

IPD-101

iPad Microphone Stand Adapter

Owner's Manual

Introduction

Thank you for choosing Auray.

The Auray IPD-101 iPad Microphone Stand Adapter mounts your iPad onto a microphone stand's shaft or threaded mount, so you can view your iPad hands-free onstage or in the studio. The adjustable bracket ensures safe and easy support for your iPad, and the unique positioning system provides 180° tilt and 360° rotation for optimal landscape and portrait positioning. The IPD-101 is ideal for using your iPad for music scores, lyric charts, or apps during performances and recording sessions.

Overview

Adapter locking knob **1**

Bolt **2**

Two (2) washers **3**

Clamp mounting adapter **4**

Clamp **5**

Clamp locking knob **6**

Adapter socket **8**

Bracket locking knob **9**

Bracket extension **10**

Also Included

5/8"-27 threaded mounting adapter **11**

Two (2) adhesive foam strips **12**

User manual

Instructions

Switching Mounting Adapters

The IPD-101 comes with the clamp mounting adapter attached, but you can switch it with the threaded mounting adapter to mount your iPad on the threaded mount of a microphone stand.

To switch mounting adapters, follow these steps:

1. Unscrew the adapter locking knob all the way and remove the bolt, washers, and clamp mounting adapter.
2. Insert the threaded mounting adapter into the adapter socket, with the washers on either side of the adapter. Make sure the holes in the adapter, washers, and socket line up. **1**
3. Insert the bolt into the square hole in the adapter socket, so the square bottom of the bolt head mates with the square shape of the hole. **2**
4. Screw the adapter locking knob onto the bolt until secure.

Mounting the IPD-101 to a Microphone Stand's Threaded Mount

To mount the IPD-101 to the threaded mount of a microphone stand, align the adapter's threaded socket with the microphone stand's threaded mount, and screw the iPad adapter on until secure. **3**

Mounting the IPD-101 to a Microphone Stand Shaft

To mount your IPD-101 to a microphone stand shaft via the clamp mounting adapter, follow these steps:

1. Open the clamp by loosening the clamp locking knob.
2. Fit the clamp around the microphone stand shaft.
3. Close the clamp by tightening the clamp locking knob until secure.

4

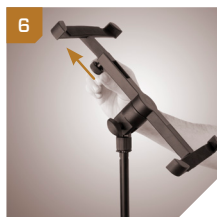

Inserting Your iPad into the Bracket

To insert your iPad into the bracket of the IPD-101, follow these steps:

1. If you are using the iPad 2 or a newer model, remove the backing from the adhesive foam strips, and apply them to the brackets. If you are using the original iPad model, skip this step. **5**
2. Loosen the bracket locking knob and open the bracket to its widest extension. **6**
3. If your iPad is in a case, remove it from the case. Insert your iPad bottom-first into the bracket. **7**
4. Close the bracket extension so it fits over the top corners of your iPad and firmly holds it in place.
5. Tighten the bracket locking knob until secure.

Important! Do not insert your iPad into the bracket until after you have successfully mounted the IPD-101 on to the microphone stand.

Positioning the IPD-101

The rubber washers in the IPD-101 allow you to adjust the orientation and angle of the bracket without loosening and retightening the adapter locking knob. Make sure the adapter locking knob is tight enough to hold your iPad in place but not so tight that you cannot adjust the angle of the bracket.

Specifications

Compatibility: iPad, iPad 2, new iPad, and iPad with Retina Display

Attachments: clamp and 5/8"-27 thread

Weight (with clamp mounting adapter): 10.4 OZ. (294.8 g)

Precautions

Please read and follow these instructions and keep this manual in a safe place.

- Do not attempt to disassemble or repair this product.
- Clean this product with only a soft, dry cloth.
- Use only parts provided by the manufacturer.
- Make sure everything is secure before proceeding.
- Make sure that this product is intact and that there are no missing parts.
- Unless instructed otherwise, make sure not to unscrew any of the locking knobs all the way, or they will fall off.
- To avoid damage to this product, be careful not to overtighten or improperly thread any of the threaded fittings.
- Do not insert your iPad into the bracket until after you have successfully mounted the IPD-101 on to the microphone stand.
- All photos are for illustrative purposes only.

Warranty

Auray provides a limited warranty that this product is free from defects in materials and workmanship to the original purchaser under normal use for a period of one (1) year from the original purchase date or thirty (30) days after replacement whichever occurs later. Our responsibility with respect to this limited warranty shall be limited solely to repair or replacement, at its option, of any product which fails during normal consumer use.

To obtain warranty coverage during the Warranty Period, contact your place of purchase (“Seller”) to obtain a return merchandise authorization (“RMA”) number, and return to Seller the defective product along with proof of purchase and the RMA number.

This warranty does not extend to damage or failure which results from misuse, neglect, accident, alteration, abuse, improper installation or maintenance. EXCEPT AS PROVIDED HEREIN, AURAY MAKES NEITHER ANY EXPRESS WARRANTIES NOR ANY IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. This warranty provides you with specific legal rights, and you may also have additional rights which vary from state to state.
