Waterproof LED Light
WL8P

We always believe that creations should be as free as inspiration. With full faith in breaking the obstacles between creativity and reality, Godox is so glad to launch waterproof LED WL8P, with which your work won't be limited on land anymore.

As a pocket-sized LED with rugged metal housing, it is perfect for on-the-go shooting even in tough conditions. Featuring trustful brightness, high color fidelity and adjustable color temperature, the light combines high performance with portability, ready to cope with any wet weather shooting or realize your underwater creativity.

Born for on-the-go

Compact, portable and rugged, WL8P packs every remarkable feature for your on-the-go shooting. Measuring 11cm*5.7cm*3.25cm and weighing only 263g, when shooting on location, taking a WL8P is almost like taking another smartphone, barely adding any burden to your journey. The all-metal housing is extremely durable for any tough condition, not to mention it's also waterproof to ignore extreme weather.

Ready for Water Challenge

With IP68 waterproof down to 10m, the light can resist wet weather and accidental splash easily, a reliable solution for any waterside vlogging and video making. Moreover, you can take it into the water with your action camera and other favorite rigs for true underwater creation.

Light up Your Creation

160 high-quality LED beads bring trustworthy brightness, dimmable from 0%-100%. Combined with a wide beam angle, it allows you to light up all the subjects within the frame. Perfect to serve as a Vlog light or fill light for your shooting.

Excellent Color Fidelity

With a CRI rating of 96+ and a TLCI rating of 97+, it delivers vibrant, natural light and reproduces accurate colors.

Adjustable Color Temperature

The CCT mode features a wide color temperature range from 2700k-8500k, providing more creative ways with no need for gels. A nice choice to match the ambient light, shape your look and get the amazing skin tone you want.

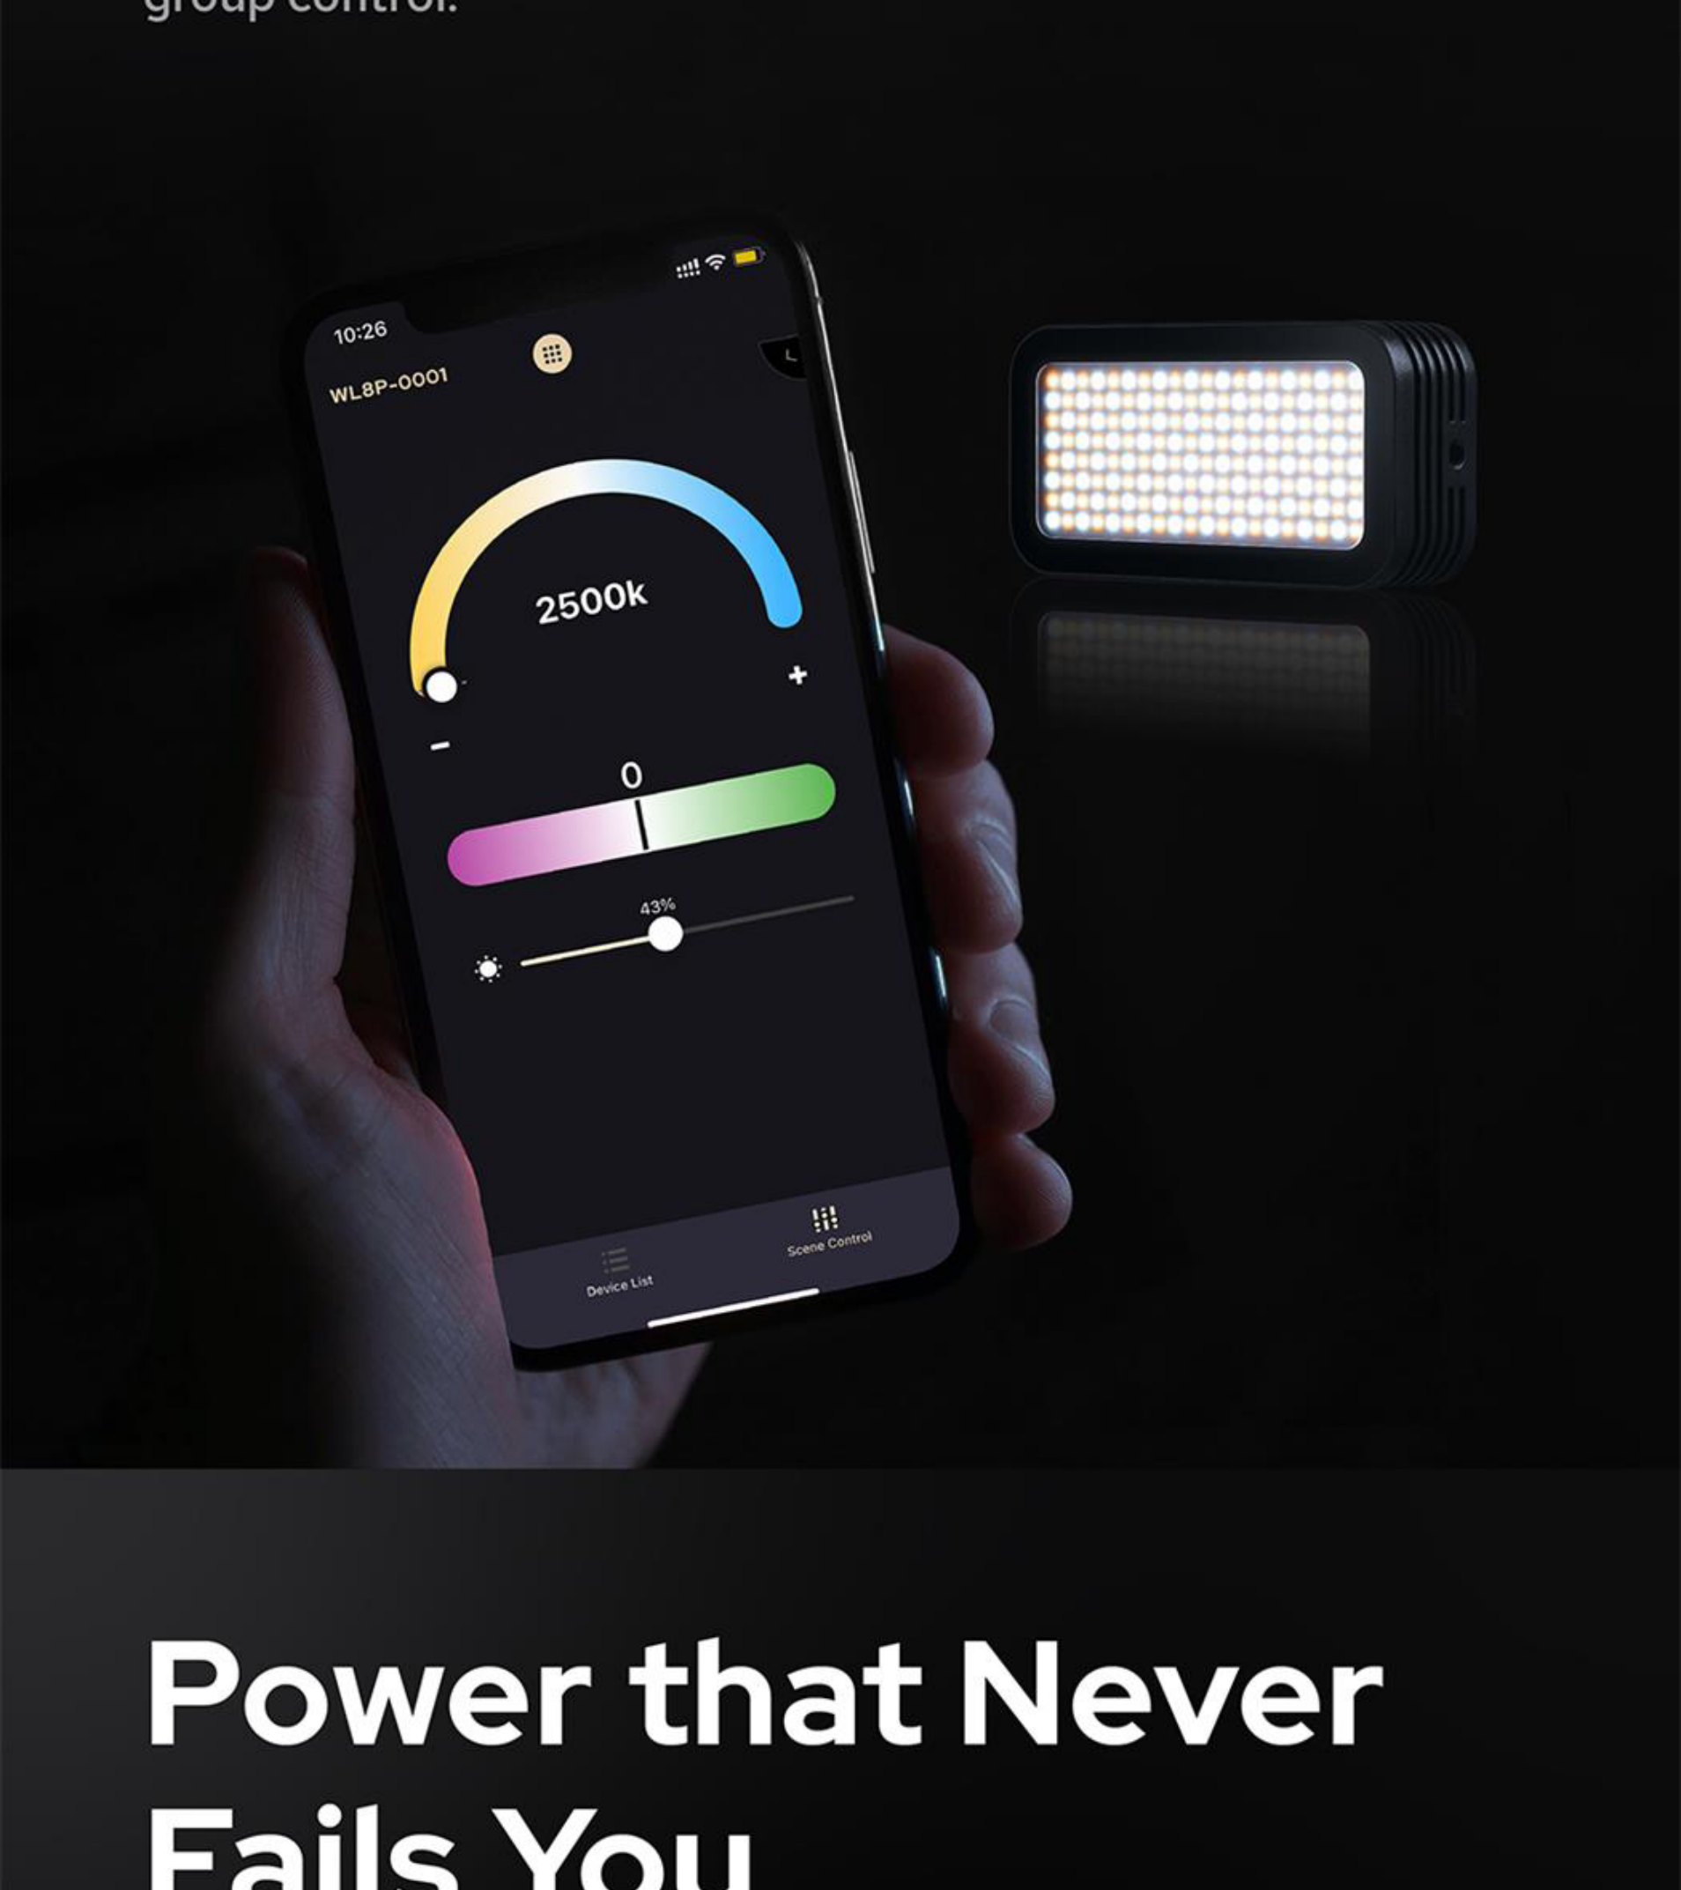
Wireless Control at Your Fingertip

Through Godox Light App, you can change the brightness, color temperature and FX effects of WL8P remotely. Especially practical when you use it as an underwater light source or need group control.



Power that Never Fails You

Built-in 2900mAh lithium battery guarantee a 1-hour runtime at full brightness, which helps you concentrate on creation without interruption. A reliable choice both on location and indoor.
