TENBA®

MESSENGER

## MESSENGER

The Messenger collection is all about speed, stealth and versatility. Get at your camera and laptop gear quickly, with bags and accessories that have nearly infinite uses, and do it all without anyone knowing that you have expensive equipment with you.

When building a bag to be used every day, there is no choice but to use the best materials and hardware. All Messenger bags are made with water-repellant, military-grade 1000 denier nylon, YKK® zippers, Duraflex® clips, steel D-rings and a waterproof bottom panel. That's what it takes to keep a bag looking good while carrying everything you need to a photo shoot or an office; close to home or on vacation.

# PRO PERFORMANCE IN EVERY BAG

1

## Air Mesh Back Panel

All Messenger bags have a padded, ventilated and moisture wicking back panel that provides cushioning and comfort at the contact points. This is especially important when you are carrying the bag for long stretches on hot days.

2

## Tough 1000 Denier Nylon Exterior

Nylon is more rugged, water- and tear-resistant than polyester, that's why it's used in all of the best adventure travel gear. A nylon exterior ensures that Messenger bags are built for serious everyday use, yet they remain extremely lightweight. And Tenba's military-grade nylon has a polyurethane coating to make it extremely water-repellant.

3

## The Finest Hardware Available

We use YKK® zippers, Duraflex® clips and steel D-rings because that's what you need in a bag that you use every day.

4

## Waterproof Bottom Panel

You never know when you might have to put your bag down on a wet surface. And you might not even know what put the "wet" in "wet surface" (I'm looking at you, New York City subway platform). Messenger bags feature a special abrasion and moisture resistant panel on the bottom to keep the bag dry and protected no matter what's on the ground.

\*Features vary by model.

Quick Access™ zipper lets you remove gear without opening the main flap

**WE TOOK THE CLASSIC URBAN MESSENGER** and made it better – with military-grade nylon, YKK zippers, Duraflex clips, welded-steel D-rings and enough pockets to organize your life. Then we added a laptop sleeve, a removable camera insert and the all-important top-access zipper and PRESTO! A perfect camera bag.
