EN INSTRUCTIONS

Thank you for purchasing this Olympus product. To ensure your safety, please read this instruction manual before use, and keep it handy for future reference.

Names of parts

- ① Lens hood
- ② Focus ring
- ③ Zoom ring
- ④ Zoom lock switch
- ⑤ Mount index
- ⑥ Focus limiter switch
- ⑦ Focus mode switch
- ⑧ IS switch
- ⑨ Electrical contacts
- ⑩ Tripod mount

Focus mode switch

Switches between AF/MF.

Focus limiter switch

Sets the range of the photographing distance. Focusing is done within the range that is set.

IS switch

ON: The stabilizing function of the lens operates.

OFF: The stabilizing function of the lens is off. The stabilizing function of the camera operates according to the setting on the camera. If you do not want to use the stabilizing function, disable the function on both the camera and the lens.

Zoom lock switch

Prevents inadvertent extension of the lens. Set the dial of the zoom ring to "100", and set the zoom lock switch to the "LOCK" position.

Attaching the hood (Fig. ①)

Storing the hood (Fig. ②)

Removing the tripod mount (Fig. ③)

Turn the knob of the tripod mount to loosen it

- ①. Turn the tripod mount in the direction of the arrow, align it with the mark ②, and remove it from the lens body ③.

Notes on Shooting

- Please use the latest firmware for the camera. Operations will vary depending on the camera. For more information, please visit our home page. Contact the other manufacturer to mount the lens on another manufacturer's digital camera.
- Edges of pictures may be cut off if more than one filter is used or if a thick filter is used.
- When using a flash, flash light may be blocked by the lens body, lens hood, etc.
- Usage conditions may lower the number of images that can be captured.
- Do not hold only the camera body without holding the lens. The waterproofing characteristic or optical performance may not be maintained.
- Do not touch electric contacts on cameras.

Maintenance

Blow dust off the lens with a commercially available blower. For the lens, wipe gently with a lens cleaning paper. Mold may form on the lens surface if the lens is left dirty.

Main Specifications

Mount	: Micro Four Thirds mount
Focal distance	: 100 – 400 mm (equivalent to 200 to 800 mm on a 35 mm camera)
Max. aperture	: f5.0
Image angle	: 12° – 3.1°
Lens configuration	: 15 groups, 21 lenses
Iris control	: f5.0 to f22
Shooting range	: 1.3 m (51.2 in.) to ∞ (infinite)
Focus adjustment	: AF/MF switching
Weight	: 1,120 g (39.5 oz.) (excluding hood, cap and tripod mount)
Dimensions	: Max. dia. Ø 86.4 (3.4 in.) × length 205.5 mm (8.1 in.)
Lens hood	: Bayonet
Filter mount thread diameter	: Ø 72 mm

This lens can be used with an M.ZUIKO teleconverter. For more information on compatible teleconverters and notes on combining them with the lens, please visit our home page.

* Specifications are subject to change without any notice or obligation on the part of the manufacturer.

Precautions: Be Sure to Read the Following

Warnings: Safety Precautions

- Do not view the sun through the lens. It may cause blindness or vision impairment.
- Do not leave the lens without the cap. If solar light is converged through the lens, a fire may result.
- Do not point the camera lens at the sun. Sunlight will converge in the lens and focus inside the camera, possibly causing a malfunction or fire.

Olympus will not be held liable for violations of local regulations arising from use of this product outside the country or region of purchase.

FCC Notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- Only the OLYMPUS-supplied USB cable should be used to connect the camera to USB enabled personal computers.

FCC Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For customers in North America, Central America, South America and the Caribbean

Declaration of Conformity

Model Number : IM022

Trade Name : OLYMPUS

Responsible Party : **OLYMPUS AMERICA INC.**

Address : 3500 Corporate Parkway, P. O. Box 610, Center Valley, PA 18034-0610, USA

Telephone Number : 484-896-5000

Tested To Comply With FCC Standards

FOR HOME OR OFFICE USE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
