DEFINITIONS

MOUNTING SYSTEM: A MOUNTING SYSTEM is the primary Chief product to which an accessory and/or component is attached.

ACCESSORY: AN ACCESSORY is the secondary Chief product which is attached to a primary Chief product, and may have a component attached or setting on it.

COMPONENT: A COMPONENT is an audiovisual item designed to be attached or resting on an accessory or mounting system such as a video camera, CPU, screen, display, projector, etc.

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all accessories are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this accessory and the mounting system can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which the mounting system and this accessory is attached can support five times the combined weight of all equipment.

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components attached to mounting system does not exceed the weight capacity of the mounting system.

WARNING: Use this accessory only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

WARNING: Never operate this accessory if it is damaged. Return the accessory to a service center for examination and repair.

WARNING: Do not use this accessory outdoors.

IMPORTANT ! : The FMSSCSM accessory is designed to act as an adapter plate between the Chief ceiling array head and standard strut channel accessories which are being used as stabilizers to the ceiling mounting system.

IMPORTANT ! : If attaching the strut channel to a metal or wood stud wall, the strut channel accessory must be attached to the wall through a stud.

TOOLS REQUIRED FOR INSTALLATION

PARTS

REQUIRED PARTS - EXAMPLES (not included)

These are examples only of metal strut channel mount accessories to use in the stabilizer system. Other metal strut channel mount configurations may also be used. Appropriate hardware (suggested by strut channel manufacturer) is also required.

ASSEMBLY AND INSTALLATION

NOTE: The FMSSCSM accessory is designed to act as an adapter plate between the Chief ceiling array head and standard metal strut channel accessories which are being used as stabilizers to the ceiling mounting system.

1. Attach standard metal strut channel accessory to the mount back plate (A) using two 3/8 x 1" hex head screws (B), four 3/8" flat washers (E) and two 3/8" lock nuts (D). (See Figure 1)

Figure 1

2. Connect mount back plate (A) with attached metal standard strut channel accessory to the ceiling mounting system using four 5/16 x 5/8" button head cap screws (C) and four 5/16" flat washers (F). (See Figure 2)

Figure 2

3. Attach standard metal strut channel to strut channel accessory following strut channel manufacturer's instructions.
4. Attach standard metal strut channel to wall or ceiling as desired for stabilizing, following strut channel manufacturer's instructions for various wall constructions.
