

Clear Invisible Keyboard Cover

- Spill and dust-proof
- Perfectly engineered to fit your keyboard
- Will not slip or slide, no adhesive strip needed
- Measures 0.1mm ultra thin
- Superior typing and noise reduction
- Nearly transparent, perfect for backlit keys
- Hand washable
- Space-age thermoplastic urethane material
- Fits Both US and European (ISO) keyboards

We've all been there...accidentally spilling your coffee across your keyboard, snacking on food that falls all over your keyboard, or any other unexpected accident that makes you gasp, as you watch the spill disappear into your Apple investment. EZQuest designed the finest, most durable, yet ultra-thin, keyboard cover to protect and enhance your Apple keyboard.

Most Durable, Yet Thin, Mac Keyboard Cover

The EZQuest Invisible Keyboard Cover is made with the best engineering-grade thermoplastic urethane material to protect and enhance your Apple computer keyboard. A mere 0.1mm thin, we engineered our cover so it fits perfectly the first time you lay it down, and every time after, so it won't slip or slide without requiring any adhesive. Our Invisible keyboard cover is molded so that it fits both US and European (ISO) Apple keyboards. The slim design is durable enough to protect your computer while providing superior typing and noise reduction. It is so clear and transparent that it is almost invisible when placed, allowing backlit keys to glow. The Invisible Keyboard Cover safeguards your keyboard from dirt, spills, wear and tear. The cover is easily hand-washed, without getting damaged or losing its shape. The EZQuest Invisible Keyboard Cover is the best investment you can make for your Mac.
