane mode* is turned off before enabling the Bluetooth connection of your Notebook PC.

---

**Pairing with other Bluetooth-enabled devices**

You need to pair your Notebook PC with other Bluetooth-enabled devices to enable data transfers. Connect your devices by using the following steps:

1. Launch **Settings** from the Start menu.
2. Select **Devices**, then select **Bluetooth** to search for Bluetooth-enabled devices.
3. Select a device from the list. Compare the passcode on your Notebook PC with the passcode sent to your chosen device. If they are the same, select **Yes** to successfully pair your Notebook PC with the device.

**NOTE:** For some Bluetooth-enabled devices, you may be prompted to key in the passcode of your Notebook PC.
Airplane mode

Airplane mode disables wireless communication, allowing you to use your Notebook PC safely while in-flight.

NOTE: Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.

Turning Airplane mode on

1. Launch Action Center from the taskbar.
2. Select the icon to enable Airplane mode.

Turning Airplane mode off

1. Launch Action Center from the taskbar.
2. Select the icon to disable Airplane mode.
Turning your Notebook PC off

You can turn off your Notebook PC by doing either of the following procedures:

• Launch the Start menu, then select $\text{Power} > \text{Shut down}$ to do a normal shutdown.

• From the log-in screen, select $\text{Shut down}$.

• Press $\text{fn} + \text{alt} + \text{del}$ to launch Shut down Windows. Select $\text{Shut down}$ from the drop-down list then select $\text{OK}$.

• If your Notebook PC is unresponsive, press and hold the power button for at least ten (10) seconds until your Notebook PC turns off.
Putting your Notebook PC to sleep

To put your Notebook PC to Sleep mode:

1. Launch the Start menu, then select \[\text{Power} \rightarrow \text{Sleep}\] to put your Notebook PC to sleep.

2. From the log-in screen, select \[\text{Power} \rightarrow \text{Sleep}\].

Press \[fn + alt + esc\] to launch Shut down Windows. Select \textbf{Sleep} from the drop-down list then select \textbf{OK}.

\textbf{NOTE:} You can also put your Notebook PC to Sleep mode by pressing the power button once.
Chapter 4: Power-On Self-Test (POST)
The Power-On Self-Test (POST)

The POST (Power-On Self-Test) is a series of software-controlled diagnostic tests that run when you turn on or restart your Notebook PC. The software that controls the POST is installed as a permanent part of the Notebook PC’s architecture.

Using POST to access BIOS and Troubleshoot

During POST, you can access the BIOS settings or run troubleshooting options using the function keys of your Notebook PC. You may refer to the following information for more details.

BIOS

The BIOS (Basic Input and Output System) stores system hardware settings that are needed for system startup in the Notebook PC.

The default BIOS settings apply to most conditions of your Notebook PC. Do not change the default BIOS settings except in the following circumstances:

• An error message appears onscreen during system bootup and requests you to run the BIOS Setup.

• You have installed a new system component that requires further BIOS settings or updates.

WARNING! Using inappropriate BIOS settings may result to system instability or boot failure. We strongly recommend that you change the BIOS settings only with the help of a trained service personnel.
Accessing BIOS

Enter the BIOS settings by using any of the following methods:

- Restart your Notebook PC then press 📱 during POST.

- Launch the Start menu, and choose Settings > Update & security > Recovery, then select Restart now under Advanced startup. When you enter the Advanced startup screen, select Troubleshoot > Advanced options > UEFI Firmware Settings > Restart.
BIOS Settings

NOTE: The BIOS screens in this section are for reference only. The actual screens may differ by model and territory.

Boot

This menu allows you to set your boot option priorities. You may refer to the following procedures when setting your boot priority.

1. On the Boot screen, select Boot Option #1.

```
Aptio Setup Utility - Copyright (C) 2018 American Megatrends, Inc.
Main   Advanced   Boot   Security   Save & Exit

Fast Boot   [Enabled]

Boot Option Priorities
Boot Option #1   [Windows Boot Manager]

Add New Boot Option
Delete Boot Option

Sets the system boot order

--- : Select Screen
↑↓ : Select Item
Enter: Select
+/- : Change Opt.
F1 : General Help
F9 : Optimized Defaults
F10 : Save & Exit
ESC : Exit

Version 2.20.1271. Copyright (C) 2018 American Megatrends, Inc.
```
2. Press `enter` and select a device as the **Boot Option #1**.
Security

This menu allows you to set up the administrator and user password of your Notebook PC. It also allows you to control the access to your Notebook PC’s hard disk drive, input/output (I/O) interface, and USB interface.

NOTE:

- If you install a **User Password**, you will be prompted to input this before entering your Notebook PC’s operating system.
- If you install an **Administrator Password**, you will be prompted to input this before entering BIOS.

---

Password Description

If ONLY the Administrator’s password is set, then this only limits access to Setup and is only asked for when entering Setup. If ONLY the User’s password is set, then this is a power on password and must be entered to boot or enter Setup. In Setup, the User will have Administrator rights.

Administrator Password Status: NOT INSTALLED
User Password Status: NOT INSTALLED
Administrator Password
User Password

I/O Interface Security

Secure Boot

---

Set Administrator Password. The password length must be in the following range:
Minimum length 3
Maximum length 20
Must type with character: a-z, 0-9

---

← : Select Screen
↑↓ : Select Item
Enter: Select
F1 : General Help
F9 : Optimized Defaults
F10 : Save & Exit
ESC : Exit

Version 2.20.1271. Copyright (C) 2018 American Megatrends, Inc.
To set the password:

1. On the **Security** screen, select **Administrator Password** or **User Password**.

2. Type in a password then press enter.

3. Re-type to confirm the password then press enter.

To clear the password:

1. On the **Security** screen, select **Administrator Password** or **User Password**.

2. Type in the current password then press enter.

3. Leave the **Create New Password** field blank then press enter.

4. Select **Yes** in the confirmation box then press enter.
I/O Interface Security

In the Security menu, you can access I/O Interface Security to lock or unlock some interface functions of your Notebook PC.

To lock an interface:

2. Select an interface you would like to lock then press enter.

3. Select Lock.
**USB Interface Security**

Through the I/O Interface Security menu, you can also access USB Interface Security to lock or unlock ports and devices.

To lock the USB interface:

1. **On the Security screen, select I/O Interface Security > USB Interface Security.**

2. **Select an interface that you would like to lock then select Lock.**

**NOTE:** Setting the USB Interface to **Lock** also locks and hides the External Ports and other devices included under **USB Interface Security**.
**Save & Exit**

To keep your configuration settings, select **Save Changes and Exit** before exiting the BIOS.

**ESC** : Exit
To update the BIOS:

1. Verify the Notebook PC’s exact model then download the latest BIOS file for your model from the ASUS website.

2. Save a copy of the downloaded BIOS file to a flash disk drive.

3. Connect your flash disk drive to your Notebook PC.

4. Restart your Notebook PC then press during POST.

5. From the BIOS menu, select **Advanced > ASUS EZ Flash 3 Utility**, then press enter.
6. Locate your downloaded BIOS file in the flash disk drive then press enter.

7. After the BIOS update process, select **Save & Exit > Restore Defaults** to restore the system to its default settings.
Recovering your system

Using recovery options on your Notebook PC allows you to restore the system to its original state or simply refresh its settings to help improve performance.

IMPORTANT!

• Backup all your data files before doing any recovery option on your Notebook PC.

• Note down important customized settings such as network settings, user names, and passwords to avoid data loss.

• Ensure that your Notebook PC is plugged in to a power source before resetting your system.

Windows® 10 allows you to do any of the following recovery options:

• **Keep my files** - This option allows you refresh your Notebook PC without affecting personal files (photos, music, videos, documents).

  Using this option, you can restore your Notebook PC to its default settings and delete other installed apps.

• **Remove everything** - This option resets your Notebook PC to its factory settings. You must backup your data before doing this option.
• **Go back to an earlier build** - This option allows you to go back to an earlier build. Use this option if this build is not working for you.

• **Advanced startup** - Using this option allows you to perform other advanced recovery options on your Notebook PC such as:
  
  - Using a USB drive, network connection or Windows recovery DVD to startup your Notebook PC.
  
  - Using **Troubleshoot** to enable any of these advanced recovery options: System Restore, System Image Recovery, Startup Repair, Command Prompt, UEFI Firmware Settings, and Startup Settings.

**Performing a recovery option**

Refer to the following steps if you want to access and use any of the available recovery options for your Notebook PC.

1. Launch **Settings** and select **Update and security**.
2. Under the **Update and security** option, select **Recovery** then select the recovery option you would like to perform.
Tips and FAQs
Useful tips for your Notebook PC

To help you maximize the use of your Notebook PC, maintain its system performance, and ensure all your data are kept secured, here are some useful tips that you can follow:

- Update Windows® periodically to ensure that your applications have the latest security settings.
- Use an anti-virus software to protect your data and keep this updated too.
- Unless absolutely necessary, refrain from using force shutdown to turn off your Notebook PC.
- Always backup your data and make it a point to create a backup data in an external storage drive.
- Refrain from using the Notebook PC at extremely high temperatures. If you are not going to use your Notebook PC for a long period of time (at least a month), we recommend that you take out the battery if the battery is removable.
- Disconnect all external devices and ensure you have the following items prior to resetting your Notebook PC:
  - Product key for your operating systems and other installed applications
  - Backup data
  - Log in ID and password
  - Internet connection information
Hardware FAQs

1. A black dot, or sometimes a colored dot, appears onscreen when I turn on the Notebook PC. What should I do?
   Although these dots normally appear onscreen, they will not affect your system. If the incident continues and subsequently affects system performance, consult an authorized ASUS service center.

2. My display panel has an uneven color and brightness. How can I fix this?
   The color and brightness of your display panel may be affected by the angle and current position of your Notebook PC. The brightness and color tone of your Notebook PC may also vary per model. You may use the function keys or the display settings in your operating system to adjust the appearance of your display panel.

3. How can I maximize my Notebook PC’s battery life?
   You can try doing any of the following suggestions:
   
   • Use the function keys to adjust the display brightness.
   • If you are not using any Wi-Fi connection, switch your system into Airplane mode.
   • Disconnect unused USB devices.
   • Close unused applications, especially those that take up too much system memory.
4. **My battery charge indicator does not light up. What’s wrong?**
   
   • Check whether the power adapter or battery pack is attached correctly. You may also disconnect the power adapter or battery pack, wait for a minute, then reconnect them again to the power outlet and Notebook PC.
   
   • If the problem still exists, contact your local ASUS service center for assistance.

5. **Why is my touchpad not working?**
   
   Press to enable your touchpad.

6. **When I play audio and video files, why can’t I hear any sound from my Notebook PC’s audio speakers?**
   
   You can try doing any of the following suggestions:
   
   • Press to turn up the speaker volume.
   
   • Check if your speakers were set to mute.
   
   • Check if a headphone jack is connected to your Notebook PC and remove it.

7. **What should I do if my Notebook PC’s power adapter gets lost or my battery stops working?**
   
   Contact your local ASUS service center for assistance.
8. My Notebook PC cannot do keystrokes correctly because my cursor keeps on moving. What should I do?

Make sure that nothing accidentally touches or presses on your touchpad while you type on the keyboard. You can also disable your touchpad by pressing 

[button] .
Software FAQs

1. **When I turn on my Notebook PC, the power indicator lights up but nothing appears on my screen. What can I do to fix this?**

You can try doing any of the following suggestions:

- Force shutdown your Notebook PC by pressing the power button for at least ten (10) seconds. Check if the power adapter and battery pack are inserted correctly then turn on your Notebook PC.

- If the problem still exists, contact your local ASUS service center for assistance.

2. **What should I do when my screen displays this message: “Remove disks or other media. Press any key to restart.”?**

You can try doing any of the following suggestions:

- Remove all connected USB devices then restart your Notebook PC.

- Remove any optical discs that are left inside the optical drive then restart.

- If the problem still exists, your Notebook PC might have a memory storage problem. Contact your local ASUS service center for assistance.

3. **My Notebook PC boots slower than usual and my operating system lags. How can I fix this?**

Delete the applications you recently installed or were not included with your operating system package then restart your system.
4. **My Notebook PC does not boot up. How can I fix this?**

You can try doing any of the following suggestions:

- Remove all connected devices to your Notebook PC then restart your system.
- If the problem still exists, contact your local ASUS service center for assistance.

5. **Why can’t my Notebook PC wake up from sleep mode?**

- You need to press the power button to resume your last working state.
- Your system might have completely used up its battery power. Connect the power adapter to your Notebook PC and connect to a power outlet then press the power button.
Appendices
Internal Modem Compliancy

The Notebook PC with internal modem model complies with JATE (Japan), FCC (US, Canada, Korea, Taiwan), and CTR21. The internal modem has been approved in accordance with Council Decision 98/482/EC for pan-European single terminal connection to the public switched telephone network (PSTN). However due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network termination point. In the event of problems you should contact your equipment supplier in the first instance.

Overview

On 4th August 1998 the European Council Decision regarding the CTR 21 has been published in the Official Journal of the EC. The CTR 21 applies to all non voice terminal equipment with DTMF-dialling which is intended to be connected to the analogue PSTN (Public Switched Telephone Network).

CTR 21 (Common Technical Regulation) for the attachment requirements for connection to the analogue public switched telephone networks of terminal equipment (excluding terminal equipment supporting the voice telephony justified case service) in which network addressing, if provided, is by means of dual tone multi-frequency signalling.
Network Compatibility Declaration

Statement to be made by the manufacturer to the Notified Body and the vendor: “This declaration will indicate the networks with which the equipment is designed to work and any notified networks with which the equipment may have inter-working difficulties.”

Statement to be made by the manufacturer to the user: “This declaration will indicate the networks with which the equipment is designed to work and any notified networks with which the equipment may have inter-working difficulties. The manufacturer shall also associate a statement to make it clear where network compatibility is dependent on physical and software switch settings. It will also advise the user to contact the vendor if it is desired to use the equipment on another network.”

Up to now the Notified Body of CETECOM issued several pan-European approvals using CTR 21. The results are Europe’s first modems which do not require regulatory approvals in each individual European country.

Non-Voice Equipment

Answering machines and loud-speaking telephones can be eligible as well as modems, fax machines, auto-dialers and alarm systems. Equipment in which the end-to-end quality of speech is controlled by regulations (e.g. handset telephones and in some countries also cordless telephones) is excluded.
This table shows the countries currently under the CTR21 standard.

1 National requirements will apply only if the equipment may use pulse dialling (manufacturers may state in the user guide that the equipment is only intended to support DTMF signalling, which would make any additional testing superfluous).

In The Netherlands additional testing is required for series connection and caller ID facilities.

**Federal Communications Commission Interference Statement**

This device complies with FCC Rules Part 15. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

WARNING! The use of a shielded-type power cord is required in order to meet FCC emission limits and to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord be used. Use only shielded cables to connect I/O devices to this equipment. You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

FCC Radio Frequency (RF) Exposure Caution Statement

WARNING! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with FCC RF exposure compliance requirements, please avoid direct contact to the transmitting antenna during transmitting. End users must follow the specific operating instructions for satisfying RF exposure compliance.
RF Exposure Information (SAR)

This device meets the government’s requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands.

Coating Notice

IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located.
Compliance Statement of Innovation, Science and Economic Development Canada (ISED)

This device complies with *Innovation, Science and Economic Development Canada* license exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

*CAN ICES-3(B)/NMB-3(B)*

Déclaration de conformité de Innovation, Sciences et Développement économique Canada (ISED)

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

La bande 5150-5250 MHz est réservée uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

*CAN ICES-3(B)/NMB-3(B)*
Caution

(i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

(ii) for devices with detachable antenna(s), the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall be such that the equipment still complies with the e.i.r.p. limit;

(iii) for devices with detachable antenna(s), the maximum antenna gain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits as appropriate; and

(iv) where applicable, antenna type(s), antenna model(s), and worst-case tilt angle(s) necessary to remain compliant with the e.i.r.p. elevation mask requirement set forth in section 6.2.2.3 shall be clearly indicated.

Mise en garde

(i) Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement à une utilisation en intérieur afin de réduire les risques d'interférence préjudiciables aux systèmes de satellites mobiles utilisant les mêmes canaux;

(ii) pour les dispositifs avec antenne(s) détachable(s), le gain d'antenne maximal autorisé pour les dispositifs des bandes 5250-5350 MHz et 5470-5725 MHz doit être tel que l'équipement respecte encore les normes e.i.r.p. limite;

(iii) pour les dispositifs avec antenne(s) détachable(s), le gain d'antenne maximal autorisé pour les dispositifs dans la bande 5725-5850 MHz doit être tel que l'équipement soit toujours conforme à la norme e.i.r.p. limites, le cas échéant; et

(iv) le cas échéant, type(s) d'antenne, modèle(s) d'antenne et angle(s) d'inclinaison dans le cas le plus défavorable nécessaire pour rester conforme à l'e.i.r.p. L'exigence de masque d'altitude énoncée à la section 6.2.2.3 doit être clairement indiquée.
Radio Frequency (RF) Exposure Information

The radiated output power of the Wireless Device is below the Innovation, Science and Economic Development Canada (ISED) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized.

This device has been evaluated for and shown compliant with the ISED Specific Absorption Rate ("SAR") limits when operated in portable exposure conditions.

Informations concernant l'exposition aux fréquences radio (RF)

La puissance de sortie rayonnée du dispositif sans fil est inférieure aux limites d’exposition aux radiofréquences d’Innovation, Sciences et Développement économique Canada (ISED). Le dispositif sans fil doit être utilisé de manière à minimiser le potentiel de contact humain pendant le fonctionnement normal.

Cet appareil a été évalué et montré conforme aux limites de DAS (Débit d’Absorption Spécifique) de l’ISED lorsqu’il est utilisé dans des conditions d’exposition portables.
Radiation Exposure Statement

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration relative à l’exposition aux radiations

Le produit est conforme aux limites d’exposition pour les appareils portables RF pour les États-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour une utilisation telle que décrite dans ce manuel. Le niveau d’exposition aux ondes radio peut être réduit en plaçant l’appareil aussi loin que possible du corps de l’utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
UL Safety Notices

Required for UL 1459 covering telecommunications (telephone) equipment intended to be electrically connected to a telecommunication network that has an operating voltage to ground that does not exceed 200V peak, 300V peak-to-peak, and 105V rms, and installed or used in accordance with the National Electrical Code (NFPA 70).

When using the Notebook PC modem, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- DO NOT use the Notebook PC near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.
- DO NOT use the Notebook PC during an electrical storm. There may be a remote risk of electric shock from lightning.
- DO NOT use the Notebook PC in the vicinity of a gas leak.

Required for UL 1642 covering primary (non-rechargeable) and secondary (rechargeable) lithium batteries for use as power sources in products. These batteries contain metallic lithium, or a lithium alloy, or a lithium ion, and may consist of a single electrochemical cell or two or more cells connected in series, parallel, or both, that convert chemical energy into electrical energy by an irreversible or reversible chemical reaction.

- DO NOT dispose the Notebook PC battery pack in a fire, as they may explode. Check with local codes for possible special disposal instructions to reduce the risk of injury to persons due to fire or explosion.
- DO NOT use power adapters or batteries from other devices to reduce the risk of injury to persons due to fire or explosion. Use only UL certified power adapters or batteries supplied by the manufacturer or authorized retailers.
Power Safety Requirement

Products with electrical current ratings up to 6A and weighing more than 3Kg must use approved power cords greater than or equal to: H05VV-F, 3G, 0.75mm² or H05VV-F, 2G, 0.75mm².

TV Notices

Note to CATV System Installer—Cable distribution system should be grounded (earthed) in accordance with ANSI/NFPA 70, the National Electrical Code (NEC), in particular Section 820.93, Grounding of Outer Conductive Shield of a Coaxial Cable – installation should include bonding the screen of the coaxial cable to the earth at the building entrance.

Macrovision Corporation Product Notice

This product incorporates copyright protection technology that is protected by method claims of certain U.S.A. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

Prevention of Hearing Loss

To prevent possible hearing damage, do not listen at high volume levels for long periods.
Nordic Lithium Cautions (for lithium-ion batteries)

CAUTION! Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer’s instructions. (English)

ATTENZIONE! Rischio di esplosione della batteria se sostituita in modo errato. Sostituire la batteria con un una di tipo uguale o equivalente consigliata dalla fabbrica. Non disperdere le batterie nell’ambiente. (Italian)

VORSICHT! Explosionsgefahr bei unsachgemäßen Austausch der Batterie. Ersatz nur durch denselben oder einem vom Hersteller empfohlenen ähnlichen Typ. Entsorgung gebrauchter Batterien nach Angaben des Herstellers. (German)

ADVARSEL! Lithiumbatteri - Eksplosionsfare ved feilaktig håndtering. Udskiftning må kun ske med batteri af samme fabrikat og type. Levér det brugte batteri tilbage til leverandøren. (Danish)

VAROITUS! Paristo voi räjähtää, jos se on virheellisesti asennettu. Vaihda paristo ainoastaan laitevalmistajan sousittelemaan tyypin. Hävitä käytetty paristo valmistajan ohjeiden mukaisesti. (Finnish)

ATTENTION! Danger d’explosion si la batterie n’est pas correctement remplacée. Remplacer uniquement avec une batterie de type semblable ou équivalent, recommandée par le fabricant. Jeter les batteries usagées conformément aux instructions du fabricant. (French)

ADVARSEL! Eksplosjonsfare ved feilaktig skifte av batteri. Benytt samme batteritype eller en tilsvarende type anbefalt av apparatfabrikanten. Brukte batterier kasseres i henhold til fabrikantens instruksjoner. (Norwegian)

標準品以外の使用は、危険の元になります。交換品を使用する場合、製造者に指定されるものを使って下さい。製造者の指示に従って処理して下さい。 (Japanese)

ВНИМАНИЕ! При замене аккумулятора на аккумулятор иного типа возможно его возгорание. Утилизируйте аккумулятор в соответствии с инструкциями производителя. (Russian)
CTR 21 Approval (for Notebook PC with built-in Modem)

Danish

"Udstyret er i henhold til Rådets beslutning 98/482/EF EU-godkendt til at blive opkoblet på de offentlige telefonnet som enkeltforbundet terminal. På grund af forskelle mellem de offentlige telefonnet i de forskellige lande giver godkendelsen dog ikke i sig selv ubetinget garanti for, at udstyret kan fungere korrekt på samtlige nettermineringspunkter på de offentlige telefonnet.

I tilfælde af problemer bør De i første omgang henvende Dem til leverandøren af udstyret."

Dutch

"Dit apparaat is goedgekeurd volgens Beschikking 98/482/EG van de Raad voor de pan-Europese aansluiting van enkelvoudige eindapparatuur op het openbare geschakelde telefoonnetwerk (PSTN). Gezien de verschillen tussen de individuele PSTN’s in de verschillende landen, biedt deze goedkeuring op zichzelf geen onvoorwaardelijke garantie voor een succesvolle werking op elk PSTN-netwerkkaansluitpunt.

Neem bij problemen in eerste instantie contact op met de leverancier van het apparaat.".

English

‘The equipment has been approved in accordance with Council Decision 98/482/EC for pan-European single terminal connection to the public switched telephone network (PSTN). However, due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network termination point.

In the event of problems, you should contact your equipment supplier in the first instance.’

Finnish

"Tämä laite on hyväksytty neuvoston päätöksen 98/482/EY mukaisesti liitettäväksi yksittäisenä laitteena yleiseen kytkentäiseen puhelinverkkoon (PSTN) EU:n jäsenvaltioissa. Eri maiden yleisten kytkentäisten puhelinverkköjen välillä on kuitenkin eroja, joten hyväksyntä ei sellaisenaan takaa häiriöötöntä toimintaa kaikkien yleisten kytkentäisten puhelinverkköjen liityntäpisteissä.

Ongelmien ilmetessä ottakaa viipymättä yhteyttä laitteen toimittajaan.”

French

"Cet équipement a reçu l’agrément, conformément à la décision 98/482/CE du Conseil, concernant la connexion paneuropéenne de terminal unique aux réseaux téléphoniques publics commutés (RTPC). Toutefois, comme il existe des différences d’un pays à l’autre entre les RTPC, l’agrément en soi ne constitue pas une garantie absolue de fonctionnement optimal à chaque point de terminaison du réseau RTPC.

En cas de problème, vous devez contacter en premier lieu votre fournisseur."
German

Falls beim Betrieb Probleme auftreten, sollten Sie sich zunächst an ihren Fachhändler wenden.“

Greek

«Ο εξοπλισμός έχει εγκριθεί για πανευρωπαϊκή σύνδεση μεταξύ τηλεφωνικών δίκτυων τηλεφωνικού δίκτυου μεταγωγής (PSTN), σύμφωνα με την απόφαση 98/482/ΕΚ του Συμβουλίου. Επιπλέον, επιτρέπει την παροχή επικοινωνιών μεταξύ των διάφορων δίκτυων PSTN που καταλήγουν σε διάφορες χώρες. Η έγκριση δεν παρέχει ωστόσο ισχύ σε κάθε ενιαίη ανεπαφή εξαρτημένη επικοινωνίας και εποπτείας στα κάθε σημεία αποθήκης του δικτύου PSTN.

Εάν ανακύψουν προβλήματα, δεν πρέπει κατ’ αρχάς να απευθύνεστε στον προμηθέα του εξοπλισμού σας.»

Italian

«La presente apparecchiatura terminale è stata approvata in conformità della decisione 98/482/CE del Consiglio per la connessione paneuropea come terminale singolo ad una rete analogica PSTN. A causa delle differenze tra le reti dei diversi paesi, l'approvazione non garantisce però di per sé il funzionamento corretto in tutti i punti di terminazione di rete PSTN.

In caso di problemi contattare in primo luogo il fornitore del prodotto.»

Portuguese

«Este equipamento foi aprovado para ligação pan-europeia de um único terminal à rede telefónica pública comutada (RTPC) nos termos da Decisão 98/482/CE. No entanto, devido às diferenças existentes entre as RTPC dos diversos países, a aprovação não garante incondicionalmente, por si só, um funcionamento correto em todos os pontos terminais da rede da RTPC.

Em caso de problemas, deve entrar-se em contacto, em primeiro lugar, com o fornecedor do equipamento.»

Spanish

«Este equipo ha sido homologado de conformidad con la Decisión 98/482/CE del Consejo para la conexión paneuropea de un terminal simple a la red telefónica pública conmutada (RTPC). No obstante, a la vista de las diferencias que existen entre las RTPC que se ofrecen en diferentes países, la homologación no constituye por sí sola una garantía incondicional de funcionamiento satisfactorio en todos los puntos de terminación de la red de una RTPC.

En caso de surgir algún problema, procede ponerse en contacto en primer lugar con el proveedor del equipo.»

Swedish

"Utrustningen har godkänts i enlighet med rådets beslut 98/482/EG för alleuropeisk anslutning som enskild terminal till det allmänt tillgängliga kopplade telenätet (PSTN). På grund av de skillnader som finns mellan telenätet i olika länder utgör godkännandet emellertid inte i sig själv en absolut garanti för att utrustningen kommer att fungera tillfredsställande vid varje telenätanslutningspunkt.

Om problem uppstår bör ni i första hand kontakta leverantören av utrustningen.”
Declaration of Compliance for Product Environmental Regulation

ASUS follows the green design concept to design and manufacture our products, and makes sure that each stage of the product life cycle of ASUS product is in line with global environmental regulations. In addition, ASUS disclose the relevant information based on regulation requirements.

Please refer to http://csr.asus.com/Compliance.htm for information disclosure based on regulation requirements ASUS is complied with.

EU REACH and Article 33

Complying with the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulatory framework, we publish the chemical substances in our products at ASUS REACH website at http://csr.asus.com/english/REACH.htm.

EU RoHS

This product complies with the EU RoHS Directive. For more details, see http://csr.asus.com/english/article.aspx?id=35.

Japan JIS-C-0950 Material Declarations

Information on Japan RoHS (JIS-C-0950) chemical disclosures is available on http://csr.asus.com/english/article.aspx?id=19.

India RoHS

This product complies with the “India E-Waste (Management) Rules, 2016” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls (PBBs) and polybrominated diphenyl ethers (PBDEs) in concentrations exceeding 0.1% by weight in homogenous materials and 0.01% by weight in homogenous materials for cadmium, except for the exemptions listed in Schedule II of the Rule.
ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials.

Please go to http://csr.asus.com/english/Takeback.htm for detailed recycling information in different regions.

Rechargeable Battery Recycling Service in North America

For US and Canada customers, you can call 1-800-822-8837 (toll-free) for recycling information of your ASUS products’ rechargeable batteries.

Ecodesign Directive

ENERGY STAR Qualified Product

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

All ASUS products with the ENERGY STAR logo comply with the ENERGY STAR standard, and the power management feature is enabled by default. The monitor is automatically set to sleep within 10 minutes of user inactivity; the computer is automatically set to sleep within 30 minutes of user inactivity. To wake your computer, click the mouse, press any key on the keyboard, or press the power button.

Please visit [http://www.energystar.gov/powermanagement](http://www.energystar.gov/powermanagement) for detail information on power management and its benefits to the environment. In addition, please visit [http://www.energystar.gov](http://www.energystar.gov) for detail information on the ENERGY STAR joint program.

---

**NOTE:** Energy Star is NOT supported on FreeDOS and Linux-based operating systems.

EPEAT Registered Products

Regional notice for Singapore

This ASUS product complies with IMDA Standards.

Notices for removable batteries

- Risk of explosion if battery is replaced by an incorrect type.
- The battery and its component must be recycled or disposed of properly.

Avis concernant les batteries remplaçables

- La batterie de l’appareil peut présenter un risque d’incendie ou de brûlure si celle-ci est retirée ou désassemblée.
- La batterie et ses composants doivent être recyclés de façon appropriée.

National Telecommunications Commission of the Philippines

This ASUS product complies with NTC Standards.

RF Exposure information (SAR)

This device meets the EU requirements (2014/53/EU) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

The limits are part of extensive recommendations for the protection of the general public. These recommendations have been developed and checked by independent scientific organizations through regular and thorough evaluations of scientific studies. The unit of measurement for the European Council’s recommended limit for mobile devices is the “Specific Absorption Rate” (SAR), and the SAR limit is 2.0 W/Kg averaged over 10 gram of body tissue. It meets the requirements of the International Commission on Non-Ionizing Radiation Protection (ICNIRP).

For next-to-body operation, this device has been tested and meets the ICNIRP exposure guidelines and the European Standard EN 50566 and EN 62209-2. SAR is measured with the device directly contacted to the body while transmitting at the highest certified output power level in all frequency bands of the mobile device.

A minimum separation distance of 1 cm must be maintained between the user’s body and the device, including the antenna during body-worn operation to comply with the RF exposure requirements in Europe.
