User Guide

AU-STREAM

The AU-Stream is the light version of our renowned AU-Stream ANC earbud. Designed with the same guiding principles of premium audio, technology and comfort. The AU-Stream is engineered with many of the same leading-edge technologies minus the noise-cancellation feature and is ideal for audio enthusiasts and a perfect choice for a music creators everyday use.

Similar to the ANC version the audio signature was designed for balance and clarity. The AU Titanium driver gives it a more realistic audio playback because of it's three-layer 13MM Titanium film, giving this true wireless earbud a frequency range of 20Hz - 20KHz. This earbud is engineered to give you premium audio at an accessible price with the durability and comfort to listen to your music all day, everywhere.

AUSOUNDS FEATURES

High Performance AU Titanium Driver

A 13MM AU Titanium composite film speaker with a frequency range of 20Hz - 20KHz, and tuned to perfection for everyday use. This driver was engineered to give the ultimate sound in a mobile lightweight housing.

Bluetooth 5.0 with smart pairing

You no longer have to connect. Just open your case and remove your earbuds and that's it. With new Bluetooth 5.0 your AU-Stream will automatically connect to your device as long as you are within 32 feet of it.

Supports AI voice assistant

AU Stream comes equipped with AI voice assistant technology. With three simple taps on your AU Stream earbuds you will activate the premium microphones allowing you to access this highly convenient function.

Rapid Wireless Charging Case

Our rapid wireless charging case is quick and easy to use. It takes today's wireless technology and creates a feature that is a must have for mobile convenience. On the go became that much easier. This case will charge your AU-Stream on any Qi certified wireless charging port.

Waterproof IPX5

IPX5 Waterproof rating in our headphones can resist a sustained, low-pressure water jet spray. This is not only good for unwanted drops in water, but this is the best rating against sweat, so you keep a sustained music quality and performance when you're using these for your morning hike.

Total Battery Life 17.5 Hours

With five hours of talk and music playback and a pocket-sized case with an additional fifteen hours of charge, you will never have to worry about charging your earbuds again.

Dual Microphone for crystal clear calls

Conference calls and long-distance collaborations need the best voice quality. We spared no expense on this feature, adding dual mics to ensure you cancel ambient noise but hear the caller clearer than ever.

Master dual switch

The master dual switch technology automatically switches to and prioritizes your active earbud. AU Stream detects which earbud is in your ear or still charging in the travel case and switches audio playthrough and microphone reception to the active unit, while deactivating the dormant unit.

AUSOUNDS QUICK START GUIDE

CHARGING THE EARBUDS AND CHARGING CASE BEFORE USE

FIND YOUR FIT

Choose the size of the silicone ear tips that provide a secure and comfortable fit for the perfect audio seal.

PRODUCT DETAILS

When using for the first time, please charge at least 10 minutes first.

LISTENING COMFORT

Select the right size ear tip

Please choose the ear tip size for a comfortable fit and audio seal for the ultimate audio playback. Lightly pull the ear tip, remove it from the ear buds, and install a new suitable ear tip.

Wearing earbuds

Lightly insert the earbuds into the ear and adjust it to a comfortable angle by rotating the earbuds (R is the right ear and L is the left ear)

BLUETOOTH FEATURES

Automatic remote connection

When the ear buds and your mobile phone are disconnected, due to distance, just return the correct distance and the ear buds will automatically connect to your mobile phone and return to the normal connection state. If it is disconnected for more than 30 minutes, tap the Bluetooth name in your phone to connect again. If it is disconnected for more than 2 hours, it will automatically shut down.

Automatically switch between left and right ear

Remove any one and put it into charging case ,the earbuds to switch to a single ear state of the earbuds.

Reset

Open the battery compartment cover, press and hold the base button 10 seconds, The indicator light flashes 3 times and the pairing record of Bluetooth and AU-Stream ANC earbuds inside of the case is cleared.

CHARGING

Earbuds charging and battery life

In Bluetooth mode only, a single play can last up to 6 hours and the total battery life can reach 17.5 hours with charging case.

Earbuds charging

Put the ear buds in the charging case and they will automatically shut down and enter the charging state.
