

USB-C to USB-C Gen2 Cable

- **Introduction**

Pengo USB-C to USB-C Gen2 Cable features an aesthetically pleasing and functional aluminum housing with our mesh SR designed to withstand heavy-duty use and resist numerous pull-plug wear and tear. It supports USB 3.1 Gen2 data transfer SuperSpeed+ up to 10Gbit/s. USB-C to C Gen2 cable has E-marker IC inside, allowing it to support PD 3.0 charging; max power of 100W and up to 5A of charging output. Meeting all the USB-C specifications will ensure the cable stability and reliability.
