

LTS-DT915

Adjustable Laptop Stand for Desktops

Owner's Manual

Thank you for choosing Auray.

The Auray LTS-DT915 Laptop Stand is an ideal addition to the gear case of any DJ or electronic musician, and it's an effective desktop solution for any home or office workstation. This rugged all-metal stand furnishes stable desktop and tabletop support for any laptop computer, and its arms are angled down for easy access to the keyboard. The stand's height adjusts from 9 to 14 inches, and it quickly disassembles for easy transport. The stand will also support essential DJ gear like mixers, drum machines, and lighting controllers. The legs are designed to wedge underneath mixing consoles or DJ coffins for an ergonomic and efficient studio setup, but the stand can be used as a stand-alone desktop support that unclutters a workstation.
