

overview

Flexibility in panel types:

- 1, 2, 4 door panels, with or without integrated 12 and 24 VDC power supply for system and locks

License on Demand "LOD" Server

- Interconnects hardware to the cloud
- Any panel can change it's role as many times as you would like
- Scale or add capabilities (doors, sites, etc.)

No Fee Apps

- Android and iOS apps connected to a cloud server and securely connects to panels

Exceptional user experience

- Mobile friendly HTML 5 browser managed user interface - no software, works with all PCs and smart devices
- Remote Management Connection - full access to system securely from anywhere
