

Power 95

User Manual

Thank you for choosing MOMAN product. Please read this manual carefully before use and follow all instructions mentioned herein.

Features

- High-performance li-ion cells, safe for aviation carry-on;
- Lithium ion battery, no memory effect, environmental protection;
- Low power consumption in static, low temperature coefficient, strong anti-interference ability.
- Designed with intelligent circuit protection against over-voltage, over-current, over-charge, over-discharge, short circuit, heat temperature, etc.
- Double D-Tap outputs, maximum output power is 168W; Two USB outputs can directly supply power to mobile phones, tablets and other electronic devices.

Appearance

- | | |
|-------------------------|--------------------------|
| ① D-tap Input & Output | ⑤ USB-A Output |
| ② Battery Power Display | ⑥ V-Mount |
| ③ Switch Button | ⑦ BP Electrode Interface |
| ④ D-tap Input & Output | |

Charging instructions

Charging through Electrode interfaces

- It is recommended to use professional V-Mount charger to charge this battery.

Charging through D-Tap

- It is recommended to use professional charger to charge through the D-TAP interface. Please note that the positive and negative poles of the D-TAP interface should not be reversed when charging.

Discharge instructions

Charging through Electrode interfaces

- It is recommended to use in the temperature of 0-40°C to ensure the best performance of the battery.
- D-Tap outputs DC 14.8V, maximum output 168W While the battery is used on the camera, it can also output 16.8V DC to power other devices such as interview lights.
- Standard USB outputs DC 5V 2A, maximum output 10W

Specifications

Voltage	14.8V	
Capacity	95Wh, 6450mAh	
Output Power	BP	16.8V $\approx$ 10A (Max)
	D-TAP	16.8V $\approx$ 10A (Max)
	USB	5V $\approx$ 2A
Dimensions	106*88*51mm	
Weight	525g	

Caring For Your MOMAN Product

- Please keep the product in a dry, clean, dust-free environment.
- Keep corrosive chemicals, liquids and heat source away from the product to prevent mechanics damage.
- Use only a soft and dry cloth for cleaning the product.
- Malfunction may be caused by dropping, impact of external force.
- Do not attempt to disassemble the product. Doing so voids warranty.
- Please have the product checked or repaired by authorized technicians if any malfunctions happened.
- Failure to follow all the instructions may result in mechanics damage.
- Warranty does not apply to human errors.

Warranty

Warranty rules

- From the date of purchase, the product will be replaced within one month if quality problems occur, and guaranteed within two years.
- Within the warranty period, any defect originating from the quality of the product, we offer free repair or replacement of spare parts.

Please note the following circumstances are not within the scope of free maintenance.

- Product malfunction or damage caused by failure to install, use, maintain or store according to the instructions.
- Product damage caused by disassembly / maintenance without authorization.
- The warranty period has expired.
- Product damage due to force majeure factors (such as earthquake, flood, fire, lightning strike, etc.) or artificial damage.

Disclaimer

Our company does not assume any responsibility for product damage or any other accidents caused by product overheating or short circuit caused by failure to follow instructions in this manual.
