ES

FOR UNITED STATES CUSTOMERS. NOT APPLICABLE IN CANADA, INCLUDING IN THE PROVINCE OF QUEBEC.

POUR LES CONSOMMATEURS AUX ÉTATS-UNIS. NON APPLICABLE AU CANADA, Y COMPRIS LA PROVINCE DE QUÉBEC.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this interference does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment must not be co-located or operated in conjunction with any other antenna or transmitter.

For the customer in Canada
This device complies with Industry Canada’s licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

High volume may affect your hearing.

Do not use the unit while walking, driving or cycling. Doing so may cause traffic accidents.

Do not use at a dangerous place unless the surrounding sound can be heard.

The unit is not waterproof. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the unit, stop use immediately and consult your nearest Sony dealer. In particular, remember to follow the precautions below.

– Use around a sink, etc.
Be careful that the unit does not fall into a sink or container filled with water.
– Use in the rain or snow, or in humid locations.
– Use while you are sweaty
If you touch the unit with wet hands, or put the unit in the pocket of a damp article of clothing, the unit may get wet.

For details on the effect of contact to the human body from the mobile phone or other wireless devices connected to the unit, refer to the instruction manual of the wireless device.

This product has magnets which may interfere with pacemakers, defibrillators and programmable shunt valves or other medical devices. Do not put this product close to these medical devices and the person who use any of these medical devices. Consult your doctor before using this product, if you have any concerns.

This product has magnets. Placing cards with magnets in the vicinity of the product may affect the magnetism of the card and render it unusable.

Note on static electricity

Static electricity accumulated in the body may cause mild tingling in your ears. To reduce the effect, wear clothes made from natural materials, which suppress the generation of static electricity.

IMPORTANT: THE VOICE GUIDANCE FOR THIS UNIT IS ONLY AVAILABLE IN ENGLISH.

The voice guidance can be heard from the unit when:

- When powering on: "Power" / "Power on"
- When powering off: "Power off"
- When the remaining battery level is low and recharge is recommended: "Low battery, please recharge headset"
- When automatically turning off due to low battery: "Please recharge headset, Power off"
- When checking the remaining battery level by pressing the POWER button while the unit turns on: "Battery fully charged" / "Battery about 90%" / "Battery about 80%" / "Battery about 70%" / "Battery about 60%" / "Battery about 50%" / "Battery about 40%" / "Battery about 30%" / "Battery about 20%" / "Battery about 10%"
- When entering pairing mode: "Bluetooth pairing"
- When establishing a Bluetooth connection: "Bluetooth connected"
- When disconnecting a Bluetooth connection: "Bluetooth disconnected"
- When turning on the noise canceling function: "Noise canceling"
- When turning on the Ambient Sound Mode: "Ambient sound"
- When turning off the noise canceling function and the Ambient Sound Mode: "Ambient sound control off"
- When starting the NC Optimizer: "Optimizer start"
- When the NC Optimizer is finished: "Optimizer finished"

Precautions

On BLUETOOTH™ communications

- Bluetooth wireless technology operates within a range of about 10 m (30 feet). The maximum communication distance may vary depending on the presence of obstacles (people, metal objects, walls, etc.) or the electromagnetic environment.
- Bluetooth communications may not be possible, or noise or audio dropout may occur under the following conditions:
 - When there is a person between the unit and the Bluetooth device. This situation may be improved by positioning the Bluetooth device so that it faces the antenna of the unit.
 - When there is an obstacle, such as a metal object or a wall, between the unit and the Bluetooth device.
 - When a Wi-Fi device or microwave oven is in use, or microwaves are emitted near the unit.
 - Compared to use indoors, use outdoors is subjected little to signal reflection from walls, floors, and ceilings, which results in audio dropout occurring more frequently than use indoors.

– The antenna is built into the unit as indicated by the dotted line in the illustration below. The noise canceling function of the Ambient Sound Mode can be improved by removing any obstacles between the connected Bluetooth device and the antenna of this unit.

- Bluetooth and Wi-Fi (IEEE802.11b/g/n) devices use the same frequency (2.4 GHz). When using the unit near a Wi-Fi device, electromagnetic interference may occur, resulting in noise, audio dropout, or the inability to connect. If this happens, try performing the following remedies:
 - Establish a connection between the unit and the Bluetooth device when they are at least 10 m (30 feet) away from the Wi-Fi device.
 - Turn off the Wi-Fi device when using the unit within 10 m (30 feet) of the Wi-Fi device.
 - Position the unit and the Bluetooth device as near as possible to each other.
- Microwaves emitting from a Bluetooth device may affect the operation of electronic medical devices. Turn off this unit and other Bluetooth devices in the following locations, as it may cause an accident:
 - in hospitals, near priority seating in trains, locations where inflammable gas is present, near automatic doors, or near fire alarms.

- The audio playback on this unit may be delayed from that on the transmitting device, due to the characteristics of Bluetooth wireless technology. As a result, the sound may not be in sync with the image when viewing movies or playing games.
- This product emits radio waves when used in wireless mode. When used in wireless mode on an airplane, follow flight crew directions regarding permissible use of products in wireless mode.
- The unit supports security functions that comply with the Bluetooth standard as a means of ensuring security during communication using Bluetooth wireless technology. However, depending on the configured settings and other factors, this security may not be sufficient. Be careful when communicating using Bluetooth wireless technology.
- Sony shall assume no responsibility for any damages or loss resulting from information leaks that occur when using Bluetooth communications.
 - Connection with all Bluetooth devices cannot be guaranteed.
 - Bluetooth devices connected with the unit must comply with the Bluetooth standard prescribed by Bluetooth SIG, Inc., and must be certified as compliant.
 - Even when a connected device complies with the Bluetooth standard, there may be cases where the characteristics or specifications of the Bluetooth device make it unable to connect, or result in different control methods, display, or operation.
 - When using the unit to perform hands-free talking on the phone, noise may occur depending on the connected device or the communication environment.
- Depending on the device to be connected, it may require some time to start communications.

If sound skips frequently during playback

- The situation may be improved by setting the sound quality mode to "priority on stable connection." For details, refer to the Help Guide.
- The situation may be improved by changing the wireless playback quality settings or fixing the wireless playback mode to SBC on the transmitting device. For details, refer to the operating instructions supplied with the transmitting device.
 - When listening to music from a smartphone, the situation may be improved by closing unnecessary apps or restarting the smartphone.

On the use of calling apps for smartphones and computers

- This unit supports normal incoming calls only. Calling apps for smartphones and computers are not supported.

On charging the unit

- This unit can be charged using USB only. A computer with a USB port or a USB AC adaptor is required for charging.
- Be sure to use the supplied USB Type-C cable.
- When charging, the unit cannot be turned on and the Bluetooth and noise canceling functions cannot be used.
- If the unit is not used for a long time, the rechargeable battery may become depleted quickly. The battery will be able to hold a proper charge after it is discharged and recharged several times. When storing the unit for a long time, charge the battery once every six months to prevent over-discharge.
- If the rechargeable battery becomes depleted extremely quickly, it should be replaced with a new one. Please contact your nearest Sony dealer for a battery replacement.

If the unit does not operate properly

- Follow the procedure below to reset the unit. Press the  and  buttons simultaneously while the unit is charging. The unit is reset. When the unit is reset, the pairing information in the unit is not deleted.

- If the problem persists even after the unit is reset, perform the procedure below to initialize the unit. Disconnect the USB Type-C cable and turn off the unit. Press and hold the  and  buttons simultaneously for at least 7 seconds. The indicator (blue) flashes 4 times, the unit is initialized, and the unit is reset to the factory settings. When the unit is initialized, all pairing information is deleted.
- The noise canceling function may not connect to your iPhone or computer. If this happens, delete the pairing information of the unit from the iPhone or computer, and then pair them again.

On the noise canceling function

- The noise canceling function senses external ambient noise (such as the noise inside a vehicle or the sound of air conditioning inside a room) with built-in microphones, and produces an equal-but-opposite sound that cancels out the ambient noise.
 - The noise canceling effect may not be pronounced in a very quiet environment, or some noise may be heard.
 - The noise canceling function works for noise in the low frequency band primarily. Although noise is reduced, it is not canceled completely.
 - When you use the unit in a train or a car, noise may occur depending on street conditions.
 - Mobile phtes may cause interference and noise. Should this occur, locate the unit further away from the mobile phone.
- Depending on how you wear the unit, the noise canceling effect may vary or a beeping sound (howling) may occur. If this happens, take off the unit and put it back on again.

– Do not cover the microphones of the unit with your hands or other objects. Doing so may prevent the noise canceling function or the Ambient Sound Mode from working properly, or may cause a beeping sound (howling) to occur. If this happens, take your hands or other object off of the microphones of the unit.

Notes on wearing the unit

- Because the headphones achieve a tight seal over the ears, forcibly pressing them against your ears or quickly pulling them off can result in eardrum damage. Pressing the headphones against your ears may cause the speaker diaphragm to produce a click sound. This is not a malfunction.

Other notes

- Do not subject the unit to excessive shock.
- The touch sensor may not operate properly if you apply stickers or other adhesive items to the touch sensor control panel.
- Be careful not to catch your finger in the unit when folding.
- When you use the unit as wired headphones, use the supplied headphone cable only. Make sure that the headphone cable is firmly inserted.
- The Bluetooth function may not work with a mobile phone, depending on the signal conditions and the surrounding environment.
- Do not apply weight or pressure to the unit for long periods, including when it is stored, as it may cause deformation.
- If you experience discomfort while using the unit, stop using it immediately.
- The earpads may be damaged or deteriorate with long-term use and storage.

Cleaning the unit

- When the outside of the unit is dirty, clean it by wiping with a soft dry cloth. If the unit is particularly dirty, soak a cloth in a dilute solution of neutral detergent, and wring it well before wiping. Do not use solvents such as thinner, benzene, or alcohol, as they may damage the surface.
- If you have any questions or problems concerning this unit that are not covered in this manual, please consult your nearest Sony dealer.

Replacement parts: earpads
Please consult your nearest authorized Sony retailer or www.sony.com for information about replacement parts.

Specifications

Wireless Noise Canceling Stereo Headset

Power source:
DC 3.7 V, Built-in lithium-ion rechargeable battery
DC 5 V, When charged using USB

Operating temperature:
0 °C to 40 °C (32 °F to 104 °F)

Rated power consumption:
8 W

Usage hours:

- When connecting via the Bluetooth device
Music playback time: Max. 30 hours (NC ON), Max. 22 hours (Ambient Sound Mode), Max. 28 hours (NC OFF)
Communication time: Max. 24 hours (NC ON), Max. 18 hours (Ambient Sound Mode), Max. 30 hours (NC OFF)
Standby time: Max. 30 hours (NC ON), Max. 22 hours (Ambient Sound Mode), Max. 200 hours (NC OFF)
- When connecting via the headphone cable with NC ON: Max. 36 hours
Note: Usage hours may be shorter depending on the Codec and the conditions of use.

Charging time:

- Approx. 3 hours
(About 5 hours of music playback is possible after 10 minutes charging.)
Note: Charging and usage hours may be different depending on the conditions of use.

Charging temperature:
5 °C to 35 °C (41 °F ~ 95 °F)

Mass:
Approx. 255 g (8.99 oz)

Receiver

Type:
Closed, dynamic

Driver unit:
40 mm (1.5/8 in.)

Impedance:
47 Ω (1 kHz) (when connecting via the headphone cable with the unit turned on)
16 Ω (1 kHz) (when connecting via the headphone cable with the unit turned off)

Sensitivity:
104 dB/mW (when connecting via the headphone cable with the unit turned on)
101 dB/mW (when connecting via the headphone cable with the unit turned off)

Frequency response:
4 Hz - 40,000 Hz (JEITA)

Microphone

Type:
MEMS

Directivity:
Omni directional

Effective frequency range:
50 Hz - 8,000 Hz

Included items:

- Wireless Noise Canceling Stereo Headset (1)
- USB Type-C™ cable (USB-A to USB-C™) (Approx. 20 cm (7 7/8 in.)) (1)
- Headphone cable (approx. 1.2 m (47 1/4 in.)) (1)
- Carrying case (1)
- Plug adaptor for airplane (1)*

* Depending on the in-flight entertainment services, it may not be supported.

Communication specification

Communication system:
Bluetooth Specification version 4.2

Output:
Bluetooth Specification Power Class 2

Maximum communication range:
Line of sight approx. 10 m (30 ft)*

Frequency band:
2.4 GHz band (2.4000 GHz - 2.4835 GHz)

Compatible Bluetooth profiles:
A2DP (Advanced Audio Distribution Profile)
AVRCP (Audio Video Remote Control Profile)
HFP (Hands-free Profile)
HSP (Headset Profile)

Supported Codec:
SBC™
AAC™
LDAC™
Qualcomm® aptX™ audio
aptX HD

Supported content protection method:
SCMS-T

Transmission range (A2DP):
20 Hz - 40,000 Hz (Sampling frequency LDAC 96 kHz, 990 kbps)

- The actual range will vary depending on factors such as obstacles between devices, magnetic fields around a microwave oven, static electricity, reception sensitivity, antenna's performance, operating system, software application, etc.
- Bluetooth standard profiles indicate the purpose of Bluetooth communications between devices.
- Codec: Audio signal compression and conversion format
- Subband Codec
- Advanced Audio Coding

Design and specifications are subject to change without notice.

System requirements for battery charge using USB

USB AC adaptor
A commercially available USB AC adaptor capable of supplying an output current of 1.5 A or more

Personal Computer
(As of August 2018)
Personal computer with pre-installed with any of the following operating systems and USB port:
Operating Systems:
When using Windows
Windows® 10 Home / Windows® 10 Pro
Windows® 8.1 / Windows® 8.1 Pro
Windows® 8 / Windows® 8 Pro
Windows® 7
Home Basic / Home Premium / Professional / Ultimate

When using Mac
macOS (version 10.10 or later)

Compatible iPhone/iPod models

iPhone X
iPhone 8
iPhone 8 Plus
iPhone 7
iPhone 7 Plus
iPhone 6s
iPhone 6s Plus
iPhone 6
iPhone 6 Plus
iPhone 5s
iPod touch (6th generation)
(As of August 2018)

Trademarks

- Windows is a registered trademark or trademark of Microsoft Corporation in the United States and/or other countries.
- Apple, iPhone, iPod, iPod touch, macOS and Mac are trademarks of Apple Inc., registered in the U.S. and other countries.
- Use of the Made for Apple badge means that an accessory has been designed to connect specifically to the Apple product(s) identified in the badge, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

Casque stéréo sans fil réducteur de bruits

Ne pas installer l'appareil dans un espace clos, tel qu'une bibliothèque ou une armoire encastrée.

Ne pas exposer les piles (bloc-pile ou batteries installées) à une chaleur excessive comme celle produite par les rayons du soleil, les flammes, etc. pendant une période prolongée.

Ne pas démonter, ouvrir ou décharger les piles ou batteries secondaires.
Ne pas exposer les piles ou batteries à la chaleur ou au feu. Éviter tout rangement à la lumière directe du soleil.
En cas de fuite d'une pile, ne pas laisser le liquide entrer en contact avec la peau ou les yeux. En cas de contact, laver la zone concernée avec de grandes quantités d'eau et consulter un médecin.

Les piles et batteries secondaires doivent être chargées avant toute utilisation. Toujours se reporter aux instructions du fabricant ou au manuel de l'équipement pour prendre connaissance des instructions de chargement adéquates.
Après de longues périodes de rangement, il peut être nécessaire de charger et décharger les piles ou batteries à plusieurs reprises pour obtenir une performance optimale.
Mettre au rebut de manière appropriée.

RECYCLAGE DES ACCUMULATEURS RECHARGEABLES
Les accumulateurs rechargeables sont recyclables. Vous pouvez contribuer à préserver l'environnement en rapportant les piles usées dans un point de collection et recyclage le plus proche.
Pour plus d'informations sur le recyclage des accumulateurs, visitez http://www.sony.com/electronics/eco/environmental-management
Avertissement: Ne pas utiliser des accumulateurs rechargeables qui sont endommagés ou qui fuient.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles les radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet é quipement émet une énergie RF très faible qui est considérée comme conforme sans évaluation du débit d'absorption spécifique (DAS).

Pour la clientèle au Canada
Le présent appareil est conforme au CNR d'Industrie Canada applicables aux appareils radio exempts de licence.
L'exploitation est autorisée aux deux conditions suivantes:
1) l'appareil ne doit pas produire de brouillage;
2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Un volume élevé peut affecter votre ouïe.

N'utilisez pas l'appareil pendant que vous marchez, conduisez ou faites du vélo. Vous risqueriez de provoquer des accidents de la circulation.

Ne l'utilisez pas à un endroit dangereux, à moins que vous puissiez entendre les sons environnants.

L'appareil n'est pas résistant à l'eau. Si de l'eau ou des corps étrangers pénètrent dans l'appareil, cela peut entraîner un incendie ou un choc électrique. Si de l'eau ou un corps étranger pénètre dans l'appareil, cessez immédiatement de l'utiliser et consultez votre détaillant Sony le plus proche. N'oubliez pas de suivre, notamment, les précautions ci-dessous.

- Utilisation près d'un évier, etc.
- Veillez à ce que l'appareil ne tombe pas dans un évier ou un récipient rempli d'eau.
- Utilisation sous la pluie ou la neige ou dans des endroits humides
- Utilisation pendant que vous transpirez
- Si vous touchez l'appareil avec les mains mouillées ou le mettez dans la poche d'un vêtement humide, l'appareil peut devenir mouillé.

Pour plus de renseignements sur l'effet de contact sur le corps humain que peut avoir un téléphone mobile ou autre périphérique sans fil connecté à l'appareil, consultez le manuel d'instructions du périphérique sans fil.

Ce produit est muni d'aiguins qui peuvent perturber le fonctionnement des appareils cardiaques, défibrillateurs et valves de dérivation programmables ou autres appareils médicaux. Ne placez pas ce produit à proximité de ces appareils médicaux et des personnes qui utilisent l'un de ces appareils médicaux. Si vous avez des inquiétudes, consultez votre médecin avant d'utiliser ce produit.

Ce produit est muni d'aiguins. Le fait de placer des cartes magnétiques à proximité du produit peut affecter le magnétisme des cartes et les rendre inutilisables.

Remarque sur l'électricité statique
L'électricité statique accumulée dans votre corps peut causer une légère sensation de picotement dans vos oreilles. Pour réduire l'effet, portez des vêtements fabriqués à partir de matériaux naturels, qui permettent d'éviter la production d'électricité statique.

IMPORTANT: LE GUIDAGE VOCAL POUR CET APPAREIL EST UNIQUEMENT DISPONIBLE EN ANGLAIS.
Le guidage vocal peut se faire entendre en provenance de l'appareil :

- Lors de la mise en marche : « Power on » (Marche)
- Lors de la mise en arrêt: « Power off » (Arrêt)
- Lors de la niveau restant de la batterie est faible et qu'une recharge est recommandée : « Low battery, please recharge headset » (Batterie faible, veuillez recharger le casque d'écoute)
- Lors de la mise en arrêt automatique en raison de la batterie faible : « Please recharge headset. Power off » (Veuillez recharger le casque d'écoute. Arrêt)
- Lors de la vérification du niveau restant de la batterie en appuyant sur le bouton d'alimentation pendant que l'appareil se met en marche : « Battery fully charged » / « Battery about 90% » / « Battery about 80% » / « Battery about 70% » / « Battery about 60% » / « Battery about 50% » / « Battery about 40% » / « Battery about 30% » / « Battery about 20% » / « Battery about 10% » (Batterie entièrement chargée / Batterie environ 90 % / Batterie environ 80 % / Batterie environ 70 % / Batterie environ 60 % / Batterie environ 50 % / Batterie environ 40 % / Batterie environ 30 % / Batterie environ 20 % / Batterie environ 10 %)
- Lorsque l'appareil passe en mode de jumelage : « Bluetooth pairing » (Jumelage Bluetooth)
- Lors de l'établissement d'une connexion Bluetooth : « Bluetooth connected » (Bluetooth connecté)
- Lors de la désactivation d'une connexion Bluetooth : « Bluetooth disconnected » (Bluetooth déconnecté)
- Lors de l'activation de la fonction de réduction de bruits : « Noise canceling » (Réduction de bruits)
- Lors de l'activation du Mode sonore ambient : « Ambient sound » (Son ambient)
- Lors de la désactivation de la fonction de réduction de bruits et du Mode sonore ambient : « Ambient sound control off » (Contrôle sonore ambient désactivé)
- Lors du démarrage de l'optimiseur NC : « Optimizer start » (Démarrage de l'optimiseur)
- Lorsque l'optimiseur NC a terminé : « Optimizer finished » (Optimiseur terminé)

Précautions

À propos des communications BLUETOOTH™

- La technologie sans fil Bluetooth fonctionne dans un rayon d'environ 10 m (30 pieds). La distance maximale de communication peut varier en fonction de la présence d'obstacles (personnes, objets métalliques, murs, etc.) ou de l'environnement électromagnétique.
- Les communications Bluetooth peuvent ne pas être possibles ou du bruit ou des pertes sonores peuvent se produire dans les conditions suivantes :
 - Lorsqu'il y a une personne entre l'appareil et le périphérique Bluetooth. Cette situation peut être améliorée en plaçant le périphérique Bluetooth de manière à ce qu'il soit face à l'antenne de l'appareil.
 - Lorsqu'il y a un obstacle, tel qu'un objet métallique ou un mur, entre l'appareil et le périphérique Bluetooth.
 - Lorsqu'un périphérique Wi-Fi ou un four à micro-ondes est en cours d'utilisation ou que des micro-ondes sont émises à proximité de l'appareil.
 - Comparativement à une utilisation intérieure, l'utilisation extérieure est peu soumise à la réflexion du signal sur les murs, les sols et les plafonds, ce qui entraîne une perte sonore plus élevée que lors de l'utilisation à l'intérieur d'un bâtiment.
 - L'antenne est intégrée à l'appareil comme l'indique la ligne en pointillé sur l'illustration ci-dessous. La sensibilité des communications Bluetooth peut être améliorée en retirant tout obstacle entre le périphérique Bluetooth connecté et l'antenne de cet appareil.

- Les périphériques Bluetooth et Wi-Fi (IEEE802.11b/g/n) utilisent la même fréquence (2,4 GHz). Lors de l'utilisation de l'appareil à proximité d'un périphérique Wi-Fi, des interférences électromagnétiques peuvent se produire, entraînant du bruit, des pertes sonores ou l'impossibilité de se connecter. Si cela se produit, essayez les solutions suivantes :
 - Établissez une connexion entre l'appareil et le périphérique Bluetooth lorsqu'ils sont au moins à 10 m (30 pieds) du périphérique Wi-Fi.
 - Désactivez le périphérique Wi-Fi lorsque vous utilisez l'appareil à moins de 10 m (30 pieds) du périphérique Wi-Fi.
 - Placez l'appareil et le périphérique Bluetooth aussi près que possible l'un de l'autre.
