

USB cable with lightning connector 0.2 m

- **Introduction**

Pengo's Lightning to USB-A Cable crafted with an aesthetically pleasing and functional anodized aluminum housing providing exceptional durability and preventing electromagnetic interference. Its integrated strain relief (SR) structure is designed to withstand heavy-duty use and resist long-term wear and tear. Our cable has a soft finishing double-braided nylon exterior, enhancing its bend cycle, reducing tangling, and enabling its optimal use. The MFi certified cable will ensure a stable, secure charging, syncing and data transfer.

- **Features**

1. Supports the latest Apple Lightning specifications, MFi certified.
2. Supports USB 2.0 data transfer hi-speed rates up to 480Mbit/s.
3. Simple and elegant design.
4. Crafted with anodized aluminum housing with integrated strain relief (SR) design.
5. Double-braided nylon exterior.

- **Specifications**
