

Wide Vista Background Screen

BGVW-CG-813

Chroma Green, 8 × 13 ft.

INSTRUCTIONS

Thank you for choosing Angler.

Angler's foldable 8 × 13-foot chroma green screen is a portable solution for video or still photography when you need to deploy a green screen in minutes. The screen's 8-foot height is ideal for full-body shots, and the 13-foot width is perfect for wedding and family portraits, team photos, and simulated action shots. This screen provides photographers and directors with a smooth, wrinkle-free polyester muslin-type fabric for even illumination across the screen. Use this chroma green backdrop in photo, video, and broadcast applications to digitally insert a background with most green-screen software.

Attaching the Panels with the Clamps

Once the four sections are assembled, attach the three inner edges of the panels with clamps on the tops and bottoms.

Attaching the Screen

1. Unfold the screen and lay it on a flat surface, with the reenforced attachment strip facing up.
2. Lay the frame on top of the screen, and align the outer edges of the frame with the attachment strips.
3. Attach the screen around the edges with the elastic loops. Start with the corners, and then attach the rest of the loops.
4. Use the excess material to create a sweep at the base of the screen.
