

Product Description: Camera Strap V2.0

Thin, lightweight camera strap with non-slip pattern on both sides

For more information please visit: www.thinktankphoto.com

Product Description:

Simple, yet very functional, Camera Strap V2.0 is designed to provide alternative carrying options for photographers. Durable metal rings on the Camera Strap link up with the Camera Support Straps V2.0 (sold separately) then connect to any Think Tank backpack or harness system. The Camera Strap V2.0 features silicone non-slip patterns on both sides of the strap. There's no immediate need to unfurl a twisted strap if a photographer is in a hurry. Purposefully thin and lightweight, the Camera Strap V2.0 also remains discreet which are essential characteristics for traveling photographers.

Key Features:

- **Non-Slip material on both sides of the strap**
- **Metal rings built in for attachment to Camera Support Straps V2.0**
- **Available in two colors, gray/black and blue/black**
- Easily compressed for travel
- Thin and lightweight
- Discreet appearance
- Fully adjustable
