FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Operation of this equipment in a residential area is likely to cause interference in which case the user at his or her own risk and expense will be required to correct the interference.

Declaration of Conformity

Macally Peripherals, declares that the IceCam conforms to the following standards, in accordance with the provisions of the EC Directive 89/366/EEC: EN 55022 (CISPR 22:1985), Class A.

Warranty

Macally Peripherals warrants that this product will be free from defects in materials and workmanship for period of time specified on the product packaging. This limited warranty shall commence from the date of purchase. Macally Peripherals warranty is not transferable and is limited to the original purchaser. If the product is found to be defective then, as your sole remedy and as the manufacturer's only obligation, Macally Peripherals will repair or replace the product. This warranty shall not apply to products that have been subjected to abuse, misuse, abnormal electrical or environmental conditions, normal wear and tear or any condition other than what can be considered normal use.

Limitation of Liability

The liability of Macally Peripherals arising from this warranty and sale shall be limited to a refund of the purchase price. In no event shall Macally Peripherals be liable for costs of procurement of substitute products or services, or for any lost profits, or for any consequential, incidental, direct or indirect damages, however caused and on any theory of liability, arising from this warranty and sale. These limitations shall apply not with standing any failure of essential purpose of any limited remedy.

Frequently Asked Questions (FAQs)

Q. Does IceCam work with iChatAV?

A: Apple iChatAV only supports FireWire web cams such as iSight. iChatAV does not support USB web cam. Third party software such as iChatUSBCAM will enable IceCam to use with iChatAV.

Q. My IceCam image is blurry.

A: You may adjust the Focus by turning the “Focus adjust ring” on the iceCam to make the image more clear.

Q. Can I plug IceCam into keyboard's USB port?

A. No. IceCam requires more power than keyboard's USB port provide. You should plug your IceCam into computer's built-in USB ports or a self-powered USB Hub.
