Remove the Camera's Ring Cap

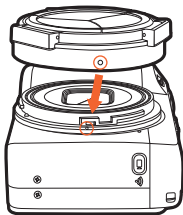

1. Turn the camera off.
2. Rotate the camera's ring cap counterclockwise to remove it.

Warning! Do not touch the converter pins.

Attach the Lens Protector

1. Make sure the camera's power is off, and align the Sensei Lens Protector's mounting dot with the camera's mounting dot.

2. Insert and rotate the protector clockwise until it clicks.

Turning the camera's power on and off will open and close the lens protector.
